Section 90.176 requires each Private Land Mobile frequency coordinator to provide, within one business day, a listing of their frequency recommendations to all other frequency coordinators in their respective pool, and if requested, an engineering analysis. Any method can be used to ensure this compliance with the "one business day requirement" and must provide, at a minimum, the name of the applicant; frequency or frequencies recommended; antenna locations and heights; the effective radiated power; the type(s) of emissions; the description of the service area; and the date and time of the recommendation. If a conflict in recommendations arises, the affected coordinators are jointly responsible for taking action to resolve the conflict, up to and including notifying the Commission that an application may have to be returned.

This requirement seeks to avoid situations where harmful interference is created because two or more coordinators recommend the same frequency in the same area at approximately the same time to different applicants.

Automated reporting also enhances the Commission's ability to quantify the effects of policy proposals.

The Commission has granted AT&T, Verizon, legacy Qwest, and other similarly situated carriers conditional forbearance from FCC Report 43-06. See *Petition of AT&T Inc. for Forbearance under 47 U.S.C. 160 from Enforcement of Certain of the Commission's Cost Assignment Rules*, WC Docket Nos. 07-21, 05-342, Memorandum Opinion and Order, 23 FCC Rcd 7302 (2008) (*AT&T Cost Assignment Forbearance Order*), *pet. for recon. pending, pet. for review pending, NASUCA v.
