SUPPLEMENTARY INFORMATION: The Draft EIS analyzes the potential impacts of issuing a lease for the Alton Coal Tract, serial number UTU 081985. An application to lease Federal coal near the Town of Alton, Utah, was filed with the BLM on November 12, 2004, by Alton Coal Development, LLC., in accordance with 43 CFR 3425.
The Alton Coal Tract includes 59.6 million tons of in-place bituminous coal. The coal quality in the Smirl coal zone on an “as received basis” is as follows: 10,019 Btu/lb (British Thermal Units per pound), 13 percent moisture, 10 percent ash, 39 percent volatile matter, 50 percent fixed carbon and 1.13 percent sulfur underlying the following lands in Kane County, Utah:
Salt Lake Meridian
T. 39 S., R. 5 W., Sec. 7, SE1⁄4SW1⁄4 and 5⁄8SE1⁄4;
Sec. 18, lots 3 and 4 and E1⁄4, E1⁄4SW1⁄4;
Sec. 19, lots 1 through 4 inclusive, NE\`4, E\`4W\`4, N\`4\`4E\`4, and SE\`4\`4SE\`4; Sec. 20, lots 4 and 5, and N\`4\`4SW\`4; Sec. 30, lots 2 through 4 inclusive, SW\`4\`4NE\`4, SE\`4\`4NW\`4, E\`4\`4SW\`4, and W\`4\`4SE\`4; Sec. 31, lots 1 through 3 inclusive, NE\`4, E\`4\`4NW\`4, NE\`4\`4SW\`4, and N\`4\`4SE\`4; T. 39 S., R. 6 W., Sec. 12, SW\`4\`4 and W\`4\`4SE\`4; Sec. 13, NW\`4\`4NE\`4, N\`4\`4NW\`4, SE\`4\`4NW\`4, and SE\`4; Sec. 24, NE\`4\`4, NE\`4\`4SE\`4, SE\`4\`4NW\`4, E\`4\`4SW\`4, N\`4\`4SE\`4, and SE\`4\`4SE\`4; Sec. 25, E\`4\`4NE\`4, SW\`4\`4NE\`4, and SE\`4. Containing 3,581.27 acres more or less.

Consistent with Federal regulations under NEPA and the Mineral Leasing Act of 1920, as amended, the BLM must prepare an environmental analysis prior to holding a competitive Federal coal lease sale. The Draft EIS analyzes and discloses to the public the direct, indirect, and cumulative environmental impacts of issuing a Federal coal lease on the Alton Coal Tract, including mining and transportation of coal to a railhead near Cedar City, Utah. A copy of the Draft EIS has been sent to affected Federal, State, tribal, and local government agencies: persons and entities identified as potentially being affected by a decision to lease the Federal coal in this tract; and persons who indicated to the BLM that they wished to receive a copy of the Draft EIS. The purpose of the public hearing is to solicit comments on the Draft EIS, for the proposed competitive lease sale of the Alton Coal Tract, and on the FMV and MER of the Federal coal.

The Draft EIS analyzes leasing the Alton Coal Tract as the Proposed Action. Under the Proposed Action, a competitive sale would be held and a lease issued for Federal coal in the tract. As part of the coal leasing process, the BLM is evaluating an additional alternative that would remove 394 acres and 6.8 million tons of Federal coal in the tract to minimize impacts in close proximity to the Town of Alton and preserve seasonal Greater sage-grouse habitat. The alternate tract configuration that the BLM is evaluating is described and analyzed as Alternative C in the Draft EIS. Under this alternative, a competitive sale would be held and a lease issued for Federal coal lands included in a tract modified by the BLM. The Draft EIS also analyzes the alternative of rejecting the application to lease Federal coal as the No Action Alternative. The Proposed Action and alternatives being considered in the Draft EIS are in conformance with the Kanab Field Office Record of Decision and Approved Resource Management Plan (2008).

Requests to be included on the mailing list for this project, for copies of the Draft EIS, or to be notified of the dates of the comment period and public hearing may be sent by mail, facsimile, or electronically to the addresses listed in the ADDRESSES section above. For those submitting comments on the Draft EIS, please make the comments as specific as possible with reference to page numbers and sections of the document. Comments that contain only opinions or preferences will not receive a formal response; however, they may be considered and included as part of the BLM decision-making process.

The public hearing is being held on the proposed lease sale to allow public comment on, and discussion of, the potential effects of the proposed lease sale and mining and transportation of the coal. The BLM must make determinations of the FMV of the coal in the tract(s) and whether MER of the coal in the tract can be accomplished. Proprietary data marked as confidential may be submitted to the BLM in response to FMV and MER in this solicitation of public comments. Data so marked shall be treated in accordance with the laws and regulations governing confidentiality of such information. A copy of the comments submitted by the public on FMV and MER, except those portions identified as proprietary by the author and meeting exemptions stated in the Freedom of Information Act, will be available for public inspection at the Bureau of Land Management, Utah State Office during regular business hours (7:45 a.m. to 4:30 p.m.), Monday through Friday, except holidays.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Juan Palma,
State Director.
