

(except 1954). ARTS covers employer firms with establishments located in the United States and classified in the Retail Trade and/or Accommodation and Food Services sectors as defined by the 2007 North American Industry Classification System (NAICS). ARTS provides, on a comparable classification basis, annual sales, annual e-commerce sales, purchases, total operating expenses, accounts receivables, and year-end inventories held inside and outside the United States for 2011. The Census Bureau has determined that the conduct of this survey is necessary because these data are not available publicly on a timely basis from any other sources.

A new sample of firms will be selected for the 2011 ARTS. It is expected that approximately 60–70% of the companies that are asked to report will be doing so for the first time (and, consequently, 60–70% of the prior sample will no longer be asked to report). In order to link estimates from the new and prior samples, we will be asking companies to provide data for 2011 and 2010. The ARTS for 2012 and those for subsequent years will request one year of data until a new sample is once again introduced.

Firms are selected for the ARTS survey using a stratified random sample based on industry groupings and annual sales size. We will provide report forms to the firms covered by this survey in January 2012, and will require their responses within 60 days after receipt. Firms' responses to the ARTS survey are required by law (Title 13 U.S.C. Sections 182, 224, and 225). The sample of firms selected will provide, with measurable reliability, statistics on annual sales, annual e-commerce sales, purchases, total operating expenses, accounts receivables, and year-end inventories held both inside and outside the United States for 2011.

The data collected in this survey will be similar to that collected in the past and within the general scope and nature of those inquiries covered in the economic census. These data are collected to provide a sound statistical basis for the formation of policy by various government agencies. Results will be available for use for a variety of public and business needs including economic and market analysis, company performance, and forecasting future demand.

Notwithstanding any other provision of law, no person is required to respond to, nor shall a person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act (PRA) unless that collection of information displays a

current valid Office of Management and Budget (OMB) control number. In accordance with the PRA, 44 U.S.C. 3501–3521, OMB has approved the Annual Retail Trade Survey under OMB Control Number 0607–0013.

Based upon the foregoing, I have directed that an annual survey be conducted for the purpose of collecting these data.
