FEDERAL MARITIME COMMISSION

Notice of Inquiry

The Federal Maritime Commission is issuing this Notice of Inquiry to solicit the public’s views and information concerning factors that may cause or contribute to the shift of containerized cargo destined for U.S. inland points from U.S. to Canadian and Mexican seaports. Comments are due on or before December 22, 2011.

SUMMARY: The Federal Maritime Commission (FMC or Commission) has received requests from United States Senators Patty Murray and Maria Cantwell (both of Washington), Members of Congress...
Rick Larsen, Jay Inslee, Norm Dicks, Adam Smith, Dave Reichert, Jaime Herrera Beutler and Jim McDermott (all of Washington), and Congresswoman Laura Richardson (California), to study the impacts and the extent to which the U.S. Harbor Maintenance Tax (HMT), other U.S. policies, and other factors may incentivize container cargo to shift from U.S. West Coast ports to those located in Canada and Mexico. These requests also asked the Commission to make legislative and regulatory recommendations to address this concern.

In recent years, there has been a steadily observed increase in the amount of U.S.-destined cargo moving through newly established west coast Canadian port Prince Rupert and the expanded Mexican port Lázaro Cárdenas. These same years saw investment in and promotion of Canadian and Mexican port and intermodal rail infrastructure, as well as changes to environmental requirements, security considerations, and customs inspection procedures.

The HMT has also been the subject of recent congressional interest. Originally enacted as part of the Comprehensive Water Resources Development Act of 1986, the HMT was devised to help fund harbor and channel maintenance by charging users of U.S. seaports at an ad valorem rate of 0.125%. See 26 U.S.C. 4461. The HMT is currently imposed only on imports and is payable at the time of unloading of the cargo in the U.S. port. Id. Cargo ultimately destined for U.S. inland points to entering at Canadian or Mexican seaports is not subject to the HMT.

In order to prepare the fullest response possible, the Commission now invites comment and information from all members of the interested public (whether they be located in the United States or elsewhere), including public and private entities, mayors, councils, members of Congress, state and local officials, business or trade associations, and federal, state or other agencies that may have an interest in the issues presented. The Commission thus invites comment and information on the following questions:

1. Describe the differences, if any, in taxes, fees, laws, regulations, cargo handling, customs processes, related terminal/port procedures, infrastructure, or intermodal services between U.S. and Canadian or Mexican ports that may come into consideration when determining the route a cargo destined for U.S. inland points. Please be as specific as possible.

2. Provide your opinion and supporting data regarding the reasons vessel-operating common carriers serving the U.S., Canada and Mexico may prefer to make Mexican or Canadian ports their first North American ports of call.

3. Describe why ocean transportation intermediaries or importers may prefer to route their customers’ inland U.S.-destined cargo via a Mexican or Canadian port.

4. Describe and, if possible, quantify the advantages and disadvantages a beneficial cargo owner may face when considering whether to route inland U.S.-destined cargo via a Mexican or Canadian port. Specifically, what role, if any, does the assessment of the Harbor Maintenance Tax (HMT) have on that determination? What are the other considerations? If there is a cost advantage due to lower total transportation costs (ocean, truck, rail), please quantify those differences and describe the source of any such cost differentials.

5. Please quantify the effect, if any, the change in cargo routing has had on employment in the United States.

6. Describe what volume or other incentives, bonuses or discounts, if any, are offered by ports, common carriers, terminal operators, or other entities for cargo moved through Canadian or Mexican ports and where these may be available to the shipping public.

7. Describe the advantages and/or disadvantages current transportation services via Canadian or Mexican ports may offer to U.S. exporters.

8. State your view on actions that the U.S. Government can take to improve competitiveness of U.S. ports. Of those actions, what are the most important or pressing?
