SUPPLEMENTARY INFORMATION:

Background: In 2001, six Federal agencies began formal cooperation under a Memorandum of Understanding (MOU) on the research and development of multimedia (i.e., air, soil, water) environmental models. This MOU established the Interagency Steering Committee on Multimedia Environmental Modeling. The MOU was revised and renewed in 2006, and has just been revised and renewed for a third five year period in 2011. The MOU establishes a framework for facilitating cooperation and coordination among research organizations in the participating agencies. The first five

agencies to sign the current renewal of the MOU include: The National Science Foundation; the U.S. Nuclear Regulatory Commission; the Environmental Protection Agency; the U.S. Department of Energy, Office of Environmental Management; and the U.S. Geological Survey. Other agencies are still reviewing the revised MOU. These agencies are cooperating and coordinating in the research and development of multimedia environmental models, software and related databases, including development, enhancements, applications and assessments of site specific, generic, and process-oriented multimedia environmental models as they pertain to human and environmental health risk assessment. Multimedia model development and simulation supports interagency interests in risk assessment, uncertainty analyses, water supply issues and assessments of contaminant transport.

Purpose of the Public Meeting: The annual public meeting provides an opportunity for the scientific community, other Federal and State agencies, and the public to be briefed on ISCMEM activities and their initiatives for the upcoming year, and to discuss technological advancements in multimedia environmental modeling.

Proposed Agenda: The ISCMEM Chair will open the meeting with a brief overview of the goals of the MOU and an update on current activities and future plans of ISCMEM. This introduction will be followed by a series of invited technical presentations for the remainder of the first day and the morning of the second day focusing on topics of mutual interest to ISCMEM participants. The steering committee will hold an open business session on the afternoon of the second day. A detailed agenda with presentation titles and speakers will be posted on the ISCMEM public Web site: <https://www.iemhub.org/groups/iscmem2011meeting>. The agenda and instructions for registration will also be available through the list of public meetings on the US Nuclear Regulatory Commission Web site at <http://www.nrc.gov/public-involve/public-meetings.html>.

The most convenient transportation to the meeting venue is via Metro Rail since there is extremely limited on-street parking. Please take Metro to the White Flint Metro stop on the Red Line.
