Coast Guard

33 CFR Part 117

[Docket No. USCG-2011-1025]

Drawbridge Operation Regulation; Neuse River, New Bern, NC

AGENCY: Coast Guard, DHS.
ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Commander, Fifth Coast Guard District, has issued a temporary deviation from the regulations governing the operation of the Neuse River Railroad Bridge across the Neuse River, mile 34.2, at New Bern, NC. The deviation restricts the operation of the draw span to facilitate repairs to the main mechanism of the bridge.

DATES: This deviation is effective from 9 a.m. on November 15, 2011 until 6 p.m. November 17, 2011.

ADDRESSES: Documents mentioned in this preamble as being available in the docket USCG-2011-1025 and are available online by going to <http://www.regulations.gov>, inserting USCG-2011-1025 in the "Keywords" box, and then clicking "Search". This material is also available for inspection or copying the Docket Management Facility (M-30), U.S. Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE.,

Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal Holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule, call or email Mr. Bill H. Brazier, Bridge Management Specialist, Fifth Coast Guard District, telephone (757) 398-6422, email Bill.H.Brazier@uscg.mil. If you have questions on reviewing the docket, call Renee V. Wright, Program Manager, Docket Operations, (202) 366-9826.

SUPPLEMENTARY INFORMATION: Norfolk and Southern Railroad Corporation, who owns and operates the Neuse River Railroad Bridge, mile 34.2, at New Bern, NC, requested a temporary deviation from the current operating regulations to facilitate repairs to the main mechanism of the bridge.

Under the regular operating schedule, the swing bridge opens on signal as required by 33 CFR 117.5. In the closed position to vessels, the bridge has no available vertical clearance.

To facilitate repairs, the swing span will be closed to vessels requiring an opening from 9 a.m. on November 15, 2011 until and including 6 p.m. on November 17, 2011. There are no alternate routes for vessels transiting this section of the Neuse River.

The majority of the vessels that transit through this bridge during this time of year are recreational with intermittent tug and barge traffic.

The Coast Guard has carefully coordinated the restrictions with commercial and recreational waterway users. The Coast Guard will inform all users of the waterway through our Local and Broadcast Notice to Mariners of the closure periods for the bridge so that vessels can arrange their transits to minimize any impacts caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the draw must return to its original operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: October 27, 2011.
Waverly W. Gregory, Jr.,
Bridge Program Manager, Fifth Coast Guard District.

33 CFR Part 117

[Docket No. USCG-2011-1020]

Drawbridge Operation Regulation; Calcasieu River, Westlake, LA

AGENCY: Coast Guard, DHS.
ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Commander, Eighth Coast Guard District, has issued a temporary deviation from the regulation governing the operation of the Union Pacific Railroad swing bridge across the Calcasieu River, mile 36.4, at Westlake, Calcasieu Parish, Louisiana. The deviation is necessary to upgrade the electrical and mechanical systems of the bridge. This deviation allows the bridge to remain closed-to-navigation on three different dates in November.

DATES: This deviation is effective from 8 a.m. on Thursday, November 10, 2011 through 6 p.m. on Thursday, November 24, 2011.

ADDRESSES: Documents mentioned in this preamble as being available in the

docket are part of docket USCG–2011–1020 and are available online by going to <http://www.regulations.gov>, inserting USCG–2011–1020 in the “Keyword” box and then clicking “Search”. They are also available for inspection or copying at the Docket Management Facility (M–30), U.S. Department of Transportation, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule, call or email Kay Wade, Bridge Administration Branch, Coast Guard; telephone (504) 671–2128, email Kay.B.Wade@uscg.mil. If you have questions on viewing the docket, call Renee V. Wright, Program Manager, Docket Operations, telephone (202) 366–9826.

SUPPLEMENTARY INFORMATION: The Union Pacific Railroad has requested a temporary deviation from the operating schedule for the swing span bridge across the Calcasieu River, mile 36.4, at Westlake, Calcasieu Parish, Louisiana. The swing span bridge has a vertical clearance of 1.07 feet above mean high water, elevation 3.56 feet Mean Gulf Level in the closed-to-navigation position.

In accordance with 33 CFR 117.5, the bridge currently opens on signal for the passage of vessels. This deviation allows the swing span of the bridge to remain closed-to-navigation from 8 a.m. through 6 p.m. on Thursday, November 10, Thursday, November 17, and Thursday, November 24, 2011. The swing span of the bridge will open for the passage of vessels from 12 noon to 1 p.m. on Thursday, November 17 and Thursday, November 24, 2011.

The closures are necessary in order to remove the existing structural steel, shafts, and gears; and to install two new main drive motors, gears, and wiring on both sides of the pivot pier of the turn span. This maintenance is essential for the continued operation of the bridge. Notices will be published in the Eighth Coast Guard District Local Notice to Mariners and will be broadcast via the Coast Guard Broadcast Notice to Mariners System.

Navigation on the waterway is minimal at the bridge site. The very limited commercial traffic at the bridge site consists of commercial tugs with tows. There are only two companies that transit above the bridge. The bridge will be able to open for emergencies if necessary. There are no alternate waterway routes available. Based on experience and coordination with

waterway users, it has been determined that these closures will not have a significant effect on vessels that use the waterway.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: November 1, 2011.

Eric A. Washburn,

Bridge Administrator.

Coast Guard

33 CFR Part 117

[Docket No. USCG–2011–1021]

Drawbridge Operation Regulation; Atlantic Intracoastal Waterway (AIWW), Elizabeth River, Southern Branch, Chesapeake, VA

AGENCY: Coast Guard, DHS.

ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Commander, Fifth Coast Guard District, has issued a temporary deviation from the regulations governing the operation of the Norfolk Southern #7 Railroad Bridge across the Elizabeth River (Southern Branch), AIWW mile 5.8, at Chesapeake, VA. Under this temporary deviation, the drawbridge may remain in the closed position on specific dates and times to facilitate laying new rail.

DATES: This deviation is effective from 7 a.m. on November 28, 2011 to 5 p.m. on November 29, 2011.

ADDRESSES: Documents indicated in this preamble as being available in the docket are part of docket USCG–2011–1021 and are available online at <http://www.regulations.gov>, inserting USCG–2011–1021 in the “Keyword” box and then clicking “Search”. They are also available for inspection or copying at the Docket Management Facility (M–30), U.S. Department of Transportation, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule, call or

email Mr. Jim Rousseau, Bridge Management Specialist, Fifth Coast Guard District; *telephone:* (757) 398–6557; *Email:*

James.L.Rousseau2@uscg.mil. If you have any questions on viewing the docket, call Renee V. Wright, Program Manager, Docket Operations, *telephone:* (202) 366–9826.

SUPPLEMENTARY INFORMATION: The Norfolk Southern Corporation, who owns and operates this single-leaf bascule drawbridge, has requested a temporary deviation from the current operating regulations set out in 33 CFR 117.997(e) to facilitate laying new rail.

Under the current operating schedule, the bridge shall be left in the open position at all times and will only be lowered for the passage of trains and to perform periodic maintenance. The Norfolk Southern #7 Bridge, at AIWW mile 5.8, across the Elizabeth River (Southern Branch) in Chesapeake, VA, has a vertical clearance in the closed position to vessels of 7 feet above mean high water.

To facilitate laying new rail, the drawbridge will be maintained in the closed-to-navigation position from 7 a.m. to 5 p.m. on November 28 and 29, 2011. The bridge normally operates in the open position with several vessels transiting a week. Coordination with waterway users has been completed.

The Coast Guard will inform the users of the waterway through our Local and Broadcast Notices to Mariners of the opening restrictions of the draw span to minimize transiting delays caused by the temporary deviation. There are no alternate routes available but vessels may pass between 5 p.m. and 7 a.m. Mariners able to pass under the bridge in the closed position may do so at any time and the bridge is able to open for emergencies. Mariners are advised to proceed with caution.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the designated time period.

This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: October 26, 2011.

Waverly W. Gregory, Jr.,

Bridge Program Manager, Fifth Coast Guard District.
