Policy Justification

Saudi Arabia—M1151A1–B1, M1152A1–B2 HMMWVs

The Kingdom of Saudi Arabia has requested a possible sale of 124 M1151A1–B1 Up-Armored High Mobility Multi-Purpose Wheeled Vehicles (HMMWVs) and 99 M1152A1–B2 Up-Armored HMMWVs, with supplemental armor kits, spare and repair parts, support and test equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of logistical and program support. The estimated cost is \$33 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to

be, an important force for political stability and economic progress in the Middle East.

The proposed sale will provide a highly mobile and light combat vehicle capability enabling the Royal Saudi Land Forces (RSLF) to rapidly engage and defeat perimeter security threats and readily employ counter- and anti-terrorism measures. The RSLF already has HMMWVs in its inventory and will have no difficulty absorbing these vehicles.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be AM General of South Bend, Indiana. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Saudi Arabia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
