

**SUPPLEMENTARY INFORMATION:****Comments Invited**

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation is available at <http://www.reginfo.gov>. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

**Information Collection Requirement**

*Title:* Airport Security, 49 CFR part 1542.

*Type of Request:* Extension of a currently approved collection.

*OMB Control Number:* 1652-0002.

*Form(s):* NA.

*Affected Public:* Airport operators regulated under 49 CFR part 1542.

*Abstract:* TSA is seeking to renew its OMB control number 1542-0002, Airport Security, 49 CFR part 1542. The information collection is used to determine compliance with 49 CFR part 1542 and to ensure passenger safety and security by monitoring airport operator security procedures. The following information collections and other recordkeeping requirements with which respondent airport operators must comply fall under this OMB control number: (1) Development of an Airport Security Program (ASP) and submission to TSA; (2) submission of ASP amendments to TSA when applicable; (3) collection of data necessary to complete a criminal history records check (CHRC) for those individuals with access to a Security Identification Display Area (SIDA); (4) submission to TSA of identifying information about individuals to whom the airport operator has issued identification media, such as name, address, and country of birth, in order for TSA to conduct a Security Threat Assessment

(STA); and (5) recordkeeping requirements associated with records required for compliance with the regulation, and for compliance with Security Directives (SDs).

This information collection is mandatory for airport operators. As part of their security programs, affected airport operators are required to maintain and update, as necessary, records of compliance with the security program provisions set forth in 49 CFR part 1542. This regulation also requires affected airport operators to make their security programs and associated records available for inspection and copying by TSA to verify compliance with transportation security regulations.

TSA also collects identifying information on individuals with unescorted access to a SIDA. Airport operators must ensure that individuals seeking unescorted access authority submit information for and receive a CHRC, as well as submit information so that TSA can conduct an STA. As part of this process, the individual must provide identifying information, including fingerprints. Additionally, airport operators must maintain these records and make them available to TSA for inspection and copying upon request.

*Number of Respondents:* 445.

*Estimated Annual Burden Hours:* An estimated 1,606,685 hours annually.
