San Bernardino Meridia
T. 11 N., R. 24 W., Sec. 14, being a portion of the NW¼SW¼ described as:

Beginning at the northwest corner of said sec. 14; thence north 89°03′10″ east, a distance of 972.60 feet to a point on the northwest line of California State Highway 166; thence south 45°00′ west along the northwest line of said highway, a distance of 1181.86 feet; thence west southerly along the northwest line of said highway on the arc of a circle having a radius of 730 feet; being concave to the southeast with an interior angle of 21°46′28″, a distance of 277.47 feet to the west line of said section 14; thence north 0°13′30″ west along the west line of said section, a distance of 1068.04 feet to the point of beginning.

Excepting therefrom that portion as deeded to the State of California recorded March 3, 1981 in book 5355 page 2425 of official records, file no. 020797. The area described contains 10.98 acres in Kern County.

Under certain conditions, Section 209(b) of the Federal Land Policy and Management Act of October 21, 1976, 43 U.S.C. 1719 authorizes the sale and conveyance of the federally-owned mineral interests in land when the surface estate is not federally-owned.

The objective is to allow consolidation of the surface and subsurface mineral interests when either one of the following conditions exist: (1) There are no known mineral values in the land; or (2) Where continued Federal ownership of the mineral interests interferes with or precludes appropriate non-mineral development and such development is a more beneficial use of the land than mineral development.

An application was filed for the sale and conveyance of the federally-owned mineral interests in the above-described tract of land. Subject to valid existing rights, on November 15, 2011 the federally-owned mineral interests in the land described above are hereby segregated from appropriation under the public land laws, including the mining laws, while the application is being processed to determine if either one of the two specified conditions exists, and if so, to otherwise comply with the procedural requirements of 43 CFR part 2720. The temporary segregative effect shall terminate: (1) Upon issuance of a patent or other document of conveyance as to such mineral interests; (2) Upon final rejection of the application; or (3) November 15, 2013, whichever occurs first.
