

Number of Respondents: 1,500.

The estimated annual burden hour for the online survey is 500 hours. Based on the Bureau of Labor and Statistics' median hourly wage (all occupations) in the May 2010 National Occupational Employment and Wage Estimates, NHTSA estimates that it would cost an average of \$16.27 per hour if all respondents were interviewed on the job. Therefore, the agency estimates that the cost associated with the burden hours is \$8,135 (\$16.27 per hour x 500 interviewing hours).

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Departments estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology. A Comment to OMB is most effective if OMB receives it within 30 days of publication.

ADDRESSES: Send comments, within 30 days, to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725–17th Street NW., Washington, DC 20503, Attention NHTSA Desk Officer.

Issued in Washington, DC, on November 10, 2011.

Gregory A. Walter,
Senior Associate Administrator, Policy and Operations.

Pipeline and Hazardous Materials Safety Administration

[Docket No. PHMSA–2011–0241, (Notice No. 11–10)]

Safety Advisory: Unauthorized Marking of Compressed Gas Cylinders

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA), DOT.

ACTION: Safety Advisory Notice.

SUMMARY: An undetermined number of high pressure DOT specification cylinders were improperly marked from approximately August 2007 to August 2011 and marked with a RIN of B377.

Prior to filling these cylinders, a person must verify that the cylinder has

been properly requalified by an authorized requalification company and properly marked.

FOR FURTHER INFORMATION CONTACT:

Morgan Welding and Supply, Mr. Daniel Horosko, Owner or Mr. Matthew Stepps, Manager, 488 Finley Road, Albion, MI, Telephone (517) 629–6566.

SUPPLEMENTARY INFORMATION:

This notice advises the public that PHMSA has recently confirmed the marking and sale of certain high pressure DOT specification cylinders that were marked with a requalification identification number (RIN) without performing a visual inspection and hydrostatic test. The company that marked the cylinders does not have authority from the Associate Administrator to requalify high pressure DOT cylinders. The evidence suggests that if a cylinder purchased from Morgan Welding and Supply, Albion, Michigan is marked with a “B377” in which the individual letter and numbers appear to be stamped individually, the mark may have been improperly placed on the cylinder. The cylinder did not undergo the complete series of safety tests and inspections required by the Hazardous Materials Regulations (HMR) and may not possess the structural integrity to safely contain its contents under pressure during normal transportation and use. Extensive property damage, serious personal injury, or death could result from a rupture of the cylinder. Individuals who identify a cylinder marked with the RIN “B377” stamped with individual letter/numbers that are not in a square pattern, are advised to remove these cylinders from service and contact Morgan Welding and Supply, Albion, MI for further instructions.

However, the RIN “B377” is currently authorized to Midwest Cylinder Inc., located in Cleaves, OH. Cylinders purchased from Midwest Cylinder Inc. will have the proper RIN “B377” and have been properly requalified. Cylinders from Midwest Cylinder Inc. can also be identified by blue paint highlighting the requalification markings. The RIN, “B377” has been stamped on the cylinder with a square pattern stamp so the marks will appear uniform and straight.

Issued in Washington, DC, on November 4, 2011.

Magdy El-Sibaie,

Associate Administrator for Hazardous Materials Safety.

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[Docket No. AB 1076 (Sub-No. 1X)]

Caddo Valley Railroad Company—Abandonment Exemption—in Pike and Clark Counties, AR

On October 27, 2011, Caddo Valley Railroad Company (CVRR) filed with the Surface Transportation Board (Board) a petition under 49 U.S.C. 10502 for exemption from the provisions of 49 U.S.C. 10903 to abandon a segment of the Norman Branch Line extending between milepost 429.45, near Gurdon, and milepost 447, near Antoine, a distance of 17.55 miles, in Pike and Clark Counties, Ark. (the line).¹ The line traverses United States Postal Service Zip Codes 71943 and 71922, and includes the stations of Summit (milepost 433.1), Okolona (milepost 441.0), and Pike City Junction (milepost 446.5).

CVRR states that, based on information in CVRR's possession, the line does not contain Federally granted rights-of-way. Any documentation in CVRR's possession will be made available promptly to those requesting it.

The interest of railroad employees will be protected by the conditions set forth in *Oregon Short Line Railroad—Abandonment Portion Goshen Branch Between Firth & Ammon, in Bingham & Bonneville Counties, Idaho*, 360 I.C.C. 91 (1979).

By issuance of this notice, the Board is instituting an exemption proceeding pursuant to 49 U.S.C. 10502(b). A final decision will be issued by February 14, 2012.

Any offer of financial assistance (OFA) under 49 CFR 1152.27(b)(2) will be due no later than 10 days after service of a decision granting the petition for exemption. Each OFA must be accompanied by a \$1,500 filing fee. See 49 CFR 1002.2(f)(25).

All interested persons should be aware that, following abandonment of

¹ On November 9, 2011, CVRR filed a letter with the Board attaching a letter dated October 7, 2011, from counsel for Arkansas Midland Railroad Company, Inc. (AKMD). AKMD notes that CVRR acquired the Norman Branch, which includes the line at issue here, from AKMD under the Board's feeder line statute at 49 U.S.C. 10907. See *Caddo Antoine & Little Mo. R.R.—Feeder Line Acquis.—Ark. Midland R.R. Co. Line Between Gurdon & Birds Mill, Ark.*, 4 S.T.B. 326 (1999). AKMD further states that on September 29, 2011, AKMD reacquired from CVRR the segment of the Norman Branch between milepost 426.88 in Gurdon and milepost 429.45 north of Gurdon and, as part of the same transaction, waived its statutory right of first refusal with respect to the rest of the Norman Branch. See 49 U.S.C. 10907(h).
