Foreign-Trade Zones Board

[Docket 73–2011]

Foreign-Trade Zone 277—Western Maricopa County, AZ; Application for Manufacturing Authority, Sub-Zero, Inc. (Refrigerators and Freezers), Goodyear, AZ

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Greater Maricopa County Foreign Trade Zone, Inc., grantee of FTZ 277, requesting manufacturing authority on behalf of Sub-Zero, Inc. (Sub-Zero), located in Goodyear, Arizona. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a–81u), and the regulations of the Board (15 CFR part 400). It was formally filed on November 10, 2011.

The Sub-Zero facility (260 employees, 10 acres, 150,000 units/year) is located at 4295 N. Cotton Lane within the Palm Valley 303 Industrial Park in Goodyear, Arizona (Site 3). The facility is used to manufacture refrigerators, freezers, and wine storage units for export and the domestic market. Components and materials sourced from abroad (representing 14% of the value of the finished products) include: Oils, greases, paints, varnishes, caulking, sealants, cleansers, glues/adhesives, epoxies, chemical binding agents, polyethylenes, polystyrenes, polyvinyl acetates, polyamides, articles of plastic, silicones, boxes, cases, crates, pallets, ethylene bags, stoppers/lids/caps, table utensils, articles of rubber, articles of paper, printed materials, slag/rock wools, safety glass, silver, fasteners, springs, wire, articles of steel, copper tubes/pipes/fittings/profiles, aluminum bars/rods/profiles/fasteners/foil/fittings, structures of aluminum, articles of zinc, articles of magnesium, locks, base metal mountings, automatic door actuators, pumps, compressors, fans, air conditioners, heat pumps, refrigerator parts, filters, process controllers, taps, valves, bearings, gears, electric motors and parts thereof, transformers, semiconductor devices, converters, magnets, electrical components, lamps, coaxial cable, insulators, regulators, thermostats, timers, and lighters (duty rate range: Free—10.7%; 14.8¢/kg + 3.5%; 45¢ ea. + 6.4% + 2.5¢/jewel).

FTZ procedures could exempt Sub-Zero from customs duty payments on foreign materials and components used in export production. The company anticipates that some 10 percent of the plant's shipments will be exported. On its domestic sales, Sub-Zero would be

able to choose the duty rate during customs entry procedures that applies to refrigerators, freezers, and wine storage units (duty rate—free) for the foreign inputs noted above. Sub-Zero would also be exempt from duty payments on any of the foreign inputs that become scrap or waste during manufacturing. FTZ designation would further allow Sub-Zero to realize logistical benefits through the use of weekly customs entry procedures. Customs duties also could possibly be deferred or reduced on foreign status production equipment. The application indicates that the savings from FTZ procedures would help improve the plant's international competitiveness.

In accordance with the Board's regulations, Pierre Duy of the FTZ Staff is designated examiner to evaluate and analyze the facts and information presented in the application and case record and to report findings and recommendations to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is January 17, 2012. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to January 30, 2012.

A copy of the application will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 2111, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230–0002, and in the "Reading Room" section of the Board's Web site, which is accessible via <http://www.trade.gov/ftz>.

For further information, contact Pierre Duy at Pierre.Duy@trade.gov or (202) 482–1378.

Dated: November 10, 2011.

Andrew McGilvray,
Executive Secretary.

Chlorinated Isocyanurates from the People's Republic of China: Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the Department) is conducting an administrative review of the antidumping duty order on chlorinated isocyanurates (chlorinated isos) from the People's Republic of China (PRC). The period of review (POR) for this administrative review is June 1, 2009, through May 31, 2010. We invited interested parties to comment on our *Preliminary Results*.¹ Based on our analysis of the comments received, we have made changes to the margin calculations. Therefore, the final results differ from the preliminary results. The final dumping margin for this review is listed in the "Final Results of Review" section below.

DATES: *Effective Date:* November 16, 2011.

FOR FURTHER INFORMATION CONTACT: Emily Halle, AD/CVD Operations, Office 6, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; *telephone:* (202) 482–0176.

SUPPLEMENTARY INFORMATION:**Background**

On July 11, 2011, the Department published its *Preliminary Results*. On August 1, 2011, Clearon Corporation and Occidental Chemical Corporation (Petitioners) timely filed surrogate value information.² The Department notified parties that it had clarified its separate rate methodology for non-reviewed companies on August 30, 2011.³ On September 9, 2011, Hebei Jiheng Chemical Company, Ltd. (Jiheng), Juancheng Kangtai Chemical Co., Ltd. (Kangtai), Zhucheng Taisheng Chemical Co., Ltd. (Zhucheng), and Petitioners filed case briefs. Kangtai also filed new factual information on September 9, 2011,⁴ which the Department rejected as untimely on September 16, 2011.⁵ On
