DEPARTMENT OF HEALTH AND HUMAN SERVICES**National Institutes of Health****Prospective Grant of Exclusive License: Development of Cannabinoid(s) and Cannabidiol(s) Based Therapeutics To Treat Hepatic Encephalopathy in Humans.**

AGENCY: National Institutes of Health, Public Health Service, HHS.

ACTION: Notice.

SUMMARY: This is notice, in accordance with 35 U.S.C. 209(c)(1) and 37 CFR part 404.7(a)(1)(i), that the National Institutes of Health, Department of Health and Human Services, is contemplating the grant of an exclusive patent license to practice the invention embodied in U.S. Patent 6,630,507, entitled “Cannabinoids as antioxidants and neuroprotectants” and PCT Application Serial No. PCT/US99/08769 and foreign equivalents thereof, entitled “Cannabinoids as antioxidants and neuroprotectants” [HHS Ref. No. E–287–1997/2] to KannaLife Sciences Inc., which has offices in New York, U.S. This patent and its foreign counterparts have been assigned to the Government of the United States of America.

The prospective exclusive license territory may be worldwide, and the field of use may be limited to:

The development and sale of cannabinoid(s) and cannabidiol(s) based therapeutics as antioxidants and neuroprotectants for use and delivery in humans, for the treatment of hepatic encephalopathy, as claimed in the Licensed Patent Rights.

DATES: Only written comments and/or applications for a license which are received by the NIH Office of Technology Transfer on or before December 19, 2011 will be considered.

ADDRESSES: Requests for copy of the patent, inquiries, comments, and other materials relating to the contemplated exclusive license should be directed to: Betty B. Tong, Ph.D., Senior Licensing and Patenting Manager, Office of Technology Transfer, National Institutes of Health, 6011 Executive Boulevard, Suite 325, Rockville, MD 20852–3804; *Telephone:* (301) 594–6565; *Facsimile:* (301) 402–0220; *Email:* *tongb@mail.nih.gov*.

SUPPLEMENTARY INFORMATION: The technology describes pharmaceutical compositions of cannabinoids that are useful as tissue protectants, such as neuroprotectants and cardioprotectants. The cannabinoids compounds may be used, for example, in the treatment of acute ischemic neurological insults or chronic neurodegenerative diseases. Nonpsychoactive cannabinoids, such as Cannabidiol (CBD), are particularly advantageous since they avoid toxicity that is encountered with psychoactive cannabinoids at high doses.

The prospective exclusive license will be royalty bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR part 404.7. The prospective exclusive license may be granted unless within thirty (30) days from the date of this published notice, the NIH receives written evidence and argument that establishes that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR part 404.7.

Applications for a license in the field of use filed in response to this notice will be treated as objections to the grant of the contemplated exclusive license. Comments and objections submitted to this notice will not be made available for public inspection and, to the extent permitted by law, will not be released under the Freedom of Information Act, 5 U.S.C. 552.

Dated: November 10, 2011.

Richard U. Rodriguez,

Director, Division of Technology Development and Transfer, Office of Technology Transfer, National Institutes of Health.

DEPARTMENT OF HEALTH AND HUMAN SERVICES**Substance Abuse and Mental Health Services Administration****Agency Information Collection Activities: Proposed Collection; Comment Request**

In compliance with Section 3506(c)(2)(A) of the Paperwork

Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Comments are invited on: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: Toolkit Protocol for the Crisis Counseling Assistance and Training Program (CCP)—Revision

The Substance Abuse and Mental Health Services Administration's (SAMHSA) Center for Mental Health Services (CMHS) will create a toolkit to be used for the purposes of collecting data on the Crisis Counseling Assistance and Training Program (CCP). The CCP provides supplemental funding to states and territories for individual and community crisis intervention services during a federal disaster.

The CCP has provided disaster mental health services to millions of disaster survivors since its inception and, as a result of 30 years of accumulated expertise, it has become an important model for Federal response to a variety of catastrophic events. State CCPs, such as the recent 2009 Project A'apa Atu (for the Tsunami in American Samoa), 2010 Tennessee Recovery Project (following devastating flooding), Healing Joplin and Project Rebound (following the 2011 tornadoes in Joplin, Missouri and Alabama), and most recently the multiple CCPs that resulted from 2011 Hurricane Irene, and flooding throughout the summer of 2011 have primarily addressed the short-term mental health needs of communities through (a) Outreach and public education, (b) individual and group

counseling, and (c) referral. Outreach and public education serve primarily to normalize reactions and to engage people who might need further care. Crisis counseling assists survivors to cope with current stress and symptoms in order to return to pre-disaster functioning. Crisis counseling relies largely on "active listening," and crisis counselors also provide psycho-education (especially about the nature of responses to trauma) and help clients build coping skills. Crisis counseling typically continues no more than a few times. Because crisis counseling is time-limited, referral is the third important function of CCPs. Counselors are expected to refer clients to formal treatment if the person has developed more serious psychiatric problems.

Data about services delivered and users of services will be collected throughout the program period. The data will be collected via the use of a toolkit that relies on standardized forms. At the program level, the data will be entered quickly and easily into a cumulative database to yield summary tables for quarterly and final reports for the program. We have confirmed the feasibility of using scannable forms for most purposes. Because the data will be collected in a consistent way from all programs, they can be uploaded into an ongoing national database that likewise provides CMHS with a way of producing summary reports of services provided across all programs funded.

The components of the tool kit are listed and described below:

- *Encounter logs.* These forms document all services provided. Completion of these logs is required by the crisis counselors. There are three types of encounter logs: (1) Individual Crisis Counseling Services Encounter Log; (2) Group Encounter Log; and (3) *Weekly Tally Sheet.*

- *Individual Crisis Counseling Services Encounter Log.* Crisis counseling is defined as an interaction that lasts at least 15 minutes and involves participant disclosure. This form is completed by the Crisis Counselor for each service recipient, defined as the person or persons who actively participated in the session (*e.g.*, by verbally participating), not someone who is merely present. For families, complete separate forms for all family members who are actively engaged in the visit. Information collected includes

demographics, service characteristics, risk factors, and referral data.

- *Group Encounter Log.* This form is used to identify either a group crisis counseling encounter or a group public education encounter. A check at the top identifies the class of activities (*i.e.*, counseling or education). Information collected includes services characteristics, group identity and characteristics, and group activities.

- *Weekly Tally Sheet.* This form documents brief educational and supportive encounters not captured on any other form. Information collected includes service characteristics, daily tallies and weekly totals for brief educational or supportive contacts, and material distribution with no or minimal interaction.

- *Assessment and Referral Tool.* This tool provides descriptive information about intense users of services, defined as all individuals receiving a third individual crisis counseling visit. This tool will be used beginning three months postdisaster and will be completed by the crisis counselor.

- *Participant Feedback.* These surveys are completed by and collected from a sample of service recipients, not every recipient. A time sampling approach (*e.g.*, soliciting participation from all counseling encounters one week per quarter) will be used. Information collected includes satisfaction with services, perceived improvements in self-functioning, types of exposure, and event reactions.

- *CCP Service Provider Feedback.* These surveys are completed by and collected from the CCP service providers anonymously at six months and one year postevent. The survey will be coded on several program-level as well as worker-level variables.

However, the program itself will be identified and shared with program management only if the number of individual workers was greater than 20.

There are no changes to the Individual Encounter Log, Group Encounter Log, the Adult Assessment and Referral Tool, the Participant Feedback Survey, the Service Provider Feedback Survey, and the Child/Youth Assessment and Referral Tool. The Weekly Tally Sheet is the only one that has been revised with two additional fields to obtain information on social media activities.

The table below is the estimates of annualized hour burden.

Form	Number of respondents	Responses per respondents	Hours per responses	Total hour burden
Individual Crisis Counseling Services Encounter Log	200	280	.08	4,480
Group Encounter Log	100	33	.07	231
Weekly Tally Sheet	200	33	.2	1,320
Assessment and Referral Tools	200	14	.25	700
Participant Feedback Survey	1,000	1	.25	250
Service Provider Feedback Survey	100	1	.25	25
Total	1,800	7,006

Idaho: Notice of Filing of Decision Document

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Filing of decision document.

SUMMARY: The Bureau of Land Management (BLM) has signed a report titled “Grays Lake Administrative Navigability Determination and Omitted Lands and Avulsions Decisions” dated August 15, 2011, in the BLM Idaho State Office. This report contains two survey decisions related to Grays Lake. This decision document will be considered filed for the purposes of survey decisions contained therein on December 19, 2011.

DATES: Protests of the survey decisions must be filed before December 19, 2011 to be considered.

ADDRESSES: Protests of the survey decisions should be sent to Branch of Cadastral Survey, Bureau of Land Management, 1387 South Vinnell Way, Boise, Idaho, 83709–1657.

FOR FURTHER INFORMATION CONTACT: Stanley G. French, Chief Cadastral Surveyor for Idaho, Branch of Cadastral Survey, Bureau of Land Management, 1387 South Vinnell Way, Boise, Idaho, 83709–1657, telephone (208) 373–3980. Persons who use a telecommunications device for the deaf (TDD) may call the

Federal Information Relay Service (FIRS) at (800) 877–8339 to contact the above individual during normal business hours. The FIRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The above-referenced report contains two summary decisions, a finding of no omitted lands in the bed of Grays Lake and no in-lake avulsion. In addition to those decisions, the report also presents an administrative opinion that the feature known as Grays Lake is a non-navigable body of water. The report was prepared at the request of the U.S. Fish and Wildlife Service, Pacific Region, 911 NE 11th Avenue, Portland, Oregon 97232, and the Bureau of Indian Affairs, Northwest Regional Office, 911 NE 11th Avenue, Portland, Oregon 97232. Grays Lake is found in:

Boise Meridian, Idaho

T. 4 S., R. 42 E.
T. 4 S., R. 43 E.
T. 5 S., R. 42 E.
T. 5 S., R. 43 E.

The report has three signed originals. One each was sent to the U.S. Fish and Wildlife Pacific Regional Office and the Bureau of Indian Affairs Regional Office, both in Portland, Oregon. The final report is retained by the BLM Idaho State Office in Boise, Idaho. All copies of the report were signed on August 15, 2011, the same date as the document. The BLM copy will be retained in the file for Group File No. 1355 and is available to the public. It is also available online at the following link: http://www.blm.gov/id/st/en/prog/cadastral_survey/field_section/Grays-Lk-determination.html.

If the BLM receives a protest of the avulsion and/or the omitted lands decisions prior to the official filing, the agency will stay filing pending consideration of the protest. The BLM copy will not be officially filed until the day after the protest acceptance period expires, or until all protests have been

dismissed or resolved and they have become final, including decisions or appeals.

Stanley G. French,

Chief Cadastral Surveyor for Idaho.
