SUPPLEMENTARY INFORMATION:

I. Background

A provision is included only in the solicitation and addresses the offeror. A contract clause is included in both the solicitation and the contract, and provides the terms that apply throughout contract performance. Representations and certifications are

generally included in a provision, which the offeror responds to in its offer. It is against DFARS drafting conventions to combine a provision and a clause into a single clause.

This rule proposes to remove the representations from five DFARS clauses and create five new provisions to be used in solicitations that include the associated clauses, as follows:

DFARS Clause	Proposed provision
252.209-7005, Reserve Officer Training Corps and Military Recruiting on Campus.	252.209-7003, Reserve Officer Training Corps and Military Recruiting on Campus—Representation.
252.216-7000, Economic Price Adjustment—Basic Steel, Aluminum, Brass, Bronze, or Copper Mill Products.	252.216-70XX, Economic Price Adjustment—Basic Steel, Aluminum, Brass, Bronze, or Copper Mill Products—Representation.
252.216-7003, Economic Price Adjustment—Wage Rates or Material Prices Controlled by a Foreign Government.	252.216-70YY, Economic Price Adjustment—Wage Rates or Material Prices Controlled by a Foreign Government—Representation.
252.229-7003, Tax Exemptions (Italy)	252.229-70XX, Tax Exemptions (Italy)—Representation.
252.229-7005, Tax Exemptions (Spain)	252.229-70YY, Tax Exemptions (Spain)—Representation.

Conforming changes are also required to DFARS 252.204-7007, Alternate A, Annual Representations and Certifications and the associated prescription at DFARS 204.1202, to list the new provisions in lieu of the current DFARS clauses.

II. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting regulatory flexibility. This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

III. Regulatory Flexibility Act

DoD does not expect this rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because it does not add any new requirements—it only reformats existing requirements of five clauses into separate provisions and clauses. Therefore, an initial regulatory flexibility analysis has not been performed. DoD invites comments from

small business concerns and other interested parties on the expected impact of this rule on small entities.

DoD will also consider comments from small entities concerning the existing regulations in subparts affected by this rule in accordance with 5 U.S.C. 610.

Interested parties must submit such comments separately and should cite 5 U.S.C. 610 (DFARS Case 2011-D048), in correspondence.

IV. Paperwork Reduction Act

The rule does not contain any information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35).

SUPPLEMENTARY INFORMATION:**I. Background**

DoD published a final rule at in the **Federal Register** at 76 FR 25569 on May 5, 2011, to implement in the Defense Federal Acquisition Regulation Supplement (DFARS) the DoD policy addressing the serious human health and environmental risks related to the use of hexavalent chromium. Hexavalent chromium is a chemical that has been used in numerous DoD weapons systems platforms due to its corrosion protection properties. However, hexavalent chromium is a known carcinogen. The final rule minimized the use of materials containing hexavalent chromium in items acquired by DoD, including the creation of a new DFARS clause, 252.223–7008, Prohibition of Hexavalent Chromium, which prohibits the contractor from providing any deliverables or construction material that—

(1) Contains hexavalent chromium in a concentration greater than 0.1 percent by weight in any homogeneous material; or

(2) Requires the removal or reapplication of hexavalent chromium materials during subsequent sustainment phases of the deliverable or construction material.

The final rule prescribed use of the clause in solicitations and contracts for supplies, maintenance and repair services, or construction, unless an exception at DFARS 223.7304 applies or use has been authorized in accordance with DFARS 223.7305.

II. Discussion and Analysis

The preamble to the final rule stated the clear intent that the rule should apply to commercial items.
