Public Participation and Request for Comments

This Notice relies on the authority of the Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended. An ICR is an application to OIRA seeking the approval, extension, or renewal of a Coast Guard collection of information (Collection). The ICR contains information describing the Collection's purpose, the Collection's likely burden on the affected public, an explanation of the necessity of the Collection, and other important information describing the Collections. There is one ICR for each Collection.

The Coast Guard invites comments on whether these ICRs should be granted based on the Collections being necessary for the proper performance of Departmental functions. In particular,

the Coast Guard would appreciate comments addressing: (1) The practical utility of the Collections; (2) the accuracy of the estimated burden of the Collections; (3) ways to enhance the quality, utility, and clarity of information subject to the Collections; and (4) ways to minimize the burden of the Collections on respondents, including the use of automated collection techniques or other forms of information technology. These comments will help OIRA determine whether to approve the ICRs referred to in this Notice.

We encourage you to respond to this request by submitting comments and related materials. Comments to Coast Guard or OIRA must contain the OMB Control Number of the ICR. They must also contain the docket number of this request, [USCG 2011-0854], and must be received by December 21, 2011. SUPPLEMENTARY INFORMATION: The National Flood Insurance Program (NFIP) requires the elevation or floodproofing of new or substantially improved structures in designated Special Flood Hazard Areas. As part of the agreement for making flood insurance available in a community, the NFIP requires the community to adopt a floodplain management ordinance that meets or exceeds the minimum requirements of the NFIP. Title 44 CFR 61.7 and 61.8 require proper investigation to estimate the risk premium rates necessary to provide flood insurance.

Collection of Information

Title: Elevation Certificate/Floodproofing Certificate.

Type of Information Collection: Revision of a currently approved collection.

OMB Number: 1660–0008.

Form Numbers: FEMA Form 81–31, Elevation Certificate, FEMA Form 81–65, Floodproofing Certificate.

Abstract: The Elevation Certificate and Floodproofing Certificate are used in conjunction with the application for flood insurance. The certificates are required for properly rate post Flood Insurance Rate Map (FIRM) structures, which are buildings constructed after the publication of the initial FIRM or December 31, 1974, for flood insurance in Special Flood Hazard Areas. In addition, the Elevation Certificate is needed for pre-FIRM structures, which are buildings constructed before the initial FIRM or December 31, 1974, that are being rated under post-FIRM flood insurance rules. The certificates provide community officials and others standardized documents to readily record needed building elevation information. NFIP policyholders/applicants provide the appropriate certificate to insurance agents. The
