SUPPLEMENTARY INFORMATION:

I. Abstract

The Quarterly Survey of Foreign Direct Investment in the United States—Transactions of U.S. Affiliate with Foreign Parent (BE-605) is a sample survey that collects data on transactions and positions between foreign-owned U.S. business enterprises and their “affiliated foreign groups” (i.e., their foreign parents and foreign affiliates of their foreign parents). The sample data are used to derive universe estimates in nonbenchmark years from similar data reported in the BE-12, Benchmark Survey of Foreign Direct Investment in the United States, which is conducted every five years. The data are used in the preparation of the U.S. international transactions, national income and product, and input-output accounts and the net international investment position of the United States. The data are needed to measure the size and economic significance of foreign direct investment in the United States, measure changes in such investment, and assess its impact on the U.S. economy.

The Bureau of Economic Analysis (BEA) proposes the following changes to the survey: (1) The deletion of a checkbox question that asks respondents whether they plan to expand their operation with a new facility (this information is no longer needed); and (2) design improvements to the survey form.

II. Method of Collection

Form BE-605 is a quarterly report that must be filed within 30 days after the end of each quarter (45 days after the final quarter of the respondent’s fiscal year) by every U.S. business enterprise that is owned 10 percent or more by a foreign investor and that has total assets, sales or gross operating revenues, or net

income (positive or negative) of over \$60 million.

As an alternative to filing paper forms, BEA will offer an electronic filing option, its eFile system, for use in reporting on Form BE-605. For more information about eFile, go to <http://www.bea.gov/efile>.

Potential respondents are those U.S. business enterprises that were required to report in the BE-12, Benchmark Survey of Foreign Direct Investment in the United States—2007, along with those U.S. business enterprises that subsequently entered the direct investment universe. The data collected are sample data covering transactions and positions between foreign-owned U.S. business enterprises and their affiliated foreign groups. Universe estimates are developed from the reported sample data.

Circular Welded Carbon Steel Pipes and Tubes From Thailand: Extension of Time Limit for Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATES: *Effective Date:* November 21, 2011.

FOR FURTHER INFORMATION CONTACT:

Andrew Huston or Jacqueline Arrowsmith, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-4261 and (202) 482-5255, respectively.

Background

On April 27, 2011, the Department of Commerce (the Department) published the initiation of an administrative review of the antidumping duty order on circular welded carbon steel pipes and tubes from Thailand for the period March 1, 2010, through February 28, 2011. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews*, 76 FR 23545, 23546 (April 27, 2011). This review covers two producers/exporters of the subject merchandise to the United States: Saha Thai Steel Pipe (Public) Company, Ltd. (Saha Thai), and Pacific Pipe Public Company Limited (Pacific Pipe).

Extension of Time Limit for the Preliminary Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), and section 351.213(h)(1) of the Department's regulations require the Department to issue the preliminary results of a review within 245 days after the last day of the anniversary month of the order or suspension agreement for which the administrative review was requested, and final results of the review within 120 days after the date on which the notice of the preliminary results is published in the **Federal Register**. However, if the Department

determines that it is not practicable to complete the review within the aforementioned specified time limits, section 751(a)(3)(A) of the Act and section 351.213(h)(2) of the Department's regulations allow the Department to extend the 245-day period to 365 days and to extend the 120-day period to 180 days.

The Department requires additional time to evaluate the questionnaire responses from Saha Thai and Pacific Pipe in order to conduct a thorough analysis of all information on the record. In particular, the Department needs additional time to analyze cost of production information for both Saha Thai and Pacific Pipe. Therefore, the Department finds that it is not practicable to complete the preliminary results of this review by the original deadline of December 1, 2011, and is extending the deadline for completion of the preliminary results of this administrative review from 245 days to 365 days. The revised deadline for the preliminary results of this administrative review is now no later than March 30, 2012.

This notice is issued and published pursuant to sections 751(a)(3)(A) and 777(i)(1) of the Act.

Dated: November 15, 2011.

Christian Marsh,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.
