SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. The OMB is particularly interested in comments which: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Type of Review: New.

Title of Collection: Transition and Postsecondary Programs for Students with Intellectual Disabilities Evaluation System.

OMB Control Number: Pending.

Agency Form Number(s): N/A.

Frequency of Responses: Annually.

Affected Public: Not-for-Profit Institutions.

Total Estimated Number of Annual Responses: 56.

Total Estimated Annual Burden Hours: 1087.

Abstract: On October 2010, the Office of Postsecondary Education (OPE) awarded 27 Institutes of Higher Education (IHE) grants to fund the creation of Transition Programs for Students with Intellectual Disabilities (TPSIDs) (model demonstrations) in 23 states.

OPE also awarded a grant to the Institute for Community Inclusion at the University of Massachusetts Boston to

fund a coordinating center to support these TPSID grantees as well as other programs around the country that are working to transition students with cognitive disabilities into higher education. One of the Coordinating Center's roles is to develop an evaluation system for the TPSID programs. The proposed data collection system is part of that evaluation effort and involves establishment of a uniform dataset across the initial 27 sites (and potentially up to 31 additional IHEs) to ensure consistency in collection of information comprised by the previously listed 11 Government Performance and Results Act measures. The system will collect program data at the institution and individual level from TPSID program staff via an online, secure, data management system.

Copies of the information collection submission for OMB review may be accessed from the RegInfo.gov Web site at <http://www.reginfo.gov/public/do/PRAMain> or from the Department's Web site at <http://edicsweb.ed.gov>, by selecting the "Browse Pending Collections" link and by clicking on link number 4706. [Project No. 14241-001]

Alaska Energy Authority; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On October 27, 2011, and supplemented on November 11, 2011, the Alaska Energy Authority filed an application for a preliminary permit,

pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Susitna-Watana Hydroelectric Project (project) to be located on the Susitna River, near Cantwell, in Matanuska-Susitna Borough, Alaska. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) A 700-foot-high, either 2,500-foot-long concrete faced, rockfilled, or 2,630-foot-long roller compacted concrete or earth core rockfilled dam; (2) a reservoir with normal surface area of 22,500 acres and 2,500,000 acre-feet of usable storage capacity at elevation 2000 feet mean sea level; (3) three intakes at invert elevation of 1,800 feet equipped with three 18-foot-wide by 28-foot-high fixed wheel intake gates with trashracks; (4) a 36-foot-diameter, 3,700-foot-long diversion tunnel to be used during construction; (5) three turbine/generator units with a total capacity of 600 megawatts; (6) a 1,500-foot-long tailrace tunnel; (7) a 24-foot-wide gravel road from either the existing Denali Highway or from a road spur leading off the railroad at Gold Creek or Chulitna rail stops along the Alaska Railroad; (8) three 230-kilovolt transmission lines, each either 35 to 39 miles or 65 miles in length, connecting to either the existing Anchorage-Fairbanks Intertie near Gold Creek, Chulitna, or Cantwell along the Denali Highway; and (9) appurtenant facilities. The estimated annual generation of the project would be 2,600 gigawatt-hours.

[Docket No. CP12-16-000]

Gulf South Pipeline Company, LP; Notice of Application

Take notice that on November 7, 2011, Gulf South Pipeline Company, LP (Gulf South), filed in Docket No. CP12-16-000, an application pursuant to section 7(b) of the Natural Gas Act (NGA) and Part 157 of the Commission's regulations, requesting authorization to abandon by sale to the City of Pensacola d/b/a Energy Services of Pensacola (ESP) approximately 34.39 miles of mainline, lateral, and appurtenant facilities off of its Index 301 at the end of its interstate system in Florida, all as more fully set forth in the application which is on file with the Commission and open to public inspection. This filing may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number, excluding the last three digits, in the docket number field to access the document. For assistance,

call (866) 208-3676 or TTY, (202) 502-8659.

Any questions regarding this application should be directed to M.L. Gutierrez, Director, Regulatory Affairs, Gulf South Pipeline Company, LP, 9 Greenway Plaza, Suite 2800, Houston, Texas 77046, or by calling (713) 479-8252 (telephone) or (713) 479-1745 (fax), Nell.Gutierrez@bwpmlp.com.

Pursuant to Section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding, or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will

consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

Motions to intervene, protests and comments may be filed electronically via the internet in lieu of paper; see, 18 CFR 385.2001(a) (1) (iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages electronic filings.
