increases or decreases will be incremental. In addition, small, unaffiliated entities generally occupy less Federal lands than larger projects that generate more power. Therefore, as a class of licensees, small entities would be less impacted by an annual charge for the use of Federal lands. Furthermore, this proposed rule does not incur any additional compliance or recordkeeping costs on any licensees occupying Federal lands. Consequently, the proposed rule should not impose a significant economic impact on small entities.

70. Based on this understanding, the Commission certifies that the proposed rule will not have a significant economic impact on a substantial number of small entities. Accordingly, no regulatory flexibility analysis is required.

D. Comment Procedures

71. The Commission invites interested persons to submit comments on the matters and issues proposed in this notice to be adopted, including any related matters or alternative proposals that commenters may wish to discuss. Comments are due January 6, 2012. Comments must refer to Docket No. RM11–6–000, and must include the commenter’s name, the organization they represent, if applicable, and their address in their comments.

72. The Commission encourages commenters to file electronically via the eFiling link on the Commission’s web site at http://www.ferc.gov. The Commission accepts most standard word processing formats. Documents created electronically using word processing software should be filed in native applications or print-to-PDF format and not in a scanned format. Commenters filing electronically do not need to make a paper filing.

73. Commenters that are not able to file comments electronically must send an original of their comments to: Federal Energy Regulatory Commission, Secretary of the Commission, 888 First Street NE., Washington, DC 20426.

74. All comments will be placed in the Commission’s public files and may be viewed, printed, or downloaded remotely as described in the Document Availability section below. Commenters on this proposal are not required to serve copies of their comments on other commenters.

E. Document Availability

75. In addition to publishing the full text of this document in the Federal Register, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the Internet through the Commission’s Home Page (http://www.ferc.gov) and in the Commission’s Public Reference Room during normal business hours (8:30 a.m. to 5 p.m. Eastern time) at 888 First Street NE., Room 2A, Washington, DC 20426.

76. From the Commission’s Home Page on the Internet, this information is available on eLibrary. The full text of this document is available on eLibrary in PDF and Microsoft Word format for viewing, printing, and/or downloading. To access this document in eLibrary, type the docket number excluding the last three digits of this document in the docket number field.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

Revisions to the California State Implementation Plan, South Coast Air Quality Management District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve revisions to the South Coast Air Quality Management District portion of the California State Implementation Plan (SIP). These revisions concern particulate matter (PM) emissions from paved and unpaved roads and livestock operations and aggregate and related operations. We are approving local rules that regulate these emission sources under the Clean Air Act as amended in 1990 (CAA or the Act). We are taking comments on this proposal and plan to follow with a final action.

DATE: Any comments must arrive by December 22, 2011.

ADDRESSES: Submit comments, identified by docket number EPA–R09–OAR–2011–0875, by one of the following methods:

2. Email: steckel.andrew@epa.gov.

3. Mail or deliver: Andrew Steckel (Air-4), U.S. Environmental Protection Agency Region IX, 75 Hawthorne Street, San Francisco, CA 94105–3901.

Instructions: All comments will be included in the public docket without change and may be made available online at http://www.regulations.gov, including any personal information provided, unless the comment includes Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Information that
you consider CBI or otherwise protected should be clearly identified as such and should not be submitted through http://www.regulations.gov or email. http://www.regulations.gov is an “anonymous access” system, and EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send email directly to EPA, your email address will be automatically captured and included as part of the public comment. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

Docket: Generally, documents in the docket for this action are available electronically at http://www.regulations.gov and in hard copy at EPA Region IX, 75 Hawthorne Street, San Francisco, California. While all documents in the docket are listed at http://www.regulations.gov, some information may be publicly available only at the hard copy location (e.g., copyrighted material, large maps), and some may not be publicly available in either location (e.g., CBI). To inspect the hard copy materials, please schedule an appointment during normal business hours with the contact listed in the FOR FURTHER INFORMATION CONTACT section.

SUPPLEMENTARY INFORMATION:
Throughout this document, “we,” “us” and “our” refer to EPA.

On June 8, 2010 and April 20, 2009, EPA determined that the submittals for SCAQMD Rule 1157 and Rule 1186, respectively, met the completeness criteria in 40 CFR part 51, Appendix V, which must be met before formal EPA review.

B. Are there other versions of these rules?

There is no previous version of Rule 1157 in the SIP, although the SCAQMD adopted an earlier version of this rule on January 7, 2005 which was not submitted to us. Rule 1157 was amended on September 6, 2006, and CARB submitted it to us on May 17, 2010. We approved an earlier version of Rule 1186 into the SIP on November 14, 2005 (70 FR 69081). The SCAQMD adopted a revision to the SIP-approved version on July 11, 2008 and CARB submitted it to us on December 23, 2008.

C. What is the purpose of the submitted rule and rule revision?

PM emissions. Rule 1157 reduces fugitive dust PM10 emissions from aggregate and related operations including loading and unloading activities, process equipment, open storage piles, unpaved and paved roads inside the facilities, and track out. Amended Rule 1186 controls PM from paved and unpaved public roads, and livestock operations. The rule was amended to require submission of data to demonstrate that the street sweeper performance has not been affected by requirements in the SIP-approved rule; and also to establish a process by which aftermarket parts suppliers may qualify to sell replacement parts while maintaining the original equipment certification. EPA’s technical support documents (TSDs) have more information about these rules.

II. EPA’s Evaluation and Action

A. How is EPA evaluating the rules?

Generally, SIP rules must be enforceable (see section 110(a) of the Act) and must not relax existing requirements (see sections 110(l) and 193). In addition, SIP rules must implement Reasonably Available Control Measures (RACT), including Reasonably Available Control Technology (RACT), in moderate PM nonattainment areas, and Best Available Control Measures (BACT), in serious PM nonattainment areas (see CAA sections 189(a)(1) and 189(b)(1)). The SCAQMD regulates a PM nonattainment area classified as serious (see 40 CFR part 81), so Rules 1157 and 1186 must fulfill BACM.

Guidance and policy documents that we use to evaluate enforceability and RACT or BACM requirements consistently include the following:

4. “State Implementation Plans for Serious PM–10 Nonattainment Areas, and Attainment Date Waivers for PM–10 Nonattainment Areas Generally; Addendum to the General Preamble for the Implementation of Title I of the

III. Statutory and Executive Order Reviews

B. Do the rules meet the evaluation criteria?

We believe these rules are consistent with the relevant policy and guidance regarding enforceability, RACM, BACM, and SIP relaxations. The TSDs have more information on our evaluation.

C. Public Comment and Final Action

Because EPA believes the submitted rules fulfill all relevant requirements, we are proposing to fully approve them as described in section 110(k)(3) of the Act. We will accept comments from the public on this proposal for the next 30 days. Unless we receive convincing new information during the comment period, we intend to publish a final approval action that will incorporate these rules into the federally enforceable SIP.

III. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA’s role is to approve State choices, provided that they meet the criteria of the Clean Air Act.

Accordingly, this proposed action merely proposes to approve State law as meeting Federal requirements and does not impose additional requirements beyond those imposed by State law. For that reason, this proposed action:

- Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 et seq.);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and
- Does not provide EPA with the discretionary authority to address disproportionate human health or environmental effects with practical, appropriate, and legally permissible methods under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this proposed action does not have Tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the State, and EPA notes that it will not impose substantial direct costs on Tribal governments or preempt Tribal law.
