FOR FURTHER INFORMATION CONTACT: Laura Morse or Joselyd Garcia-Reyes, (301) 427-8401.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

The proposed permit would authorize vessel based research on humpback whales in Maui County waters, Hawaii to quantify the potential for near misses between vessels and humpback whales, and define the probability of 'surprise encounters' with humpback whales in relation to time of day, environmental variables, vessel behavior, whale abundance, and individual sex and age classes. Up to 567 humpback whales may be approached annually for photo-identification and behavioral observation and all Hawaiian insular false killer whales (*Pseudorca crassidens*) may be incidentally harassed by the research activities. The permit would be valid for a period of five years.

A draft environmental assessment (EA) has been prepared in compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), to examine whether significant environmental impacts could result from issuance of the proposed scientific research permit. The draft EA is available for review and comment simultaneous with the scientific research permit application.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of the application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: November 17, 2011.
