II. What guidance does this PR notice provide? The Agency is announcing the issuance of Pesticide Registration Notice (PR)—2011–2 that addresses the data development efforts of the NDETF. The formation of the NDETF was initially announced in PR Notice 2000–7 which was signed on August 4, 2000. When registering or periodically reviewing an existing registration, the Agency evaluates the potential risks to people from exposure to the pesticide in and around the home. The NDETF was formed to develop information on exposure to pesticides that can be used by EPA, and other regulatory agencies responsible for assuring the safety of pesticides. Since the initial notice in 2000, the membership of the task force has changed and the specific data needs have been better defined. The purpose of the PR Notice is to describe what data the NDETF has generated and plans to generate, to describe how EPA expects to use the data, and to inform registrants of the opportunity to join NDETF.

III. Do PR Notices contain binding requirements? The PR Notice discussed in this notice is intended to provide information to EPA personnel and decision makers and to pesticide registrants. While the requirements in the statutes and Agency regulations are binding on EPA and the applicants, this PR Notice is not binding on either EPA or pesticide registrants, and EPA may depart from the guidance where circumstances warrant and without prior notice. Likewise, pesticide registrants may assert that the guidance is not appropriate generally or not applicable to a specific pesticide or situation.
