

(ATCA), 16 U.S.C. 971 *et seq.* Under the MSA, NMFS must ensure consistency with the National Standards and manage fisheries to maintain optimum yield, rebuild overfished fisheries, and prevent overfishing. Under the ATCA, the Secretary of Commerce is required to promulgate regulations, as may be necessary and appropriate, to implement the recommendations adopted by the International Commission for the Conservation of Atlantic Tunas (ICCAT). The authority to issue regulations under MSA and ATCA has been delegated from the Secretary to the Assistant Administrator for Fisheries, NOAA. The implementing regulations for Atlantic HMS are at 50 CFR part 635.

### Background

The current regulations and infrastructure of the Atlantic HMS quota-monitoring systems result in a delay of several weeks to almost a month before NMFS receives dealer data. This can affect management and monitoring of small Atlantic HMS quotas and short fishing seasons. As such, on June 28, 2011 (76 FR 37750), NMFS published a proposed rule in the **Federal Register** that considered requiring, among other things, Federal Atlantic swordfish, shark, and tunas dealers (except for dealer reporting Atlantic bluefin tuna) to report commercially-harvested Atlantic sharks, swordfish, and BAYS tunas to NMFS through one centralized electronic reporting system. Under this new system, dealers would submit HMS data electronically instead of in a paper format and include additional information that is necessary for management of HMS (*e.g.*, vessel and logbook information). The electronic submission of data will eliminate the delay associated with mailing in reports to NMFS. In this manner, HMS landings data will be submitted on a more real-time basis, allowing for timely and efficient data collection for management of Atlantic HMS.

In order to give sufficient time for dealers to adjust to implementation of the new system and the additional requirements, NMFS proposed delaying implementation of the new HMS electronic reporting system for all federally-permitted HMS dealers until 2012. Additionally, NMFS decided to conduct outreach to HMD dealers to train them how to use the new system and help ease the transition from the current paper format to the new HMS electronic reporting system. NMFS will conduct an initial workshop for HMS dealers in St. Thomas, U.S.V.I. on December 14, 2011 (see **DATES** and

**ADDRESSES**). NMFS will announce additional workshops in other regions in a future **Federal Register** notice.

### National Oceanic and Atmospheric Administration

#### 50 CFR Part 635

**RIN 0648-BA17**

#### Atlantic Highly Migratory Species; Atlantic Shark Management Measures

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of workshops; extension of comment period.

**SUMMARY:** NMFS previously published, on September 16, 2011, a notice of intent (NOI) to prepare an environmental impact statement (EIS) and fishery management plan (FMP) amendment that would consider catch shares for the Atlantic shark fisheries. The comment period in the NOI ends on March 1, 2012. In this notice, NMFS announces the dates and locations for five upcoming scoping workshops to provide the opportunity for public comment on various design elements for potential catch shares programs in the Atlantic shark fisheries. Additionally, NMFS is extending the comment period to March 31, 2012, to provide additional opportunities for the five Fishery Management Councils, the Atlantic and Gulf States Marine Fisheries Commissions, and other interested parties to comment on the consideration of catch shares.

**DATES:** Workshops for Amendment 6 to the 2006 Consolidated Highly Migratory Species (HMS) Fishery Management Plan (FMP) will be held from December 2011 through March 2012. See **SUPPLEMENTARY INFORMATION** for meeting dates, times, and locations. The deadline for comments on the NOI has been extended from March 1, 2012, as published in the NOI on September 16, 2011 (76 FR 57709), to 5 p.m. on March 31, 2012.

**ADDRESSES:** Workshops will be held in Madeira Beach, FL; Cocoa Beach, FL; Barnegat, NJ; Belle Chasse, LA; and Manteo, NC. See **SUPPLEMENTARY**

**INFORMATION** for dates, times, and locations.

**SUPPLEMENTARY INFORMATION:** The Atlantic shark fisheries are managed under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). The 2006 Consolidated HMS FMP is implemented by regulations at 50 CFR part 635 and was amended in 2008 and 2010 to address management needs in the Atlantic shark fisheries.

On September 16, 2011 (76 FR 57709), NMFS published a NOI that announces NMFS intent to prepare an EIS and FMP Amendment that would consider catch shares for the Atlantic shark fisheries. The NOI also established a control date for eligibility to participate in an

Atlantic shark catch share program, announced the availability of a white paper describing design elements of catch share programs in general and issues specific to the Atlantic shark fisheries, and requested public comment on the implementation of catch shares in the Atlantic shark fisheries. In the NOI, the end of the comment period was announced as March 1, 2012. However, due to the timing of the South Atlantic Fishery Management Council and the March 2012 HMS Advisory Panel meeting, NMFS is extending the comment period to provide additional opportunity for the five Fishery Management Councils, the Atlantic and Gulf States Marine Fisheries Commissions, and other interested parties to comment on the NOI.

Therefore, the comment period for the NOI has been extended to 5 p.m. on March 31, 2012.

**Request for Comments**

Five workshops will be held (see Table 1 for meeting dates, times, and locations) to provide the opportunity for public comment on potential catch share design elements for the Atlantic shark fisheries. These comments will be used to assist in the development of Amendment 6 to the 2006 Consolidated HMS FMP.

Specifically, NMFS is interested in obtaining feedback on issues, including, but not limited to: Eligibility (directed and/or incidental permit holders), specification of the resource unit (species and regions to include), initial allocation (based on catch history and/

or other means), and catch share management. NMFS has prepared a white paper that provides more detail concerning some of the potential design elements for catch share programs and provides the public with additional information regarding issues in the Atlantic shark fisheries. Information related to catch shares for the Atlantic shark fisheries is available on the HMS Management Division Web site (<http://www.nmfs.noaa.gov/sfa/hms/sharks/catchshares.htm>).

Comments received on this action will assist NMFS in determining the options for rulemaking to conserve and manage shark resources and fisheries, consistent with the Magnuson-Stevens Act and the 2006 Consolidated HMS FMP.

**Fisheries of the Exclusive Economic Zone Off Alaska; Chinook Salmon Bycatch Management in the Gulf of Alaska Pollock Fishery; Amendment 93**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of availability of fishery management plan amendment; request for comments.

**SUMMARY:** The North Pacific Fishery Management Council has submitted Amendment 93 to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP). Amendment 93, if approved, would establish separate prohibited species catch (PSC) limits in the Central and Western Regulatory Areas of the Gulf of Alaska (GOA) for Chinook salmon (*Oncorhynchus tshawytscha*). NMFS would close the directed pollock fishery in those areas if the applicable limit is reached. This action also would require full retention of salmon in the Central and Western GOA pollock fisheries until an observer

is provided the opportunity to count the number of salmon and to collect scientific data or biological samples from the salmon. This action is necessary to minimize Chinook salmon bycatch in the GOA pollock fishery to the extent practicable while preserving the potential for the full harvest of pollock total allowable catch within PSC limits. Amendment 93 is intended to promote the goals and objectives of the Magnuson-Stevens Fishery Conservation and Management Act, the FMP, and other applicable laws.

**DATES:** Comments on the amendment must be received on or before January 23, 2012.
