

1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. The OMB is particularly interested in comments which: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Abstract: The National Center for Education Statistics (NCES) is seeking a three-year clearance for a new survey data collection for the College Affordability and Transparency List Explanation Form (CATEF). The collection of this information is necessary pursuant to the Higher Education Opportunity Act (HEOA) Section 111, Part C (20 U.S.C. 1015a) with the goal of increasing transparency of college tuition prices for consumers. The clearance should start with the 2011–12 collection year and extend through the 2012–13 and 2013–14 collections. Part C of Section 111 of HEOA included provisions for improved transparency in college tuition for consumers. In response to these provisions, the Department of Education created The College Affordability and Transparency Center

(CATC) which can be accessed through College Navigator. The CATC includes information for students, parents, and policymakers about college costs at America's colleges and universities. The CATC also includes several lists of institutions based on the tuition and fees and/or net prices (the price of attendance after considering all grant and scholarship aid) charged to students, including a list of institutions that are in the five percent of institutions in their institutional sector that have the highest increases, expressed as a percentage change, over the three-year time period for which the most recent data are available. The clearance being requested is to survey the institutions on this list using the College Affordability and Transparency Explanation Form to collect follow-up information. The lists appearing in CATC are generated using data collected by NCES through the Integrated Postsecondary Education Data System (IPEDS). IPEDS is a mandatory data collection for institutions that participate in or are applicants for participation in any federal student financial aid program authorized by Title IV of the Higher Education Act of 1965, as amended (20 USC 1094, Section 487(a)(17) and 34 CFR 668.14(b)(19)). The additional information to be collected will be used to write a summary report for Congress which will also be posted on the College Navigator Web site. The report will summarize the general and sector specific findings from the CATEF using descriptive statistics. The main cost areas showing the highest increases will be identified using the percent change information provided by institutions. The most commonly reported plans to reduce the increases in those cost increases will also be indicated. Finally, the extent to which institutions participate in setting tuition and fees and net prices for students will be described and the agencies outside of the institutions that decide those student charges will be identified.

Copies of the information collection submission for OMB review may be accessed from the RegInfo.gov Web site at <http://www.reginfo.gov/public/do/PRAMain> or from the Department's Web site at <http://edicsweb.ed.gov>, by selecting the "Browse Pending Collections" link and by clicking on link number 4729.
