Title: Guidelines for Designating Biobased Products for Federal Procurement.

OMB Control Number: 0503-0011.

Summary of Collection: Section 9002 of the Farm Security and Rural Investment Act (FSRIA) of 2002, as amended by the Food, Conservation, and Energy Act (FCEA) of 2008, provides for a preferred procurement program under which Federal agencies are required to purchase biobased products, with certain exceptions. Items (which are generic groupings of products) are designated by rulemaking for preferred procurement. To qualify items for procurement under this program, the statute requires that the Secretary of Agriculture consider information on the availability of items, the economic and technological feasibility of using such items and the life cycle costs of using such items. In addition, the Secretary is required to provide information on designated items to Federal agencies about the availability, relative price, performance, and environmental and public health benefits of such items and where appropriate shall recommend the level of biobased material to be contained in the procured product.

Need and Use of the Information: The Office of Procurement and Property Management (OPPM) and the Center for Industrial Research and Service at Iowa State University will interact with manufacturers and vendors to gather such information and material for testing, as may be required for

designation of items for preferred procurement by Federal agencies. The information collected will be gathered using a variety of methods, including face to face visits with a manufacturer or vendor, submission by manufacturers and vendors of information electronically to OPPM, and survey instruments filled out by manufacturers and vendors and submitted to OPPM.
