I. Background on the Colorado Program

Section 503(a) of the Act permits a State to assume primacy for the regulation of surface coal mining and reclamation operations on non-Federal and non-Indian lands within its borders by demonstrating that its State program includes, among other things, “a State law which provides for the regulation of surface coal mining and reclamation operations in accordance with the requirements of this Act * * *, and rules and regulations consistent with regulations issued by the Secretary pursuant to this Act.” See 30 U.S.C. 1253(a)(1) and (7). On the basis of these criteria, the Secretary of the Interior conditionally approved the Colorado program on December 15, 1980. You can find background information on the Colorado program, including the Secretary’s findings, the disposition of comments, and the conditions of approval of the Colorado program in the December 15, 1980, Federal Register (45 FR 82173). You can also find later actions concerning Colorado’s program and program amendments at 30 CFR 906.10, 906.15, 906.16, and 906.30.

II. Description of the Proposed Amendment

By letter dated April 8, 2011, Colorado sent us a proposed amendment to its approved regulatory program (Administrative Record Docket ID No. OSM–2011–0002) under SMCRA (30 U.S.C. 1201 et seq.). Colorado submitted the amendment to address all required rule changes OSM identified by letters to Colorado dated April 4, 2008, and October 2, 2009, under 30 CFR 732.17(c). These included changes to Colorado’s rules for valid existing rights and ownership and control. The amendment also includes changes made at Colorado’s own initiative. The full text of the program amendment is available for you to read at the locations listed above under ADDRESSES.

Specifically, Colorado proposes substantive revisions to the Colorado Code of Regulations at 2 CCR 407–2 Rules 1.07 (Procedures for Valid Existing Rights Determinations), 2.01 (General Requirements for Permits), 2.02 (General Requirements for Coal Exploration), 2.03 (Application for Permit for Surface Coal Mining and Reclamation Operations: Minimum Requirements for Legal, Financial, Compliance, and Related Information), 2.04 (Application for Permit for Surface Coal Mining and Reclamation Operations: Minimum Requirements for Information on Environmental Resources), 2.05 (Application for Permit for Surface Coal Mining and Reclamation Operations: Minimum Requirements for Operation and Reclamation Plans), 2.07 (Public Participation and Approval of Permit Applications), 2.08 (Permit Review, Revisions and Renewals and Transfer, Sale and Assignment), 2.11 (Challenging Ownership or Control Listings and Findings), 4.03 (Roads), 4.05 (Hydrologic Balance), 4.06 (Topsoil), 4.07 (Sealing of Drilled Holes and Underground Openings), 4.08 (Use of Explosives), 4.14 (Backfilling and Grading), 4.15 (Revegetation), 4.16 (Postmining Land Use), 4.20 (Subsidence Control), 4.25 (Operations on Prime Farmland), 5.03 (Enforcement), and 5.06 (Alternative Enforcement). Additionally, Colorado proposes revisions to and additions of definitions supporting those proposed rule changes.

As a result of comments received during the comment period, we identified concerns with regard to Colorado’s signature on Basis, Purpose, and Specific Statutory Authority (SBPSA) document that is incorporated with 2 CCR 407–2 by reference. We notified Colorado of our concerns by letter dated September 19, 2011 (Administrative Record No. OSM–2011–0002–0008). Colorado responded in a letter dated September 22, 2011, by submitting a revised amendment proposal (Administrative Record No. OSM–2011–0002–0009). The full text of the revised program amendment is also available for you to read at the locations listed above under ADDRESSES.

In response to our concerns, Colorado made the following change to its April 8, 2011, amendment proposal. Specifically, OSM expressed concerns regarding language in the SBPSA related to 2 CCR 407–2 Rule 1.04[111](d). Colorado proposes additional language to clarify that Colorado would not usurp the authority of the United States Forest Service by exercising jurisdiction over a National Forest System Road.

III. Public Comment Procedures

Under the provisions of 30 CFR 732.17(h), we are seeking your comments on whether the amendment satisfies the applicable program approval criteria of 30 CFR 732.15. If we approve the amendment, it will become part of the Colorado program.

Electronic or Written Comments

Send your written comments to OSM at the addresses given above. Your comments should be specific, pertain only to the issues proposed in this rulemaking, and include explanations in support of your recommended change(s). We appreciate any and all comments, but those most useful and likely to influence decisions on the final regulations will be those that either involve personal experience or include citations to and analyses of SMCRA, its legislative history, its implementing regulations, case law, other pertinent State or Federal laws or regulations, technical literature, or other relevant publications.

We will not consider or respond to your comments when developing the final rule if they are received after the close of the comment period (see DATES). We will make every attempt to log all comments into the administrative record, but comments delivered to an address other than the Denver Field Division may not be logged in.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

If you are disabled and need reasonable accommodations to attend a public hearing, contact the person listed under FOR FURTHER INFORMATION CONTACT. We will arrange the location and time of the hearing with those persons requesting the hearing. If no one requests an opportunity to speak, we will not hold the hearing.

To assist the transcriber and ensure an accurate record, we request, if possible, that each person who speaks at a public hearing provide us with a written copy of his or her comments.
