SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-65566; File No. S7-24–89]

December 2, 2011.

Pursuant to Rule 608 of the Securities Exchange Act of 1934 (the “Act”) 1 notice is hereby given that on November 11, 2011, the operating committee (“Operating Committee” or “Committee”) 2 of the Joint Self-Regulatory Organization Plan Governing the Collection, Consolidation, and Dissemination of Quotation and Transaction Information for Nasdaq-Listed Securities Traded on Exchanges on an Unlisted Trading Privilege Basis (“Nasdaq Plan” or “Plan”) filed with the Securities and Exchange Commission (“Commission”) an amendment to the Plan.3 This amendment represents Amendment No. 26 (“Amendment”) to the Plan and proposes to harmonize the price structures among the U.S. national market system plans by replacing the annual administrative fees that the Participants impose in respect of real-time data with monthly access fees. Pursuant to Rule 608(b)(3)(i) under the Act, the Participants designated the Amendment as establishing or changing a fee or other charge collected on behalf of all of the participants in connection with access to, or use of, the facilities contemplated by the Amendment. As a result, the Amendment has been put into effect upon filing with the Commission. At any time within 60 days of the filing of the Amendment, the Commission may summarily abrogate the Amendment and require that the Amendment be refiled in accordance with paragraph (a)(1) of Rule 608 and reviewed in accordance with paragraph (b)(2) of Rule 608, if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or the maintenance of fair and orderly markets, to remove impediments to, and perfect the mechanisms of, a national market system or otherwise in furtherance of the purposes of the Act. The Commission is publishing this notice to solicit comments from interested persons.

I. Rule 608(a)

A. Purpose of the Amendments

The Participants propose to harmonize the price structures among the U.S. national market system plans by replacing the annual administrative fees that the Participants impose in respect of real-time data with monthly access fees. The proposed Nasdaq/UTP Plan access fees are similar to those that the Network A and Network B Participants impose under the CTA and CQ Plans and that the OPRA Participants impose under the OPRA Plan.

The Participants propose to establish the monthly fee for access to UTP Level 1 real-time data feeds at $1,500 for direct access and at $500 for indirect access.

The Participants propose to impose the direct access fee on parties that receive “indirect access” to any one or more UTP Level 1 real-time data feeds by means of a data feed service that a third-party data feed provider makes available. Distributors receiving access both directly and indirectly shall be liable only for direct access fees.

The references to “data feeds” would include the receipt of data in an uncontrolled format. The data recipient is responsible for the telecommunications facilities necessary to access data.

Currently, the Participants impose the following annual administrative fee on distributors for access to UTP Level 1 Service:

<table>
<thead>
<tr>
<th>Service</th>
<th>Fee</th>
</tr>
</thead>
<tbody>
<tr>
<td>Delayed distributor</td>
<td>$250</td>
</tr>
<tr>
<td>0–999 real-time terminals</td>
<td>$500</td>
</tr>
<tr>
<td>1,000–4,999 real-time terminals</td>
<td>$1,250</td>
</tr>
<tr>
<td>5,000–9,999 real-time terminals</td>
<td>$2,250</td>
</tr>
<tr>
<td>10,000+ real-time terminals</td>
<td>$3,750</td>
</tr>
</tbody>
</table>

The Participants propose to replace each of the real-time administrative fees with the access fees. As a result, the Participants propose to delete the real-time annual administrative fees from the fee schedule. The $250 annual administrative fee that the Participants impose on delayed distributors would remain in effect.

The Participants project that replacing the annual administrative fees with monthly access fees would increase annual revenues received under the Nasdaq/UTP Plan approximately five percent for 2012.

From an administrative perspective, the administrator under the Nasdaq/UTP Plan would require parties with direct or indirect access to UTP Level 1 real-time data feeds to enter into the same market data agreements that they are required to enter into today.

B. Governing or Constituent Documents

Not applicable.

C. Implementation of Amendment

The Participants have manifested their approval of the proposed Amendment by means of their execution of the Amendment. The Participants propose to make the rate changes effective for calendar year 2012.

D. Development and Implementation Phases

Not applicable.

E. Analysis of Impact on Competition

The proposed Amendment does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The access fees amount to a competitive response to the access fees that the

The Participants in the CTA, CQ and OPRA Plans impose. The proposed monthly access fees and the monthly access fees that currently apply under those other national market system plans compare as follows:

<table>
<thead>
<tr>
<th></th>
<th>Network A</th>
<th>Network B</th>
<th>OPRA</th>
<th>Proposed under NASDAQ/UTP Plan</th>

<tr>
<td><strong>Direct Access:</strong></td>

</tbody>

The Participants believe that the same holds true for the Nasdaq/UTP Plan’s proposal. The proposed access fees compare favorably to those currently imposed under the CTA, CQ and OPRA Plans, including those approved by the Commission less than two years ago. The Nasdaq/UTP Plan Participants do not impose the program classification charges that the CTA and CQ Plan Participants eliminated. In addition to the favorable comparability of the Nasdaq/UTP Plan Participants’ proposed access fees, the Plan’s other charges also compare favorably to their CTA, CQ and OPRA Plan counterparts. These include device charges, charges for nonprofessional subscriber services, per-query fees, and television ticker fees.

In addition to the CTA, CQ and OPRA Plans, many individual exchanges around the world impose access fees for the receipt of market data feeds. On the other hand, few exchanges impose annual administrative fees.

As a result, this Amendment promotes consistency in price structures among the national market system plans, as well as consistency with the preponderance of other market data providers. It would make access fees easier to administer and enable data recipients to compare their charges under the respective national market system plans more easily. It would make access fees more straightforward and streamlined administrative process for both the network administrator and the vendors.

Access fees allow those who gain access to the Plan’s data feeds to contribute an appropriate amount for their receipt of market data under the Plan. They provide for an equitable allocation of dues, fees, and other charges among users, data recipients and other persons using the Participants’ facilities.

The Participants propose to impose the access fees uniformly on all vendors that receive UTP Level 1 real-time data in a data feed/uncontrolled format (including members of the Participant markets and non-members). The Participants do not believe that the proposed plan Amendment introduces terms that are unreasonably discriminatory for the purposes of Section 11A(c)(1)(D) of the Act.

The Participants have no written understandings or agreements relating to interpretation of the Plan as a result of the Amendment.

Each of the Plan’s Participants has executed a written Amendment to the Plan.

Not applicable.

The Participants believe that the level of the access fee allows vendors to contribute an appropriate amount for their receipt of market data under the Plan. The access fees amount to a competitive response to the access fees that the Participants in the CTA, CQ and OPRA Plans impose.

The Participants believe that the proposed access fees are fair and reasonable and provide for an equitable allocation of dues, fees, and other charges among vendors, data recipients and other persons using the Participants’ facilities.

Not applicable.

See Item A(1) above.

The Participants believe that the proposed access fees are fair and reasonable and provide for an equitable allocation of dues, fees, and other charges among vendors, data recipients and other persons using the Participants’ facilities.
