

Chapter 512 DM 2, and the Department of Commerce *American Indian and Alaska Native Policy* (March 30, 1995), we have considered possible effects on federally recognized Indian tribes and have determined that there are no potential adverse effects of issuing this draft policy. As noted above, we cannot reasonably predict those species for which we will receive petitions to list, delist, or reclassify, or whether a species' specific circumstances would result in us listing a species based on its status in an SPR. We therefore cannot predict which entities, including federally recognized Indian tribes, would be affected by listing a species as endangered or threatened based on its status in an SPR or the extent of those impacts. Given our experience implementing the Act, we believe few if any entities, including tribes, would be affected.

However, the Act requires that we give notice of and seek comment on any proposal to list, delist, or reclassify any species prior to a final decision. Our proposed rules to list, delist, or reclassify species would indicate the types of activities that may be affected by resulting regulatory requirements of the Act. Any potentially affected federally recognized Indian tribes would be notified of a proposed determination and given the opportunity to review and comment on the proposed rules.

H. Paperwork Reduction Act

This draft policy does not contain any new collections of information that require approval by Office of Management and Budget (OMB) under the Paperwork Reduction Act. This policy would not impose recordkeeping or reporting requirements on State or local governments, individuals, businesses, or organizations. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

I. National Environmental Policy Act

We are analyzing this draft policy in accordance with the criteria of the National Environmental Policy Act (NEPA), the Department of the Interior Manual (318 DM 2.2(g) and 6.3(D)), and National Oceanic and Atmospheric Administration (NOAA) Administrative Order 216-6. We will complete our analysis, in compliance with NEPA, before finalizing this proposed policy.

J. Energy Supply, Distribution or Use (E.O. 13211)

On May 18, 2001, the President issued Executive Order 13211 on regulations

that significantly affect energy supply, distribution, and use. Executive Order 13211 requires agencies to prepare Statements of Energy Effects when undertaking certain actions. This draft policy, if made final, is not expected to affect energy supplies, distribution, and use. Therefore, this action is not a significant energy action, and no Statement of Energy Effects is required.

K. Clarity of This Policy

We are required by Executive Orders 12866 and 12988 and by the Presidential Memorandum of June 1, 1998, to write all rules in plain language. This means that each rule or policy we publish must:

- (a) Be logically organized;
- (b) Use the active voice to address readers directly;
- (c) Use clear language rather than jargon;
- (d) Be divided into short sections and sentences; and
- (e) Use lists and tables wherever possible.

If you feel that we have not met these requirements, send us comments by one of the methods listed in the **ADDRESSES** section. To better help us revise the policy, your comments should be as specific as possible. For example, you should tell us the sections or paragraphs that are unclearly written, which sections or sentences are too long, the sections where you feel lists or tables would be useful, etc.

Correction

On October 28, 2011, we published a **Federal Register** notice inviting the public to comment on several applications for permits to conduct certain activities with endangered species (76 FR 66954). We made an error by omitting one animal in Leonard Voyle's application (PRT-57362A), which starts in the first column on page 66955. The omission is for an additional male bontebok (*Damaliscus pygargus pygargus*), for a total of two animals, not one. All the other information we printed was correct. With this notice, we correct that error and reopen the comment period for PRT-57362A. The corrected entry for this application is as follows:

Applicant: Leonard Voyles, Richmond, TX; PRT-57362A

The applicant requests a permit to import the sport-hunted trophy of two male bontebok (*Damaliscus pygargus pygargus*), culled from a captive herd maintained under the management program of the Republic of South Africa,

for the purpose of enhancement of the survival of the species.
