long as the area continues to attain the 1997 8-hour ozone NAAQS. Second, pursuant to sections 179 and 181(b)(2)(A) of the CAA, EPA is proposing to determine that the Philadelphia Area has attained the 1997 8-hour ozone NAAQS by its attainment date, June 15, 2011. These proposed determinations are based upon complete, quality assured, and certified ambient air monitoring data that show the area has monitored attainment of the 1997 8-hour ozone NAAQS for the 2008–2010 monitoring period. EPA is soliciting public comments on the issues discussed in this document. These comments will be considered before taking final action.

VII. Withdrawal Action

Based on ambient air quality monitoring data that demonstrates attainment of the 1997 8-hour ozone NAAQS, EPA is withdrawing the May 8, 2009 proposed disapprovals of Delaware’s, Maryland’s, New Jersey’s, and Pennsylvania’s 8-hour ozone attainment demonstrations for the Philadelphia Area. (74 FR 21599, 74 FR 21588, 74 FR 21578, and 74 FR 21604)

VIII. Statutory and Executive Order Reviews

This action proposes to make a determination of attainment based on air quality, and would, if finalized, result in the suspension of certain Federal requirements, and would not impose additional requirements beyond those imposed by state law. For that reason, this proposed action:

- Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 et seq.);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this proposed determination that the Philadelphia Area has attained the 1997 8-hour ozone NAAQS does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

AGENCY: Environmental Protection Agency (EPA) and National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Announcement of public hearings

SUMMARY: EPA and NHTSA are announcing public hearings to be held for the joint proposed rules “2017 and Later Model Year Light-Duty Vehicle Greenhouse Gas Emissions and Corporate Average Fuel Economy Standards,” published in the Federal Register on December 1, 2011. The agencies will also accept comment on NHTSA’s Draft Environmental Impact Statement (Draft EIS), available on NHTSA’s Web site at http://www.nhtsa.gov/fuel-economy. Three hearings will be held, on January 17, January 19, and January 24, 2012. The agencies will assume that all oral comments presented at the hearing are addressed to the joint proposed rules only, unless speakers specifically reference NHTSA’s Draft EIS in oral or written testimony.

DATES: NHTSA and EPA will jointly hold three public hearings on the following dates: January 17, 2012 in Detroit, Michigan; January 19, 2012 in Philadelphia, Pennsylvania; and January 24, 2012 in San Francisco, California. The hearings will start at 10 a.m. local time and continue until 5 p.m. or until everyone has had a chance to speak. If you would like to present oral testimony at one of these public hearings, please contact the person identified under FOR FURTHER INFORMATION CONTACT, at least ten days before the hearing.

ADDRESSES: The January 17, 2012 hearing will be held at the Courtyard Detroit Downtown, 333 East Jefferson Avenue, Detroit, Michigan 48226. The January 19, 2012 hearing will be held at the Crowne Plaza Philadelphia Downtown, 1800 Market Street, Philadelphia, Pennsylvania 19103. The January 24, 2012 hearing will be held at the Hyatt at Fisherman’s Wharf, 555 North Point Street, San Francisco, California 94133. The hearings will be held at sites accessible to individuals with disabilities. In addition, the agencies will provide the opportunity for the public to listen to each hearing through the following conference call-in line: 1–(866) 299–3188; conference code 734 214 4423#. Please note that this conference line will allow the public to listen only; persons listening will not be able to give an oral presentation via the conference line.

FOR FURTHER INFORMATION CONTACT: If you would like to present oral testimony at a public hearing, please contact JoNell Ilfield at EPA by the date specified under DATES, at: Office of...
Transportation and Air Quality, Assessment and Standards Division (ASD), Environmental Protection Agency, 2000 Traverwood Drive, Ann Arbor, MI 48105; telephone number: (734) 214–4454; fax number: (734) 214–4816; email address: iffland.jonell@epa.gov. Please provide the following information: Name, affiliation, address, email address, telephone and fax numbers, time you wish to speak (morning, afternoon) if there is a preference, and whether you require accommodations such as a sign language interpreter or translator.

SUPPLEMENTARY INFORMATION: The purpose of the public hearings is to provide the public an opportunity to present oral comments regarding NHTSA and EPA’s proposals for “2017 and Later Model Year Light-Duty Vehicle Greenhouse Gas Emissions and Corporate Average Fuel Economy Standards.” (December, 1, 2011; 76 FR 74854) These hearings also offer an opportunity for the public to provide oral comments regarding NHTSA’s Draft EIS, accompanying the proposed NHTSA fuel economy standards. The agencies will assume that all oral comments presented at the hearing are addressed to the joint proposed rules only, unless speakers specifically reference NHTSA’s Draft EIS in oral or written testimony.

The joint proposed rules issued by EPA and by NHTSA on behalf of the Department of Transportation, would further reduce greenhouse gas emissions from and improve fuel economy for light-duty vehicles for model years 2017–2025. The proposal extends the National Program beyond the greenhouse gas and corporate average fuel economy standards for these vehicles set for model years 2012–2016. On May 21, 2010, President Obama issued a Presidential Memorandum requesting that NHTSA and EPA develop through notice and comment rulemaking a coordinated National Program to reduce greenhouse gas emissions of light-duty vehicles for model years 2017–2025. The proposal, consistent with the President’s request, responds to the country’s critical needs to address global climate change and to reduce oil consumption. NHTSA is proposing Corporate Average Fuel Economy standards under the Energy Policy and Conservation Act, as amended by the Energy Independence and Security Act, and EPA is proposing greenhouse gas emissions standards under the Clean Air Act. These standards would apply to passenger cars, light-duty trucks, and medium-duty passenger vehicles, and, if ultimately adopted, would represent a continued harmonized and consistent National Program. Under the National Program for model years 2017–2025, automobile manufacturers would be able to continue building a single light-duty national fleet that satisfies all requirements under both programs while ensuring that consumers still have a full range of vehicle choices. EPA is also proposing minor changes to the light-duty vehicle regulations applicable to model years 2012–2016, with respect to air conditioner performance, regulatory treatment of emergency vehicles, and measurement of nitrous oxides.

The proposal for which EPA and NHTSA are holding the public hearings was published in the Federal Register on December 1, 2011 (76 FR 74854) and is also available at the Web pages listed above under FOR FURTHER INFORMATION CONTACT and also in the rulemaking dockets. NHTSA’s Draft Environmental Impact Statement is available on NHTSA’s web page and in NHTSA’s docket for the EIS, both referenced above. Once NHTSA and EPA learn how many people have registered to speak at each public hearing, we will allocate an appropriate amount of time to each participant, allowing time for necessary breaks. In addition, we will reserve a block of time for anyone else in the audience who wishes to give an oral presentation. For planning purposes, each speaker should anticipate speaking for approximately ten minutes, although we may need to shorten that time if there is a large turnout. We request that you bring three copies of your statement or other material for the EPA and NHTSA panels. To accommodate as many speakers as possible, we prefer that speakers not use technological aids (e.g., audio-visuals, computer slideshows). However, if you wish to do so, you should notify the contact persons in the FOR FURTHER INFORMATION CONTACT section above. You also must make arrangements to provide your presentation or any other aids to NHTSA and EPA in advance of the hearing in order to facilitate set-up.

NHTSA and EPA will conduct the hearings informally, and technical rules of evidence will not apply. We will arrange for a written transcript of each hearing and keep the official record of each hearing open for 30 days to allow speakers to submit supplementary information. Panel members may ask clarifying questions during the oral presentations, but will not respond to the presentations at that time. You may make arrangements for copies of the transcripts directly with the court reporter. Written statements and supporting information submitted during the comment period will be considered with the same weight as oral comments and supporting information presented at the public hearings. To be assured of consideration, written comments on the proposal must be received by January 30, 2012 (76 FR 74854). Written comments on NHTSA’s Draft EIS must be received or uploaded to NHTSA’s docket for the EIS by January 31, 2012.

Dated: December 5, 2011.

Ronald Medford,

Deputy Administrator, National Highway Traffic Safety Administration.

Dated: December 5, 2011.

Margo T. Oge,

Director, Office of Transportation and Air Quality, Environmental Protection Agency.
