**SUPPLEMENTARY INFORMATION:** Section 4010 of the Employee Retirement Income Security Act of 1974 (ERISA) requires each member of a controlled group to submit financial and actuarial information to PBGC under certain circumstances. PBGC's regulation on Annual Financial and Actuarial Information (29 CFR part 4010) specifies the items of identifying, financial, and actuarial information that filers must submit. PBGC reviews the information that is filed and enters it into an electronic database for more detailed analysis. Computer-assisted analysis of this information helps PBGC to anticipate possible major demands on the/pension insurance system and to focus PBGC resources on situations that pose the greatest risk to the system.

Because other sources of information are usually not as current as the 4010 information and do not reflect a plan's termination liability, 4010 filings play a major role in PBGC's ability to protect participant and premium-payer interests.

ERISA section 4010 and PBGC's 4010 regulation specify that each controlled group member must provide PBGC with certain financial information, including audited (if available) or (if not) unaudited financial statements. They also specify that the controlled group must provide PBGC with certain actuarial information necessary to determine the liabilities and assets for all PBGC-covered plans. All non-public information submitted is protected from disclosure. Reporting is accomplished through PBGC's secure e-4010 web-based application.

OMB has approved the 4010 collection of information under control number 1212-0049 through March 31, 2012. PBGC intends to request that OMB extend approval of this collection of information for three years, without change. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

PBGC estimates that approximately 300 controlled groups will be subject to 4010 reporting requirements. PBGC further estimates that the total annual burden of this collection of information will be 2,620 hours and \$5,088,000.

PBGC is soliciting public comments to—

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodologies and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Issued in Washington, DC, this 7th day of December 2011.

changes are scheduled to become effective January 22, 2012.

Attached to the Filing is the Governors' Decision evaluating the new prices and classification changes in accordance with 39 U.S.C. 3632–33 and 39 CFR 3015.2. The Governors' Decision provides an analysis of the competitive products' price and classification changes intended to demonstrate that the changes comply with section 3633(a) of title 39 and the Commission's rules. See 39 CFR 3015.7(c).

The attachment to the Governors' Decision sets forth the price changes and includes a draft Mail Classification Schedule (MCS) for competitive products of general applicability. Selected highlights of the price and classification changes follow.

**Express Mail.** Overall, Express Mail prices increase by 3.3 percent. Retail prices increase, on average, by 4.4 percent. The existing structure of the price categories for zoned Retail, Commercial Base and Commercial Price categories does not change. The Commercial Base category, which offers lower prices to Customers who use online or other authorized postage payment methods, decreases by 5.0 percent. Commercial Plus prices, overall, receive a zero percent increase, but some individual prices will increase and some will decrease. A new Express Mail Flat Rate Box product is added and is priced the same across all channels (\$39.95).

**Priority Mail.** Priority Mail prices increase by 3.1 percent overall, with average retail prices increasing by about 3.2 percent. Price increase varies by rate cell and price tier. Flat Rate Box prices are small (\$5.35), Medium (\$11.35), Large (\$15.45) and Large APO/FPO/DPO (\$13.45).

The existing structure of Retail, Commercial Base and Commercial Price categories does not change. The average increase for Commercial Base prices is 3.0 percent. Commercial Plus prices increase by 2.8 percent. The price category will continue to contain Critical Mail letters and flats, a half pound price, an assortment of Flat Rate packaging, and Commercial Plus Cubic pricing.

Changes to the price structure include the following: (1) Adding a larger-sized Regional Rate box tier;<sup>2</sup> (2) the parcel volume threshold in Commercial Price Cubic pricing is reduced from 250,000 to 150,000 pieces, and can use soft packaging; and (3) Open and Distribute pricing for specified trays and flat tubs is to be introduced in January.

**Parcel Select.** Parcel Select service increases, on average, by 8.5 percent. For destination entry parcels, the average price increases 7.6 percent for dropshipping at destination delivery units (DDU), 7.8 percent for parcels entered at a destination plant (DSCF), and 6.8 percent for parcels entered at a destination Network Distribution Center (NDC).

For nondestination-entered parcels, the average increases are 1.5 percent for origin NDC presort, 0.9 percent for NDC presort, and 0.8 percent for nonpresort. The barcode discount is eliminated. Lightweight Parcel Select (formerly Standard Mail commercial parcels) increase by 8.9 percent. The maximum dimensions for Regional Ground increase to accommodate any machinable parcel in this price category. In January, the Intelligent Mail Package Barcode (IMpb) feature is added for free visibility.

**Parcel Return.** Parcel Return Service increases, on average, by 4.6 percent. Return NDC prices retrieved at a return NDC will increase by 0 percent, and the price for parcels picked up at a return delivery unit (RDU) will increase by 8.9 percent. The Postal Service's return product offerings will be branded as "Return Service".

**Commercial First-Class Package Service.** Commercial First-Class parcels, recently transferred to the competitive product list, are renamed Commercial First-Class Package Service. Commercial First-Class Package Service prices increase, overall, 3.7 percent, with no structural changes.

**Domestic Extra Services.** Premium Forwarding Service prices increase 3.4 percent. The weekly reshipment fee increases to \$15.25. On average, Address Enhancement Service prices increase 7.3 percent. On January 2012, 6,800 Post Office Box locations join the existing 49 locations on the competitive product list. Additional fee ranges are added for boxes in Fee Groups 2 through 7. A Package Intercept service is introduced within the Competitive Ancillary Services product, priced at \$10.95.

**Global Express Guaranteed and Express Mail International.** Global Express Guaranteed service increases, on average, by 6.0 percent. Express Mail International (EMI) service increases, on average, by 11.6 percent.

For both GXG and EMI, classification changes include changes to published discounts: rate cell-specific discounted schedules for both GXG and EMI replace across-the-board discounts for customers using approved postage payment methods. Commercial base discount schedules replace across the

board discounts for eligible shipments using selected payment methods. Customers tendering at least \$100,000 in revenue per year for GXG, EMI and Priority Mail International (PMI) can request authorization for new commercial plus discounts.

Two versions of a new Express Mail International Flat Rate Box product are added: for Canada (\$59.95) and for all other countries accepting EMI (\$74.95), both with a maximum weight of 20 pounds.

Classification changes also include A) country group assignments for the nation of Tonga, and B) changes to the dimensional limits for EMI.

Classification changes include the simplification of dimensional criteria for flat rate envelopes and boxes, changes to the dimensional limits for PMI and the introduction of commercial base and commercial plus discounts similar to the changes for GXG and EMI.

**International Priority Airmail.** International Priority Airmail has a price increase of 1.0 percent.

**International Surface Air Lift.** International Surface Air Lift has a price increase of 13.7 percent.

**Airmail M-Bags.** The published prices for Airmail M-Bags increase by 3.5 percent.

**International Ancillary Services.** The overall increase for international ancillary services is 5.0 percent. Money Order prices increase by 4.7 percent.

Details of these changes may be found in the attachment to Governors' Decision No. 11–18.

The Filing also includes three additional attachments: a redacted table that shows FY 2012 projected volumes, revenues, attributable costs, contribution, and cost coverage for each product, assuming implementation of new prices on January 22, 2012, a similar table assuming a hypothetical implementation on October 3, 2011 (for comparative purposes only), and an application for non-public treatment of the unredacted version of that table. The table calculates and identifies a contribution from competitive products as a percentage (7.9%) of institutional cost associated with the January 22, 2012 implementation.

**Notice.** The establishment of rates of general applicability for competitive products and the associated MCS changes effect a change in the draft MCS. Pursuant to subpart E of part 3020 of its rules, 39 CFR 3020.90 *et seq.*, the Commission provides notice of the Postal Service's Filing. Interested persons may express views and offer
