

according to the date that EPA approves California's authorization request to facilitate compliance. AWO also expressed concerns about inconsistent regulation for vessels engaged in interstate commerce. K-Sea echoed a similar concern, stating that the regulations will shift the burden of dealing with emissions to other states because companies may choose to relocate a non-CARB compliant engine to operations elsewhere. With respect to AWO's request for a delayed compliance schedule, EPA cannot change an aspect of California's regulation. EPA is only authorized to review California's standards to determine compliance with section 209. It is not authorized to change California's regulations. With respect to the AWO and K-Sea comments regarding the interstate implications of California's commercial harbor craft regulations, that issue is also beyond the scope of EPA's review under the three section 209(e)(2) criteria. As EPA has stated on numerous occasions, sections 209(b) and 209(e) of the Clean Air Act limit our authority to deny California requests for waivers and authorizations to the three criteria listed therein. As a result, EPA has consistently refrained from denying California's requests for waivers and authorizations based on any other criteria.⁴³ In instances where the U.S. Court of Appeals has reviewed EPA decisions declining to deny waiver requests based on criteria not found in section 209(b), the Court has upheld and agreed with EPA's determination.⁴⁴ Neither of these other issues AWO and K-Sea raises is among—or fits within the confines of—the criteria listed under section 209(e).⁴⁵ It is clear that Congress intended that California have the ability to promulgate standards that are more stringent than those that would otherwise apply to mobile sources under federal regulations. Indeed, other states could also promulgate such standards if they are identical to California's. Therefore, in considering California's commercial harbor craft regulations, EPA may not deny authorization based on these issues.

⁴³ See, e.g., 74 FR 32744, 32783 (July 8, 2009).

⁴⁴ See *Motor and Equipment Manufacturers Ass'n v. Nichols*, 142 F.3d 449, 462–63, 466–67 (DC Cir. 1998), *Motor and Equipment Manufacturers Ass'n v. EPA*, 627 F.2d 1095, 1111, 1114–20 (DC Cir. 1979).

⁴⁵ AWO and K-Sea may raise these issues in a direct challenge to California's regulations in other forums, but these issues are not relevant to EPA's limited review under section 209.

E. Authorization Determination for California's Commercial Harbor Craft Regulations

After a review of the information submitted by CARB and other parties to this proceeding, EPA finds that those opposing California's request have not met the burden of demonstrating that an authorization for California's commercial harbor craft regulations should be denied based on any of the three statutory criteria of section 209(e)(2). For this reason, EPA finds that an authorization for California's commercial harbor craft regulations should be granted.

III. Decision

The Administrator has delegated the authority to grant California section 209(b) waivers of preemption and section 209(e) authorizations to the Assistant Administrator for Air and Radiation. After evaluating California's commercial harbor craft regulations, CARB's submissions, and the public comments from AWO and K-Sea, EPA is granting an authorization to California for its commercial harbor craft regulations.

My decision will affect not only persons in California, but also entities outside the State who must comply with California's requirements. For this reason, I determine and find that this is a final action of national applicability for purposes of section 307(b)(1) of the Act. Pursuant to section 307(b)(1) of the Act, judicial review of this final action may be sought only in the United States Court of Appeals for the District of Columbia Circuit. Petitions for review must be filed by February 13, 2012. Judicial review of this final action may not be obtained in subsequent enforcement proceedings, pursuant to section 307(b)(2) of the Act.

IV. Statutory and Executive Order Reviews

As with past authorization and waiver decisions, this action is not a rule as defined by Executive Order 12866. Therefore, it is exempt from review by the Office of Management and Budget as required for rules and regulations by Executive Order 12866.

In addition, this action is not a rule as defined in the Regulatory Flexibility Act, 5 U.S.C. 601(2). Therefore, EPA has not prepared a supporting regulatory flexibility analysis addressing the impact of this action on small business entities.

Further, the Congressional Review Act, 5 U.S.C. 801, *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, does

not apply because this action is not a rule for purposes of 5 U.S.C. 804(3).

Dated: December 5, 2011.

Gina McCarthy,

Assistant Administrator, Office of Air and Radiation.

FEDERAL COMMUNICATIONS COMMISSION

Information Collection Being Submitted for Review and Approval to the Office of Management and Budget

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: The Federal Communications Commission (FCC), as part of its continuing effort to reduce paperwork burdens, invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act (PRA) of 1995. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's

burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and (e) ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written comments should be submitted on or before January 12, 2012. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contacts below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicholas A. Fraser, OMB, via fax (202) 395-5167, or via email Nicholas_A_Fraser@omb.eop.gov; and to Cathy Williams, FCC, via email PRA@fcc.gov and to Cathy.Williams@fcc.gov. Include in the comments the OMB control number as shown in the **SUPPLEMENTARY INFORMATION** section below.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection, contact Cathy Williams at (202) 418-2918. To view a copy of this information collection request (ICR) submitted to OMB: (1) Go to the Web page <http://www.reginfo.gov/public/do/PRAMain>, (2) look for the section of the Web page called "Currently Under Review," (3) click on the downward-pointing arrow in the "Select Agency" box below the "Currently Under Review" heading, (4) select "Federal Communications Commission" from the list of agencies presented in the "Select Agency" box, (5) click the "Submit" button to the right of the "Select Agency" box, (6) when the list of FCC ICRs currently under review appears, look for the OMB control number of this ICR and then click on the ICR Reference Number. A copy of the FCC submission to OMB will be displayed.
