

Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting Panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO's; International experts; and staff of Councils, Commissions, and state and federal agencies.

During the SEDAR 28 pre-data workshop webinar participants will present summary data, and discuss data needs and treatments.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see **ADDRESSES**) at least 10 business days prior to the meeting.

COUNCIL ON ENVIRONMENTAL QUALITY

Draft Guidance on Improving the Process for Preparing Efficient and Timely Environmental Reviews under the National Environmental Policy Act

AGENCY: Council on Environmental Quality.

ACTION: Notice of availability, draft guidance on improving the process for preparing efficient and timely environmental reviews under the National Environmental Policy Act.

SUMMARY: The Council on Environmental Quality (CEQ) is issuing its draft guidance on Improving the Process for Preparing Efficient and Timely Environmental Reviews under the National Environmental Policy Act for public review and comment. The National Environmental Policy Act (NEPA) and CEQ Regulations implementing NEPA provide numerous techniques for preparing efficient and timely environmental reviews. CEQ is issuing this guidance for Federal departments and agencies to emphasize and clarify these techniques, consistent with a thorough and meaningful environmental review and keeping in mind the following basic principles: (1) NEPA encourages simple, straightforward, and concise reviews and documentation that are proportionate to and effectively convey the relevant considerations in a timely manner to the public and decisionmakers, while comprehensively addressing the issues presented; (2) NEPA should be integrated into project planning rather than be an after-the-fact add-on; (3) NEPA reviews should coordinate and take appropriate advantage of existing documents and studies, including through adoption and incorporation by reference; (4) Early and well-defined scoping can assist in focusing environmental reviews on
