Instrumentation.” to define a new time limit for restoring inoperable reactor coolant system (RCS) leakage detection instrumentation to operable status; establish alternate methods of monitoring RCS leakage when one or more required monitors are inoperable; and make TS Bases changes which reflect the proposed changes and more accurately reflect the contents of the facility design basis related to operability of the RCS leakage detection instrumentation. These changes are consistent with NRC-approved Revision 3 to Technical Specification Task Force (TSTF) Change Traveler TSTF–514, “Revise BWR [Boiling-Water Reactor] Operability Requirements and Actions for RCS Leakage Instrumentation,” as part of the consolidated line item improvement process.

Date of application for amendments: November 10, 2010, as supplemented by letter dated August 26, 2011.

Brief description of amendments: The change revised the PPL Susquehanna, LLC (PPL) Unit 1 and Unit 2 Technical Specifications (TSs) Surveillance Requirements (SRs) 3.4.3.1 “Safety/Relief Valves (S/RVs)” to the lower tolerances from −3% to −5%. These changes would be limited to the lower tolerances and does not affect the upper tolerances. These changes only apply to the lower as-found tolerances and not to the as-left tolerances, which will remain unchanged at ±1% of the safety lift setpoint. The as-found tolerances are used for determining past operability and to increase sample sizes for S/RV testing should the upper tolerances be exceeded. There will be no revision to the actual setpoints of the valves installed in the plant due to this change.

PEACE CORPS

Information Collection Requests Under OMB Review; Proposed Collection of Information

AGENCY: Peace Corps.

ACTION: Submission for Office of Management and Budget (OMB) review; comment request.

SUMMARY: The Peace Corps will submit the following information collection request to the Office of Management and Budget (OMB) for approval. In compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Peace Corps invites the general public to comment on this request for approval of a new proposed information collection, Intelligence Background Questionnaire (OMB Control Number 0420—pending). This process is conducted in accordance with 5 CFR 1320.10.

DATES: Comments regarding this collection must be received on or before January 12, 2012.

ADDRESSES: Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name/or OMB approval number and should be sent via email to: oira_submission@omb.eop.gov or fax to: (202) 395–3086. Attention: Desk Officer for Peace Corps.

FOR FURTHER INFORMATION CONTACT: Denora Miller, FOIA Officer, Peace Corps, 1111 20th Street NW., Washington, DC 20526, (202) 692–1236, or email at pcfr@peacecorps.gov. Copies of available documents submitted to OMB may be obtained from Denora Miller.

SUPPLEMENTARY INFORMATION: It has been the Peace Corps’ longstanding policy to exclude from Peace Corps Volunteer service and Peace Corps employment any persons who have engaged in intelligence activity or related work or who have been employed by or connected with an intelligence Agency. It is crucial to the Peace Corps in carrying out its mission that there is a complete and total separation of Peace Corps from the intelligence activities of the United States government, both in reality and appearance. Any semblance of a connection between Peace Corps and the intelligence community would seriously compromise the ability of the Peace Corps to develop and maintain the trust and confidence of the people of the host countries. It could also put Volunteers at risk in the countries in which they serve.

Title: Intelligence Background Questionnaire.

OMB Control Number: 0420—pending.

Type of information collection: Existing collection in use without an OMB control number.

Affected public: Individuals or households.

Respondents’ obligation to reply: Required to obtain or retain benefits.

Burden to the public:
(a) Estimated average burden per respondents: 100
(b) Frequency of response one time: one time
(c) Estimated average burden per response: 10 minutes
(d) Estimated total reporting burden: 16.67 hours
(e) Estimated annual cost to respondents: $0.00

General description of collection: Peace Corps’ Office of the General Counsel uses the form to determine whether the intelligence connection is substantial enough to prevent the person from being employed at the Peace Corps or being a Volunteer for the Peace Corps permanently or for a set period of time from the last intelligence connection. If an applicant disagrees with the General Counsel’s determination, he or she may appeal the determination to the Director of the Peace Corps.

This notice issued in Washington, D.C., on December 5, 2011.

Garry W. Stanberry,
Deputy Associate Director, Management.
