II. Request for Comments

The BIE requests your comments on this collection concerning: (a) The necessity of this information collection for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) The accuracy of the agency’s estimate of the burden (hours and cost) of the collection of information, including the validity of the methodology and assumptions used; (c) Ways we could enhance the quality, utility, and clarity of the information to be collected; and (d) Ways we could minimize the burden of the collection of the information on the respondents, such as through the use of automated collection techniques or other forms of information technology.

Please note that an agency may not conduct or sponsor, and an individual need not respond to, a collection of information unless it has a valid OMB Control Number.

It is our policy to make all comments available to the public for review at the location listed in the ADDRESSES section. Before including your address, phone number, email address or other personally identifiable information, be advised that your entire comment—including your personally identifiable information—may be made public at any time. While you may request that we withhold your personally identifiable information, we cannot guarantee that we will be able to do so.

III. Data

OMB Control Number: 1076–0114.
Title: Application for Admission to Haskell Indian Nations University and to Southwestern Indian Polytechnic Institute.

Brief Description of Collection: Submission of these eligibility applications forms are mandatory in determining a student’s eligibility for educational services. The information is collected on one two forms: Application for Admission to Haskell form and SIPI form.

Type of Review: Extension without change of a currently approved collection.

Respondents: Students.
Number of Respondents: 4,000 per year, on average.
Total Number of Responses: 4,000 per year, on average.
Frequency of Response: Once per year for Haskell; each trimester for SIPI.
Estimated Time per Response: 30 minutes per Haskell application; 30 minutes per SIPI application.
Estimated Total Annual Hour Burden: 2,000 hours.

Estimated Total Annual Cost Burden: $10,000 is the estimated total annual cost burden. We estimate 1,000 Haskell applications at a $10 filing fee charge per application. The fee for SIPI is included in tuition costs and therefore, is not included in this estimate, reducing the previous estimated annual cost burden from $16,500 to $10,000.

* * * * *

OMB Control Number: 1076–0134.
Title: Student Transportation Form.

Brief Description of Collection: This annual collection provides pertinent data concerning the school’s bus transportation mileage and related long distance travel mileage to determine funding levels for school transportation. This information is collected on the Indian School Equalization Program (ISEP) Student Transportation form.

Type of Review: Extension without change of a currently approved collection.

Respondents: Contract and Grant schools; Bureau-operated schools.
Number of Respondents: 121 per year, on average.
Total Number of Responses: 121 per year, on average.
Frequency of Response: Once per year.
Estimated Time per Response: 6 hours.
Estimated Total Annual Burden: 726 hours.

* * * * *

OMB Control Number: 1076–0122.
Title: Data Elements for Student Enrollment in Bureau-funded Schools.

Brief Description of Collection: This annual collection provides Bureau-funded schools with data about students that impacts placement, special needs assessments, and funding for individuals and assists schools in developing a plan for the school year. The information is collected on a Student Enrollment Application form.

Type of Review: Extension without change of a currently approved collection.

Respondents: Contract and Grant schools; Bureau-operated schools.
Number of Respondents: 48,000 per year, on average.
Total Number of Responses: 48,000 per year, on average.
Frequency of Response: Once per year.
Estimated Time per Response: 15 minutes.
Estimated Total Annual Burden: 12,000 total burden hours.

Dated: December 9, 2011.

Alvin Foster,
Assistant Director for Information Resources.

DEPARTMENT OF THE INTERIOR
Bureau of Land Management
[LLOR957000–L63100000–HD0000: HAG12–0049]

Filing of Plats of Survey: Oregon/Washington

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The plats of survey of the following described lands are scheduled to be officially filed in the Bureau of Land Management Oregon/Washington State Office, Portland, Oregon, 30 days from the date of this publication.

Willamette Meridian

Oregon

T. 23 S., R. 5 W., accepted November 16, 2011.
T. 31 S., R. 9 W., accepted November 16, 2011.
T. 18 S., R. 1 E., accepted November 16, 2011.
T. 11 S., R. 3 E., accepted December 1, 2011.
T. 11 S., R. 2 E., accepted December 1, 2011.
T. 19 S., R. 7 W., accepted December 1, 2011.
T. 18 S., R. 8 W., accepted December 1, 2011.
T. 2 S., R. 6 E., accepted December 1, 2011.
T. 26 S., R. 7 W., accepted December 1, 2011.
T. 18 S., R. 6 W., accepted December 1, 2011.
T. 7 S., R. 7 W., accepted December 1, 2011.
T. 19 S., R. 7 W., accepted December 1, 2011.

Washington

T. 2 N., R. 1 E., accepted December 5, 2011.

ADDRESSES: A copy of the plats may be obtained from the Land Office at the Bureau of Land Management, Oregon/Washington State Office, 333 SW. 1st Avenue, Portland, Oregon 97204, upon required payment. A person or party who wishes to protest against a survey must file a notice that they wish to protest (at the above address) with the Oregon/Washington State Director, Bureau of Land Management, Portland, Oregon.

FOR FURTHER INFORMATION CONTACT: Kyle Hensley, (503) 808–6124, Branch of Geographic Sciences, Bureau of Land Management, 333 SW. 1st Avenue, Portland, Oregon 97204. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–(800)–877–8339 to contact the above individual during normal business hours. The FIRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: Before including your address, phone number, email address, or other personal...
DEPARTMENT OF THE INTERIOR
Bureau of Land Management

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability.

SUMMARY: The Bureau of Land Management (BLM) announces the availability of the Record of Decision (ROD)/Approved Amendment to the California Desert Conservation Area (CDCA) Plan, the applicable Resource Management Plan (RMP) for the project site and the surrounding areas, located in the California Desert District. The Secretary of the Interior approved the ROD on December 8, 2011, which constitutes the final decision of the Department.

ADDRESS: Copies of the ROD/Approved Amendment to the CDCA Plan are available upon request from the Field Manager, Palm Springs-South Coast Field Office, Bureau of Land Management, 1201 Bird Center Drive, Palm Springs, California, 92262, or via the Internet at the following Web site: http://www.blm.gov/ca/st/en/fo/palmsprings.html.

FOR FURTHER INFORMATION CONTACT: Allison Shaffer, BLM Project Manager; telephone (760) 833–7100; through mail at the address above; or email Allison_Shaffer@blm.gov.

SUPPLEMENTARY INFORMATION: Rice Solar Energy, LLC, a subsidiary of SolarReserve, LLC plans to construct a 150 megawatt (MW) solar concentrating thermal project on 1,410 acres of a 2,560 acre parcel of private land. The site is located 40 miles northwest of Blythe, California, in Riverside County, California. The major generation equipment that makes up the concentrating solar thermal electrical generation plant includes: A central receiver tower, sun tracking heliostat field, and an integrated thermal storage system using molten salt as the heat transfer and storage medium.

With these components, a large field of mirrors or heliostats concentrates and focuses the sun’s energy onto a central receiver. The project uses thermal energy storage that allows solar energy to be captured throughout the day and retained in a molten salt heat transfer fluid. When electricity is generated, hot liquid salt is routed to heat exchangers to heat water and produce steam. The steam is used to generate electricity in a conventional steam turbine cycle.

Rice Solar Energy submitted a right-of-way (ROW) application to the BLM in association with the private land solar energy project. This ROW application was filed to lease approximately 150 acres of BLM-administered land needed to construct and operate a 161/230 kV electrical transmission line (also called a generator tie-line, or “gen-tie”) and an associated access road. A ROW application was also filed by the Western Area Power Administration (Western) to lease approximately 4 acres of BLM-administered land needed for a new substation that would be owned and operated by Western in support of the RSEP.

Under these ROW grants RSEP would be allowed the right to use, occupy and develop a 161/230 kV gen-tie line and associated access road, which would exit the Rice Solar Energy Project, and travel southeast in an undeveloped area of the Sonoran Desert in eastern Riverside County, California where it would then interconnect to Western’s Parker-Blythe #2 161–kV transmission line at the substation proposed by Western. The gen-tie line and access road as proposed would traverse 8.27 mile in a 150 foot width right-of-way corridor occupying 150 acres of land administered by the BLM.

The substation as proposed by Western would be 300 feet wide by 400 feet long, causing approximately 4 acres of permanent disturbance on BLM lands. Associated infrastructure in the ROW grant would occupy approximately 154 acres of public land administered by the BLM. This project site is in the California Desert District within the planning boundary of the California Desert Conservation (CDCA) Plan, which is the applicable Resource Management Plan (RMP) for the project site and surrounding areas. The CDCA Plan, while recognizing the potential compatibility of solar generation and transmission on public lands requires that all sites associated with power generation or transmission not already identified in the Plan be considered through the BLM’s land use plan amendment process. As a result, prior to approval of the ROW grant to the RSEP, the BLM must amend the CDCA Plan to allow the substation as proposed by Western and a transmission corridor leading from the site onto BLM land. The approved Amendment to the CDCA Plan specifically revises the CDCA Plan to allow for the development of the RSEP gen-tie line and ancillary facilities on land managed by the BLM.

The BLM preferred alternative would result in the construction of a gen-tie line, access road and substation to support the Rice Solar Energy Project, capable of producing 150 MW of electricity. This alternative was evaluated in the Final Environmental Impact Statement (EIS). The Notice of Availability of the Final EIS for the RSEP and the proposed CDCA Plan amendment was published in the Federal Register on June 10, 2011 (76 FR 34073). Subsequently, a 30-day protest period for the proposed amendment to the CDCA Plan was initiated (76 FR 47608, Aug. 5, 2011). At the close of the 30-day period on September 6, 2011, one written protest was received and dismissed, and did not result in changing the decision. This protest dismissal is summarized in the Director’s Protest Resolution Report attached to the ROD. Along with the protest period, the Governor of California conducted a 60-day consistency review of the proposed CDCA Plan amendment to identify any inconsistencies with State or local plan, policies or programs; no inconsistencies were identified.

Because this decision is approved by the Secretary of the Interior, it is not subject to administrative appeal (43 CFR 4.410(a)(3)).

Authority: 40 CFR 1506.6.

Neil Kornze,
Acting Deputy Director, Bureau of Land Management.
