

metropolitan statistical areas (MSAs) with high AIDS prevalence.

Internet-using MSM will be recruited through a direct marketing method that utilizes selective placement of banner advertisements on non-profit and privately owned Web sites. Individuals interested in learning more about the survey will click on the banner ad and will be directed to a one-minute screening interview to determine eligibility for participation in a behavioral assessment with an estimated duration of 14 minutes. The data from the assessment will provide

estimates of behavior related to the risk of HIV and other sexually transmitted diseases, history of HIV testing, and use of HIV prevention services. No other federal agency collects this type of information nationally from MSM. These data are expected to have substantial impact on prevention program development and monitoring at the local, state, and national levels.

CDC estimates that the proposed web-based behavioral assessment will involve, per year in the 56 U.S. jurisdictions and 21 oversampled MSAs, eligibility screening of 309,090 persons.

Of these, an estimated 139,090 either will not be interested in completing the behavioral assessment or will be ineligible after completing the screener and an estimated 170,000 eligible persons will participate in the behavioral assessment, resulting in a total of 510,000 eligible survey respondents and 417,270 ineligible screened persons during a 3-year period.

Participation of respondents is voluntary and there is no cost to the respondents other than their time. The total estimated annual burden hours are 44,819.

ESTIMATED ANNUALIZED BURDEN HOURS

Respondents	Form	No. of respondents	No. of responses per respondent	Average burden per response (in hours)
Persons screened for eligibility	Eligibility Screener	309,090	1	1/60
Eligible persons	Behavioral Assessment	170,000	1	14/60

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Centers for Medicare & Medicaid Services.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare & Medicaid Services (CMS) is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

1. *Type of Information Collection Request:* Revision of a currently

approved collection; *Title of Information Collection:* State Plan Under Title XIX of the Social Security Act (Base plan pages, Attachments, Supplements to attachments); *Use:* State Medicaid agencies complete the plan pages and CMS reviews the information to determine if the State has met all of the provisions that the State has chosen to implement. If the requirements are met, CMS will approve the amendments to the State's Medicaid plan giving the State the authority to implement the flexibilities. For a State to receive Medicaid Title XIX funding, there must be an approved Title XIX State plan; *Form Number:* CMS-179 (OCN 0938-0193); *Frequency:* Occasionally; *Affected Public:* State, Local, or Tribal Governments; *Number of Respondents:* 56; *Total Annual Responses:* 1,120; *Total Annual Hours:* 400. (For policy questions regarding this collection contact Candice Payne at (410) 786-4453. For all other issues call (410) 786-1326.)

2. *Type of Information Collection Request:* Reinstatement without change of a previously approved collection; *Title of Information Collection:* Worksheet for Recording Results of Medicare Site Visits of Independent Diagnostic Testing Facilities (IDTFs); *Use:* The worksheet (form) was developed, approved by the Office of Management and Budget, and implemented to provide CMS with a standard format to collect and verify information regarding the compliance of IDTFs with the performance standards found in 42 CFR 410.33(g). This previously approved form was allowed to expire in error. CMS is now seeking to reinstate the use of this form.

The worksheet is used to collect and record information obtained on IDTF site visits; the data collected during site visits facilitates the verification of the accuracy and completeness of the information the IDTF furnished on its CMS-855B enrollment application. The worksheet is completed by CMS or its contractors. Some of the answers to the questions/data elements on the worksheet are verbally furnished by the IDTF during the site visit; *Form Number:* CMS-10221 (OCN 0938-1029); *Frequency:* Occasionally; *Affected Public:* Private Sector (Business or other for-profits); *Number of Respondents:* 2,000; *Total Annual Responses:* 2,000; *Total Annual Hours:* 4,000. (For policy questions regarding this collection contact Michael Collett at (410) 786-6121. For all other issues call (410) 786-1326.)

3. *Type of Information Collection Request:* Extension of a currently approved collection; *Title of*

Information Collection: Early Retiree Reinsurance Program Survey of Plan Sponsors; *Use:* Under the Patient Protection and Affordable Care Act (42 U.S.C. 18002) and implementing regulations at 45 CFR part 149, employment-based plans that offer health coverage to early retirees and their spouses, surviving spouses, and dependents are eligible to receive tax-free reimbursement for a portion of the costs of health benefits provided to such individuals. The statute limits how the reimbursement funds can be used, and requires the Secretary of HHS to develop a mechanism to monitor the appropriate use of such funds. The survey that is the subject of this PRA package is part of that mechanism; *Form Number:* CMS-10408 (OMB 0938-1150); *Frequency:* Yearly; *Affected Public:* Private Sector (Business or other for-profit and Not-for-profit institutions); *Number of Respondents:* 2,076; *Total Responses:* 2,076; *Total Hours:* 22,836. (For policy questions regarding this collection contact David Mlawsky at (410) 786-6851. For all other issues call (410) 786-1326.)

4. *Type of Information Collection Request:* Extension without change of a currently approved collection; *Title of Information Collection:* Medicare and Medicaid Programs OASIS Collection Requirements as Part of the CoPs for HHAs and Supp. Regs. in 42 CFR 48.55, 484.205, 484.245, 484.250; *Use:* This data set is currently mandated for use by Home Health Agencies (HHAs) as a condition of participation (CoP) in the Medicare program. Since 1999, the Medicare CoPs have mandated that HHAs use the OASIS data set when evaluating adult non-maternity patients receiving skilled services. The OASIS is a core standard assessment data set that agencies integrate into their own patient-specific, comprehensive assessment to identify each patient's need for home care that meets the patient's medical, nursing, rehabilitative, social, and discharge planning needs; *Form Number:* CMS-R-245 (OCN 0938-0760); *Frequency:* Occasionally; *Affected Public:* Private Sector (Business or other for-profit and Not-for-profit institutions); *Number of Respondents:* 11,495; *Total Annual Responses:* 16,476,008; *Total Annual Hours:* 16,567,968. (For policy questions regarding this collection contact Robin Dowell at (410) 786-0060. For all other issues call (410) 786-1326.)
