might have. The following data will be collected: demographic information on parents/caregivers and their children; parent/caregiver understanding of the CPS messages shown to them; and parent/caregiver perception of safest behavior to follow for properly restraining their children depending on their children’s age. At the conclusion of the survey, participants will receive information on child passenger safety and specific information regarding the locations of inspection stations and car seat check events that are available in the area. An incentive will also be given to all participants.

The participants would respond to the proposed surveys using touch-screen computers to reduce survey length and minimize recording errors. No personally identifiable information will be collected during the surveys. Description of the Need for the Information and Proposed Use of the Information—NHTSA was established to reduce the number of deaths, injuries, and economic losses resulting from motor vehicle crashes on the Nation’s highways. As part of this statutory mandates, NHTSA is authorized to conduct research as a foundation for the development of motor vehicle standards and traffic safety programs.

In support of this mission, NHTSA proposes to collect information from parents and caregivers on their understanding and perceptions of child passenger safety messages. The response information is necessary to determine the most effective CPS messages that would influence parents and caregivers to seek the most appropriate restraint systems for their children (less than 13 years of age). In addition, NHTSA will publish the findings of this research study to provide information to States, localities, and other interested organizations in support of their efforts to reduce and prevent injuries among child occupants.

Description of the Likely Respondents (Including Estimated Number, and Proposed Frequency of Response to the Collection of Information)—NHTSA proposes to conduct computer-generated response tests with 600 parents and caregivers of young children less than 13 years of age. Data collection is expected to take place over a 3 month period in the Summer and Fall of 2012.

Estimate of the Total Annual Reporting and Record Keeping Burden Resulting from the Collection of Information—Each of the 600 participant testing sessions will last approximately 1 hour including the initial introduction and instruction. Data collection is expected to take place over a three-month period during 2012. Therefore, the estimated annual burden is 750 hours. The participants would not incur any reporting cost from the information collection. The participants also would not incur any record keeping burden or record keeping cost from the information collection.

Jeffrey Michael, Associate Administrator, Research and Program Development.

BILLING CODE 4910–99–P

DEPARTMENT OF TRANSPORTATION
Surface Transportation Board

[Docket No. FD 35564 (Sub-No. 1)]

North Carolina & Virginia Railroad Company, LLC, Chesapeake & Albemarle Railroad Division—Lease Amendment Exemption—Norfolk Southern Railway Company

North Carolina & Virginia Railroad, LLC, Chesapeake & Albemarle Railroad Division (NCVR), a Class III carrier, has filed a verified notice of exemption under 49 CFR 1150.41 to amend a lease with Norfolk Southern Railway Company (NSR). The Lease and Option to Purchase Agreement, dated February 28, 1990, as amended, (the Original Lease) covers 66 miles of railroad. The line runs between approximately milepost NS–8.0 at Chesapeake, Va., and approximately milepost NS–74.00 at Edenton, N.C., including related branch lines and trackage as defined in the Original Lease (the Line). The Line runs through North Hampton County, Va., and Chowan County, N.C.

NCVR states that it and NSR have agreed to extend the terms of the Original Lease and to strike and render null and void all provisions relating to the option to purchase the Line included in the Original Lease. NCVR certifies that its projected annual revenues as a result of this transaction will not exceed those that would make it a Class II rail carrier, but states that its projected annual revenue will exceed $5 million. Accordingly, NCVR is required, at least 60 days before the exemption is to become effective, to post a notice of its intent to undertake the proposed transaction at the workplace of the employees on the affected line, serve a copy of the notice on the national offices of the labor unions with employees on the affected line, and certify to the Board that it has done so. 49 CFR 1150.42(e).

On December 1, 2011, NCVR certified that it posted notice of the proposed transaction at the workplace of employees on the Line on November 29, 2011, and that it served a copy of the notice on the national office of International Machinists Association of Aerospace Workers Union on November 30, 2011. Concurrent with its notice of exemption, NCVR filed a petition for waiver of the 60-day notice requirement of 1150.42(e). The Board will address NCVR’s petition for waiver by separate decision, and will establish in that decision the earliest this transaction may be consummated.

If the verified notice contains false or misleading information, the exemption is void ab initio. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the effectiveness of the exemption. Stay petitions must be filed at least seven days before the exemption becomes effective. An original and ten copies of all pleadings, referring to Docket No. FD 35564 (Sub-No. 1), must be filed with the Surface Transportation Board, 395 E Street SW., Washington, DC 20423–0001. In addition, a copy of each pleading must be served on: Scott G. Williams, 7411 Fullerton Street, Suite 300, Jacksonville, FL 32256, and Louis E. Gitomer, 600 Baltimore Avenue, Suite 301, Towson, MD 21204.

Board decisions and notices are available on our Web site at “http://www.stb.dot.gov.”

Decided: December 13, 2011.

By the Board, Rachel D. Campbell, Director, Office of Proceedings.

Raina S. White, Clearance Clerk.
