submitted in response to this notice will not be returned. Proposals submitted are expected to be unclassified and have no more than four single-sided pages (excluding cover page and resumes). The Coast Guard will select proposals at its sole discretion on the basis of:

(1) How well they communicate an understanding of, and ability to meet, the proposed CRADA’s goal; and
(2) How well they address the following criteria:

(a) Technical capability to support the non-Federal party contributions described; and
(b) Resources available for supporting the non-Federal party contributions described.

Currently, the Coast Guard is considering Cummins, Inc., for participation in this CRADA. This consideration is based on the fact that Cummins, Inc.’s engines power Coast Guard boats in the 49-foot Buoy Utility Stern Loading (BUSL) class, which support the Short Range Aids to Navigation Mission. By virtue of the type of mission and number of boats in the class, the BUSL is considered the best candidate test platform; however, the Coast Guard does not wish to exclude other viable participants from similar CRADAs.

This is a technology transfer/development effort. Presently, the Coast Guard has no plan to procure inboard engines that operate on biodiesel fuel blends. Since the goal of this CRADA is “to identify and investigate the advantages, disadvantages, required technology enhancements, performance, costs, and other issues associated with using biodiesel fuel blends in marine inboard engines, with the overarching goal of reducing their Greenhouse Gas (GHG) emissions (i.e. lower carbon footprints),” and not to set future Coast Guard acquisition requirements for same, non-Federal CRADA partners will not be excluded from any future Coast Guard procurements based solely on their participation within this CRADA.

Special consideration will be given to small business firms/consortia, and preference will be given to business units located in the U.S.

needs. Initial PHAs will use a standardized form to submit portability information to the receiving PHA who will also use the form for monthly portability billing. PHAs and owners will enter into HAP Contracts each providing information on rents, payments, certifications, notifications, and owner agreement in a form acceptable to the PHA. A tenancy addendum is included in the HAP contract as well as incorporated in the lease between the owner and the family. Families that participate in the Homeownership option will execute a statement regarding their responsibilities and execute contracts of sale including an additional contract of sale for new construction units. PHAs that wish to voluntarily transfer their HCV programs will notify HUD for approval and, once approved, all affected families and owners of the divested PHA will be notified. PHAs participating in the project-based voucher (PBV) program will enter into Agreements with developing owners, HAP contracts with the existing and New Construction/Rehabilitation owners, Statement of Family Responsibility with the family and a lease addendum will be provided for execution between the family and the owner.

Members of the Affected Public: State and Local Governments, businesses or other for-profits.

Estimation of the Total Number of Hours Needed to Prepare the Information Collection including the Number of Respondents, Frequency of response, and hours of response: The Number of respondents (2450 PHAs + 245,000 families + 245,000 tenant-based owners) = 492,450 total respondents. Hours per response varies for each form varies from annually, quarterly and on-occasion. Total annual burden hours 1,239,192.

Status of the Proposed Information Collection: Revision of a currently approved collection due to the addition of PBV documents and the reinstatement of financial form, HUD–52663.

Dated: December 8, 2011.

This Notice also lists the following information:

Title of Proposal: Resident Opportunities and Self-Sufficiency Program.

OMB Control Number: 2577–0229.

Description of the Need for the Information and Proposed Use: Section 538 of the Public Housing Reform Act (Pub. L. 105–276, 112 Stat. 2461, approved October 21, 1998) added a new section 34 to the U.S. Housing Act of 1937 which provides a mandate to link supportive services to help public housing residents achieve economic self-sufficiency. The Resident Opportunities and Self-Sufficiency Service Coordinator (ROSS–SC) Program responds to this requirement by providing funding to Public Housing Authorities, Tribes/Tribally Designated Housing Entities (TDHEs), resident organizations, and qualified nonprofit organizations to link residents of public housing to supportive services. For fiscal year 2012, Congress appropriated approximately $50 million for the ROSS–SC Program. Of this funding, HUD reserves $15 million for the Public Housing Family Self-Sufficiency Program.

Section 23 of the 1937 Housing Act established the Family Self-Sufficiency (FSS) program in HUD’s rental voucher and public housing programs. HUD operates two FSS programs, one for the voucher program (Housing Choice Voucher, or HCV FSS) and one for public housing. The purpose of both FSS programs is to promote the development of local strategies to coordinate the use of public housing assistance with public and private resources, to enable families eligible to achieve economic independence and self-sufficiency. OMB asked HUD to
