BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 97

[Docket No. 30817; Amdt. No. 3456]

Standard Instrument Approach Procedures, and Takeoff Minimums and Obstacle Departure Procedures; Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This rule establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs) and associated Takeoff Minimums and Obstacle Departure Procedures for operations at certain airports. These regulatory actions are needed because of the adoption of new or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, adding new obstacles, or changing air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATES: This rule is effective December 20, 2011. The compliance date for each SIAP, associated Takeoff Minimums, and ODP is specified in the amendatory provisions.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of December 20, 2011.

ADDRESSES: Availability of matters incorporated by reference in the amendment is as follows:

For examination—

1. FAA Rules Docket, FAA Headquarters Building, 800 Independence Avenue SW., Washington, DC 20591;

2. The FAA Regional Office of the region in which the affected airport is located;

3. The National Flight Procedures Office, 6500 South MacArthur Blvd., Oklahoma City, OK 73169 or

4. The National Archives and Records Administration (NARA). For information on the availability of this material at NARA, call (202) 741-6030, or go to: http://www.archives.gov/federal_register/code_of_federal_regulations/ibr_locations.html.

Availability— All SIAPs and Takeoff Minimums and ODPs are available online free of charge. Visit <http://www.nfdc.faa.gov> to register. Additionally, individual SIAP and Takeoff Minimums and ODP copies may be obtained from:

1. FAA Public Inquiry Center (APA-200), FAA Headquarters Building, 800 Independence Avenue SW., Washington, DC 20591; or

2. The FAA Regional Office of the region in which the affected airport is located.

FOR FURTHER INFORMATION CONTACT:

Richard A. Dunham III, Flight Procedure Standards Branch (AFS-420), Flight Technologies and Programs Divisions, Flight Standards Service, Federal Aviation Administration, Mike Monroney Aeronautical Center, 6500 South MacArthur Blvd., Oklahoma City, OK 73169 (Mail Address: P.O. Box 25082, Oklahoma City, OK 73125) Telephone: (405) 954-4164.

SUPPLEMENTARY INFORMATION: This rule amends Title 14 of the Code of Federal Regulations, part 97 (14 CFR part 97), by establishing, amending, suspending, or revoking SIAPs, Takeoff Minimums and/or ODPS. The complete regulators description of each SIAP and its associated Takeoff Minimums or ODP for an identified airport is listed on FAA form documents which are incorporated by reference in this amendment under 5 U.S.C. 552(a), 1 CFR part 51, and 14 CFR part 97.20. The applicable FAA Forms are FAA Forms 8260-3, 8260-4, 8260-5, 8260-15A, and 8260-15B when required by an entry on 8260-15A.

The large number of SIAPs, Takeoff Minimums and ODPs, in addition to their complex nature and the need for a special format make publication in the

Federal Register expensive and impractical. Furthermore, airmen do not use the regulatory text of the SIAPs, Takeoff Minimums or ODPs, but instead refer to their depiction on charts printed by publishers of aeronautical materials. The advantages of incorporation by reference are realized and publication of the complete description of each SIAP, Takeoff Minimums and ODP listed on FAA forms is unnecessary. This amendment provides the affected CFR sections and specifies the types of SIAPs and the effective dates of the, associated Takeoff Minimums and ODPs. This amendment also identifies the airport and its location, the procedure, and the amendment number.

The Rule

This amendment to 14 CFR part 97 is effective upon publication of each separate SIAP, Takeoff Minimums and ODP as contained in the transmittal. Some SIAP and Takeoff Minimums and textual ODP amendments may have been issued previously by the FAA in a Flight Data Center (FDC) Notice to Airmen (NOTAM) as an emergency action of immediate flight safety relating directly to published aeronautical charts. The circumstances which created the need for some SIAP and Takeoff Minimums and ODP amendments may require making them effective in less than 30 days. For the remaining SIAPs and Takeoff Minimums and ODPS, an effective date at least 30 days after publication is provided.

Further, the SIAPs and Takeoff Minimums and ODPS contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Procedures (TERPS). In developing these SIAPs and Takeoff Minimums and ODPS, the TERPS criteria were applied to the conditions existing or anticipated at the affected airports. Because of the close and immediate relationship between these SIAPs, Takeoff Minimums and ODPS, and safety in air commerce, I find that notice and public procedures before adopting these SIAPs, Takeoff Minimums and ODPS are impracticable and contrary to the public interest and, where applicable, that good cause exists

for making some SIAPs effective in less than 30 days.

Conclusion

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. For the same reason, the FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 97

Air Traffic Control, Airports, Incorporation by reference, and Navigation (air).

Issued in Washington, DC, on December 9, 2011.

John M. Allen,

Director, Flight Standards Service.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, Title 14, Code of Federal Regulations, part 97 (14 CFR part 97) is amended by establishing, amending, suspending, or revoking Standard Instrument Approach Procedures and/or Takeoff Minimums and/or Obstacle Departure Procedures effective at 0902 UTC on the dates specified, as follows:

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

■ 1. The authority citation for part 97 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40106, 40113, 40114, 40120, 44502, 44514, 44701, 44719, 44721–44722.

■ 2. Part 97 is amended to read as follows:

National Institute of Standards and Technology

15 CFR Part 285

[Docket No 110125063-1687-02]

RIN 0693-AB61

National Voluntary Laboratory Accreditation Program; Operating Procedures

AGENCY: National Institute of Standards and Technology (NIST), Commerce.

ACTION: Final rule.

SUMMARY: The Director of the National Institute of Standards and Technology (NIST), United States Department of Commerce, is issuing a final rule amending the regulations pertaining to the National Voluntary Laboratory Accreditation Program (NVLAP). Regulations concerning the establishment of laboratory accreditation programs (LAPs) within NVLAP are being amended to clarify the original intent of this section and to improve the readability and understanding of the agency's regulations.

DATES: This rule is effective on December 20, 2011.

ADDRESSES: David F. Alderman, Acting Chief, National Voluntary Laboratory Accreditation Program, National Institute of Standards and Technology, 100 Bureau Drive, Stop 2140, Gaithersburg, MD 20899-2140.

FOR FURTHER INFORMATION CONTACT: David F. Alderman, Acting Chief, National Voluntary Laboratory Accreditation Program, National Institute of Standards and Technology, 100 Bureau Drive, Stop 2140, Gaithersburg, MD 20899-2140; telephone number: (301) 975-4019; email address: david.alderman@nist.gov; NVLAP Web site: www.nist.gov/nvlap.

SUPPLEMENTARY INFORMATION:

Background

Title 15 Part 285 of the Code of Federal Regulations sets out procedures and general requirements under which the National Voluntary Laboratory Accreditation Program (NVLAP) operates as an unbiased third party to accredit both testing and calibration laboratories. NVLAP establishes laboratory accreditation programs (LAPs) in response to legislation or requests from government agencies and private sector entities.

The NVLAP procedures were first published in the **Federal Register** on February 25, 1976, and have been revised several times. In 2001, major revisions to the procedures were published to ensure their consistency with certain international standards and guidance documents, and to reorganize and simplify Part 285 for ease of use and understanding. While the existing regulations were accurate, the language was complex and difficult to understand; therefore, the procedures were rewritten in plain English and their subparts consolidated in order to make the regulations more user friendly.

Description and Explanation of Change

The purpose of this rule is to amend section 285.4, *Establishment of laboratory accreditation programs (LAPs) within NVLAP*, so that it conforms to the intent of the 2001 revisions to Part 285 of Title 15 of the CFR and makes the regulations easier to understand. NIST is amending the last sentence in section 285.4 as follows: change the third instance of the word "and" to "or," and add the words "to ensure open participation" after the phrase "other means."

As a signatory to the International Laboratory Accreditation Cooperation (ILAC) Mutual Recognition Arrangement (MRA), NVLAP complies with the requirements of ISO/IEC 17011, *Conformity assessment—General requirements for accreditation bodies accrediting conformity assessment bodies*. The change will allow NVLAP more flexibility in determining how to best fulfill the requirements for impartiality found in ISO/IEC 17011, 4.3.2, by assuring a balanced representation of interested parties when evaluating the need for a requested LAP.

The original intent of the last sentence of section 285.4 was to allow NVLAP the flexibility to employ the most appropriate means to ensure open participation of stakeholders; however, the use of the word "and" may be misinterpreted to mean that a public workshop is required for each and every LAP request. There are numerous means by which consultation with interested parties may be accomplished exclusive of a workshop, which include, but are not limited to meeting with government and individual industry stakeholders on a frequent basis, attending consortia and conferences at which regulators, specifiers, and requesters are in attendance, and soliciting public comments via public notices, electronic communications, and news articles. Further, the use of the word "or" does not preclude the use of both workshops and other means to collect the necessary information.

Summary of Comments

On March 29, 2011, the National Institute of Standards and Technology published a notice of proposed rulemaking and request for comments in the **Federal Register** (76 FR 17367) pertaining to the proposed amendment to section 285.4 of Part 285 of Title 15 of the CFR. The comment period closed on April 28, 2011. No comments were received and there is no other reason to believe that any alteration to the proposed rule is necessary; therefore,
