

ICR to OMB for approval and soliciting comments. The comment period closed on October 4 2011. We received one comment expressing concern that residents of other states, such as New Jersey, did not have access to these resources. Under the provisions of ANILCA, only rural Alaska residents are qualified to engage in subsistence in Alaskan National Parks, Preserves and Monuments, and this survey responds directly to congressional direction to collect information on subsistence uses (ANILCA 812). The commenter also states that it is not necessary to conduct these surveys on an annual basis. We agree and are not proposing to do so. It has been 10+ years since these communities were last surveyed, and we feel that conducting surveys at an interval of 5 to 10 years between surveys of individual communities will provide adequate information for management while not unnecessarily burdening the public.

Comments are invited on: (1) The practical utility of the information being gathered; (2) the accuracy of the burden hour estimate; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden to respondents, including use of automated information techniques or other forms of information technology. All comments will become a matter of public record. While you can ask us in your comment to withhold personal identifying information from public review, we cannot guarantee that we will be able to do so.
