DEPARTMENT OF LABOR

Employment and Training Administration

2002 Reopened—Previously Denied Determinations; Notice of Revised Denied Determinations on Reconsideration Under the Trade Adjustment Assistance Extension Act of 2011 Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974, as amended (19 U.S.C. 2273) (Act) the Department of Labor (Department) herein presents summaries of revised determinations on reconsideration regarding eligibility to apply for Trade Adjustment Assistance for workers by case (TA–W–) number regarding negative determinations issued during the period of February 13, 2011 through October 21, 2011. Notices of negative determinations were published in the Federal Register and on the Department’s Web site, as required by Section 221 of the Act (19 U.S.C. 2271). As required by the Trade Adjustment Assistance Extension Act of 2011 (TAAEA), all petitions that were denied during this time period were automatically reconsidered. The reconsideration investigation revealed that the following worker groups have met the certification criteria under the Trade Adjustment Assistance Extension Act of 2011 Regarding Eligibility To Apply for Worker Adjustment Assistance.

Dated December 12, 2011.
Del Min Amy Chen,
Certifying Officer, Office of Trade Adjustment Assistance.

BILLING CODE 4510–FN–P

DEPARTMENT OF LABOR

Employment and Training Administration

I hereby certify that the aforementioned revised determinations on reconsideration were issued on December 2, 2011. These determinations are available on the Department’s Web site at tradeact/taa/taa_search_form.cfm under the searchable listing of determinations or by calling the Office of Trade Adjustment Assistance toll-free at (888) 365–6822.

Dated December 12, 2011.
Del Min Amy Chen,
Certifying Officer, Office of Trade Adjustment Assistance.

TA–W–75,232A.

The worker group on whose behalf the petition was filed is covered under an existing certification (TA–W–75,232A) which expires on March 25, 2013. Consequently, the investigation has been terminated.

Signed in Washington, DC, this 1st day of December, 2011.
Del Min Amy Chen,
Certifying Officer, Office of Trade Adjustment Assistance.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

Notice of Information Collection

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of information collection.

SUMMARY: The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995 (Pub. L. 104–13, 44 U.S.C. 3506(c)(2)(A)).

DATES: All comments should be submitted within 30 calendar days from the date of this publication.

ADDRESSES: All comments should be addressed Fran Teel, Office of the Chief Information Officer, Mail Suite 2U74, National Aeronautics and Space Administration, Washington, DC 20546–0001.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Fran Teel, Office of the Chief Information Officer, NASA Headquarters, 300 E Street SW., Mail Suite 2U74, Washington, DC 20546, (202) 358–2225, frances.c.teel@nasa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The purpose of this project is to assess if National Park Service (NPS) visitors, as well as visitors to other public lands, are benefiting from an interagency partnership, known as Earth to Sky, by...
measuring awareness and understanding of global climate change in visitors to NPS and other public land locations. An on-site survey will be administered to park visitors to assess their awareness and understanding of global climate change; meaning of and connection to park resources; and perception of trust in sources of information regarding global climate change. Data will be collected in a variety of NPS and other sites. Results will help NASA and other managers of the Earth to Sky partnership assess the success of the partnership efforts and help refine and encourage the continued collaboration.

II. Method of Collection
An on-site survey will be administered to visitors in order to collect the data.

III. Data
Title: An assessment of global climate change in visitors to National Park Service sites and other public lands.
OMB Number: 2700–0146.
Type of Review: Renewal.
Affected Public: Individuals or Households.
Estimated Number of Respondents: 1,200.
Estimated Time per Response: Voluntary.
Estimated Total Annual Burden Hours: 322.5.
Estimated Total Annual Cost: $0.

IV. Requests for Comments
Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA’s estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Fran Teel,
NASA PRA Clearance Officer.

NUCLEAR REGULATORY COMMISSION
[Docket No. 50–219; NRC–2011–0287]
Exemption Request Submitted by Oyster Creek Nuclear Generating Station; Exelon Generation Company, LLC

AGENCY: Nuclear Regulatory Commission.

ACTION: Environmental assessment and finding of no significant impact.

SUPPLEMENTARY INFORMATION:

I. Introduction
The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of an exemption from Title 10 of the Code of Federal Regulations (10 CFR) part 50, Appendix E, Section IV.F.2.c, “Training,” for Renewed Facility Operating License No. DPR–16, to delay the requirement to perform the biennial Emergency Preparedness (EP) exercise to June 2012, as requested by Exelon Generation Company, LLC (the licensee), for operation of the Oyster Creek Nuclear Generating Station (Oyster Creek), located in Ocean County, New Jersey. Therefore, as required by 10 CFR 51.21, the NRC performed an environmental assessment (EA). Based on the results of the EA, the NRC is issuing a finding of no significant impact.

II. EA Summary
Identification of the Proposed Action
The proposed action would grant an exemption to 10 CFR Part 50, Appendix E, Section IV.F.2.c to delay the requirement to perform the biennial EP exercise to June 2012. Currently, the licensee is required to complete the exercise by the end of calendar year (CY) 2011. The proposed action is in accordance with the licensee’s application dated September 30, 2011 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML112730283).

The Need for the Proposed Action
The proposed exemption from 10 CFR Part 50, Appendix E, was submitted due to the impact of Hurricane Irene on the availability of the State of New Jersey county and local government resources. Due to widespread damage and flooding throughout the area, significant resource commitments were needed from the New Jersey State Office of Emergency Management (OEM), the Ocean County OEM, numerous other State departments, and the Division of State Police. As a result, the necessary participants from State agencies will be unavailable to participate in the exercise by the end of CY 2011. By letter dated August 31, 2011,¹ the Federal Emergency Management Agency (FEMA) agreed to postpone its evaluation of the exercise until June 2012.

Environmental Impacts of the Proposed Action
If the requested exemption were to be approved by the Nuclear Regulatory Commission (NRC), the full participation FEMA-evaluated biennial emergency exercise would not be conducted until June of 2012. Changing the date of the exercise does not alter the way the drill will be performed, and therefore, does not alter any environmental impacts that would be incurred by performance of the drill (e.g., use of roads or highways). Delaying performance of the exercise does not change any facility equipment or operations. Thus, the proposed action would not significantly increase the probability or consequences of an accident, create a new accident, change the types or quantities of radiological effluents that may be released offsite, result in a significant increase in public or occupational radiation exposure.

Environmental Impacts of the Alternatives to the Proposed Action
As an alternative to the proposed action, the NRC staff considered denial of the proposed action (i.e., the no-action alternative). Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

Alternative Use of Resources

Agencies and Persons Consulted
In accordance with its stated policy, on December 9, 2011, the NRC staff consulted with the New Jersey State officials for the Department of Environmental Protection regarding the environmental impact of the proposed

¹This letter was not submitted directly to the NRC, but is included as Attachment 3 to the licensee’s exemption request.
