Center for Scientific Review; Notice of Closed Meetings

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. App.), notice is hereby given of the following meetings.

The meetings will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: Center for Scientific Review Special Emphasis Panel Member Conflict: Vascular and Hematology—1.

Date: January 17, 2012.

Time: 3:30 p.m. to 5:30 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institutes of Health, 6701 Rockledge Drive, Bethesda, MD 20892 (Telephone Conference Call).

Contact Person: Anshumali Chaudhari, Ph.D., Scientific Review Officer, Center for Scientific Review, National Institutes of Health, 6701 Rockledge Drive, Room 4124, MSC 7802, Bethesda, MD 20892, (301) 435-1210. chaudhaa@csr.nih.gov.

Name of Committee: Center for Scientific Review Special Emphasis Panel Social Science and Population Studies: Second Panel.

Date: January 19–20, 2012.

Time: 8 a.m. to 3 p.m.

Agenda: To review and evaluate grant applications.

Place: Doubletree Suites by Hilton Santa Monica, 1707 Fourth Street, Santa Monica, CA 90401.

Contact Person: Suzanne Ryan, Ph.D., Scientific Review Officer, Center for

Scientific Review, National Institutes of Health, 6701 Rockledge Drive, Room 3139, MSC 7770, Bethesda, MD 20892, (301) 435-1712. ryansj@csr.nih.gov.

(Catalogue of Federal Domestic Assistance Program Nos. 93.306, Comparative Medicine; 93.333, Clinical Research, 93.306, 93.333, 93.337, 93.393–93.396, 93.837–93.844, 93.846–93.878, 93.892, 93.893, National Institutes of Health, HHS)

Dated: December 14, 2011.

National Center for Complementary & Alternative Medicine; Notice of Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. App.), notice is hereby given of a meeting of the National Advisory Council for Complementary and Alternative Medicine.

The meeting will be open to the public as indicated below, with attendance limited to space available. Individuals who plan to attend and need special assistance, such as sign language interpretation or other reasonable accommodations, should notify the Contact Person listed below in advance of the meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Advisory Council for Complementary and Alternative Medicine.

Date: February 3, 2012.

Closed: 8:30 a.m. to 10:30 a.m.

Agenda: To review and evaluate grant applications.

Place: National Institutes of Health, Building 31, 31 Center Drive, Conference Room 10, Bethesda, MD 20892.

Open: 10:45 a.m. to 4 p.m.

Agenda: A report from the Institute Director and other staff.

Place: National Institutes of Health, Building 31, 31 Center Drive, Conference Room 10, Bethesda, MD 20892.

Contact Person: Martin H. Goldrosen, Ph.D., Chief, Office of Scientific Review, National Center for Complementary and Alternative Medicine, National Institutes of Health, 6707 Democracy Blvd., Ste. 401, Bethesda, MD 20892-5475, (301) 594-2014, goldrosm@mail.nih.gov.

Any member of the public interested in presenting oral comments to the committee may notify the Contact Person listed on this notice at least 10 days in advance of the meeting. Interested individuals and representatives of organizations may submit a letter of intent, a brief description of the organization represented, and a short description of the oral presentation. Only one representative of an organization may be allowed to present oral comments and if accepted by the committee, presentations may be limited to five minutes. Both printed and electronic copies are requested for the record. In addition, any interested person may file written comments with the committee by forwarding their statement to the Contact Person listed on this notice. The statement should include the name, address, telephone number and when applicable, the business or professional affiliation of the interested person.

In the interest of security, NIH has instituted stringent procedures for entrance onto the NIH campus. All visitor vehicles, including taxicabs, hotel, and airport shuttles will be inspected before being allowed on campus. Visitors will be asked to show one form of identification (for example, a government-issued photo ID, driver's license, or passport) and to state the purpose of their visit.

Information is also available on the Institute's/Center's home page: nccam.nih.gov/about/naccam/, where an agenda and any additional information for the meeting will be posted when available.

Prospective Grant of Exclusive License: Avian Influenza Vaccines for Domesticated Poultry/Wild Birds To Be Provided to the National Veterinary Stockpile Program and Avian Influenza Vaccines To Be Sold as Veterinary Biological Products

AGENCY: National Institutes of Health, Public Health Service, HHS.

ACTION: Notice.

SUMMARY: This is notice, in accordance with 35 U.S.C. 209(c)(1) and 37 CFR 404.7(a)(1)(i), that the National Institutes of Health (NIH), Department of Health and Human Services, is contemplating the grant of an exclusive license to practice the inventions embodied in Patent Applications USSN 61/021,596, filed Jan 16, 2008; 61/023,341, filed Jan 24, 2008; PCT/US2009/031329, filed Jan 16, 2009; and USSN 12/838,292, filed Jul 16, 2010; entitled “Influenza DNA Vaccination and Methods of Use Thereof”, by Rao *et al* (NIAID/VRC) (E–050–2008/0,1,2,3), to

ANQUAGEN, LLC having a place of business at 2329 N. Career Avenue, Suite 306, Sioux Falls, SD 57107. The patent rights in this invention have been assigned to the United States of America.

DATES: Only written comments and/or application for a license that are received by the NIH Office of Technology Transfer on or before January 5, 2012 will be considered.

ADDRESSES: Requests for a copy of the patent application, inquiries, comments and other materials relating to the contemplated license should be directed to: Cristina Thalhammer-Reyero, Ph.D., M.B.A., Office of Technology Transfer, National Institutes of Health, 6011 Executive Boulevard, Suite 325, Rockville, MD 20852–3804; Email: ThalhamC@mail.nih.gov; Telephone: (301) 435–4507; Facsimile: (301) 402–0220.

SUPPLEMENTARY INFORMATION: The prospective worldwide exclusive license will be royalty bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7. The prospective exclusive license may be granted unless, within fifteen (15) days from the date of this published Notice, NIH receives written evidence and argument that establishes that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR 404.7.

The invention relates to compositions and methods of use as Veterinary Influenza Vaccines. Sustained outbreaks of highly pathogenic influenza in animals increase the risk of reassortment and adaption to humans. This technology describes DNA vaccines against influenza serotypes H5N1, H1N1, H3N2, and H3N8 for poultry, swine and equine. Particularly one vaccine, a trivalent combination of H5N1 immunogens, effectively protects against homologous and heterologous challenges. These vaccines can be delivered intramuscularly or through needle-free delivery mechanism. These veterinary influenza vaccines are specifically designed for poultry, swine and equine recipients, with the following advantages: (a) More efficient and versatile than the conventional inactivated whole-virus vaccines; (b) Can be precisely tailored to target one or more strains of avian, swine or equine outbreaks; (c) Adaptable to large scale immunization; (e) Shorter production time than the current egg-based technology; (f) Noninfectious and safe to manipulate and handle; (g) Needle-free device delivery elicits robust cellular immune response; and (h) Because they do not contain other viral proteins, a

diagnostic test will enable vaccinated animals to be differentiated from naturally infected animals, key if governments mandate vaccination and a vital consideration for the international industry. Data are available for mice, chickens, pigs, and horses.

The field of use may be limited to “Avian influenza vaccines for domesticated poultry/wild birds to be provided to the National Veterinary Stockpile program and avian influenza vaccines to be sold as Veterinary Biological Products”.

Properly filed competing applications for a license filed in response to this notice will be treated as objections to the contemplated license. Comments and objections submitted in response to this notice will not be made available for public inspection, and, to the extent permitted by law, will not be released under the Freedom of Information Act, 5 U.S.C. 552.

Dated: December 15, 2011.

Richard U. Rodriguez,

Director, Division of Technology Development and Transfer, Office of Technology Transfer, National Institutes of Health.
