SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 USC 8503 (a)(2) and 41 CFR 51-2.3. Its purpose is to provide interested persons an opportunity to submit comments on the proposed actions.

Additions

If the Committee approves the proposed additions, the entities of the Federal Government identified in this notice will be required to procure the services listed below from nonprofit agencies employing persons who are blind or have other severe disabilities.

Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. If approved, the action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will provide the services to the Government.
2. If approved, the action will result in authorizing small entities to provide the services to the Government.
3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 USC Chapter 85) in connection with the services proposed for addition to the Procurement List.

Comments on this certification are invited. Commenters should identify the statement(s) underlying the certification

on which they are providing additional information.

Notice of Availability for the Draft Environmental Impact Statement/ Environmental Impact Report for Proposed Berths 302-306 American President Lines (APL) Container Terminal Project, Port of Los Angeles, Los Angeles County, CA

AGENCY: Department of the Army—U.S. Army Corps of Engineers, DoD.

ACTION: Notice of availability.

SUMMARY: The U.S. Army Corps of Engineers, Los Angeles District Regulatory Division (Corps), in coordination with the Los Angeles Harbor Department/Port of Los Angeles, has completed a Draft Environmental Impact Statement/Environmental Impact Report (EIS/EIR) for the Berths 302-306 American Presidents Line (APL) Container Terminal Project. This Notice serves as the Public Notice/ Notice of Availability for the Draft EIS/EIR for the project.

Berths 302-305 are currently operational and encompass approximately 291 acres of land and water including 12 container cranes, a 4,000-foot-long wharf, utility infrastructure, truck gates, intermodal rail, and terminal buildings to support operations. The Project would result in

an additional 12 container cranes distributed among Berths 302-306 with eight new cranes proposed at Berth 306, a new 1,250-foot-long wharf at Berth 306, and development of 41 acres of backlands for container storage and distribution, including installation of utility infrastructure to support future automation at Berth 306 and the 41 acre backland. The Project would result in an approximately 347-acre marine container terminal, and would include the following construction and operational elements: dredging, wharf construction, additional container cranes; expanded container yard and associated structures and utilities; modification of truck gates, associated structures, and roadwork.

The Port of Los Angeles (Port) requires authorization pursuant to Section 10 of the Rivers and Harbors Act, and Section 103 of the Marine Protection, Research, and Sanctuaries Act, to implement regulated activities in and over waters of the U.S. associated with expanding the existing APL container terminal. The Corps and the Port as the state lead agency have agreed to jointly prepare an EIS/EIR in order to optimize efficiency and avoid duplication. The EIS/EIR is intended to be sufficient in scope to address federal, state, and local requirements and environmental issues concerning the proposed activities and permit approvals. The following proposed activities require authorization from the Corps: (1) Construction of a new 1,250-foot-long concrete pile supported wharf at Berth 306 which is immediately adjacent to the existing 4,000-foot-long wharf at Berths 302-305, (2) installation of 12 new gantry cranes between Berths 302-306 with at least eight (8) new cranes at Berth 306 associated with development and operation of the 41-acre backlands at Berth 306, (3) dredging of approximately 20,000 cubic yards (cy) of sediment from Berth 306 to increase the depth to -55 feet mean lower low water (MLLW) plus an additional two feet of overdepth dredging to -57 feet MLLW, (4) disposal of dredged material in Berth 243-245 confined disposal facility (CDF), the Cabrillo Shallow Water Habitat Area, or at LA-2 (unconfined ocean disposal).
