

Also excluded from the scope of the order are finished heat sinks. Finished heat sinks are fabricated heat sinks made from aluminum extrusions the design and production of which are organized around meeting certain specified thermal performance requirements and which have been fully, albeit not necessarily individually, tested to comply with such requirements.

Imports of the subject merchandise are provided for under the following categories of the Harmonized Tariff Schedule of the United States ("HTS"): 7604.21.0000, 7604.29.1000, 7604.29.3010, 7604.29.3050, 7604.29.5030, 7604.29.5060, 7608.20.0030, and 7608.20.0090. The subject merchandise entered as parts of other aluminum products may be classifiable under the following additional Chapter 76 subheadings: 7610.10, 7610.90, 7615.19, 7615.20, and 7616.99 as well as under other HTS chapters. In addition, fin evaporator coils may be classifiable under HTS numbers: 8418.99.80.50 and 8418.99.80.60. While HTS subheadings are provided for convenience and customs purposes, the written description of the scope of the order is dispositive.

Initiation of Changed Circumstances Review

Pursuant to section 751(b)(1) of the Act, the Department will conduct a CCR upon receipt of a request from an interested party which shows changed circumstances sufficient to warrant a review of the order. On November 7, 2011, New Zhongya filed a request for an antidumping duty CCR in which it claimed that Guangdong Zhongya Aluminum Company Limited is the successor-in-interest to New Zhongya. With its request, the company submitted certain information related to its claim and stated that this name change has not affected the company's management, sales operations, supplier relationships or customer base in any meaningful way. In accordance with section 751(b) of the Act and 19 CFR 351.216, the Department has determined that there is a sufficient basis to initiate an antidumping duty CCR to determine whether Guangdong Zhongya Aluminum Company Limited is the successor-in-interest to New Zhongya.¹

¹ On November 7, 2011, New Zhongya also requested a CCR in the complementary countervailing duty order on aluminum extrusions from the PRC, which the Department rejected due to insufficient information for initiation. See Letter from Kristen Johnson, Acting Program Manager, Office 3, to New Zhongya, dated December 12, 2011.

In making a successor-in-interest determination in antidumping duty proceedings, the Department typically examines several factors including, but not limited to: (1) Management; (2) production facilities; (3) supplier relationships, and (4) customer base. See, e.g., *Brass Sheet and Strip From Canada: Final Results of Antidumping Duty Administrative Review*, 57 FR 20460, 20462 (May 13, 1992) and *Certain Cut-To-Length Carbon Steel Plate from Romania: Initiation and Preliminary Results of Changed Circumstances Antidumping Duty Administrative Review*, 70 FR 22847 (May 3, 2005) (*Plate from Romania*), unchanged in the *Notice of Final Results of Antidumping Duty Changed Circumstances Review: Certain Cut-to-Length Carbon Steel Plate From Romania*, 70 FR 35624 (June 21, 2005). While no single factor or combination of factors will necessarily be dispositive, the Department generally will consider the new company to be the successor to the predecessor company if the resulting operations are essentially the same as those of the predecessor company. See, e.g., *Industrial Phosphoric Acid from Israel: Final Results of Antidumping Duty Changed Circumstances Review*, 59 FR 6944, 6945 (February 14, 1994), and *Plate from Romania*, 70 FR at 22847. Thus, if the record evidence demonstrates that, with respect to the production and sale of the subject merchandise, the new company operates as the same business entity as the predecessor company, the Department may assign the new company the cash deposit rate of its predecessor. See, e.g., *Final Results of Antidumping Duty Changed Circumstances Review: Fresh and Chilled Atlantic Salmon from Norway*, 75 FR 32370, 32371 (June 8, 2010), and accompanying Issues and Decision Memorandum at Comment 1.

During the course of this CCR, cash deposit requirements for subject merchandise exports will continue to be the rate established in the antidumping duty investigation. The cash deposit rates will be altered, if warranted, pursuant only to the final results of the review.

The Department will issue questionnaires requesting additional information concerning the antidumping duty review and will publish in the **Federal Register** a notice of the preliminary results of the CCR, in accordance with 19 CFR 351.221(b)(2) and (4), and 19 CFR 351.221(c)(3)(i). The antidumping duty notice will set forth the factual and legal conclusions upon which our preliminary results are based and a description of any action

proposed. Pursuant to 19 CFR 351.221(b)(4)(ii), interested parties will have an opportunity to comment on the preliminary results of the review. In accordance with 19 CFR 351.216(e), the Department will issue the final results of its antidumping duty CCR not later than 270 days after the date on which the review is initiated.

This notice of initiation is in accordance with section 751(b)(1) of the Act, 19 CFR 351.216(b) and (d), and 19 CFR 351.221(b)(1).

Dated: December 19, 2011.

Christian Marsh,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.
