**Cut-To-Length Carbon-Quality Steel Plate From India, Indonesia, Italy, Japan, and Korea****Determination**

On the basis of the record<sup>1</sup> developed in the subject five-year review, the United States International Trade Commission (Commission) determines, pursuant to section 751(c) of the Tariff Act of 1930 (19 U.S.C. 1675(c)), that revocation of the countervailing duty orders and antidumping duty orders on cut-to-length carbon-quality steel plate from India, Indonesia, and Korea would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time. The Commission also determines that

revocation of the countervailing duty order and antidumping duty order on cut-to-length carbon-quality steel plate from Italy would not be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.<sup>2</sup> The Commission further determines that revocation of the antidumping duty order on cut-to-length carbon-quality steel plate from Japan would not be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.<sup>3</sup>
