SUPPLEMENTARY INFORMATION:**I. Abstract**

One of the goals of the Export Trading Company (ETC) Act of 1982 is to increase U.S. exports of goods and services by encouraging a more efficient provision of export trade services to U.S. producers. Section 104 of the Act directs the U.S. Department of Commerce (DOC) to provide a service to facilitate contact between producers of exportable goods and services, and firms offering export trade services. The Export Trading Company Contact Facilitation Service (CFS) is a database designed to carry out the goal of Section 104 of the Act by putting U.S. producers of goods and services together with U.S. export service providers.

The DOC's International Trade Administration (ITA) maintains the CFS database of U.S. producers and export service providers (export trading and export management firms, export sales agents, freight forwarders, and other export trade service providers) through a public-private partnership. The

producers and export service providers voluntarily register their export interests online at <http://www.exporyellowpages.com>

for inclusion in the CFS. The Export Yellow Pages[reg], an ITA program, uses the CFS to help promote U.S. goods and services, and enable U.S. producers to locate export service providers.

The commercial profiles of CFS registrants are accessible at <http://www.exporyellowpages.com>. CFS registrants are also listed in an annual print directory distributed worldwide. The CFS print and electronic directories are made available through "The Export Yellow Pages". Without the information collected by the form, the CFS database and the resulting directories would be unreliable and ineffective, because end-users of this data need current information about the listed companies.
