

the Clean Air Act. The required information consists of emissions data and other information that have been determined to be private.

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated to average 19 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

**Respondents/Affected Entities:** Calciners and dryers at mineral processing plants.

**Estimated Number of Respondents:** 334.

**Frequency of Response:** Occasionally, semiannually and annually.

**Estimated Total Annual Hour Burden:** 6,434.

**Estimated Total Annual Cost:** \$724,410, which includes \$615,860 in labor costs, no capital startup costs; and \$108,550 in operating and maintenance (O&M) costs.

**Changes in the Estimates:** There is an adjustment decrease in the total estimated burden hours as currently identified in the OMB Inventory of Approved Burdens. The change was due to the fact that there are no new respondents. There is, however, an increase in the estimated labor cost. The increase is not due to any program changes. The change is due to the use of the most updated labor rates.

There is a change in the capital/startup costs vs. operation and maintenance (O&M) costs, which could be attributed to the fact that no capital/startup costs are incurred because there are no new sources. The only cost that is incurred is for the O&M of the monitoring equipment.

**ICR numbers:** EPA ICR No. 1750.06, OMB Control No. 2060-0393.

**ICR Status:** This ICR is scheduled to expire on December 31, 2011. Under OMB regulations, the agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for the EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. **Abstract:** The EPA is required under section 183(e) of the Clean Air Act to regulate volatile organic compound emissions from the use of consumer and commercial products. Pursuant to

section 183(e)(3), the EPA published a list of consumer and commercial products and a schedule for their regulation (60 FR 15264). Architectural and industrial maintenance coatings were included on the list, and the standards for such coatings are codified at 40 CFR part 59, subpart D. The information collection includes initial reports and periodic recordkeeping necessary for the EPA to ensure compliance with Federal standards for volatile organic compounds in architectural coatings. Respondents are manufacturers, distributors, and importers of architectural coatings. Responses to the collection are mandatory under 40 CFR part 59, subpart D—National Volatile Organic Compound Emission Standards for Architectural Coatings. All information submitted to the EPA for which a claim of confidentiality is made will be safeguarded according to the agency policies set forth in 40 CFR part 2, subpart B—Confidentiality of Business Information.

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated to average 29 hours per response. **Estimated Number of Respondents:** 500.

**Frequency of Response:** On occasion.

**Estimated Total Annual Hour Burden:** 14,661.

**Estimated Total Annual Cost:** \$1,261,526, there are no annualized capital or O&M costs.

**Changes in the Estimates:** There is a decrease of 1,980 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease is a result of

fewer tonnage exemptions and exceedance fees reports.
