Title: National Water Quality Inventory Reports (Renewal).

ICR numbers: EPA ICR No. 1560.10, OMB Control No. 2040-0071.

ICR Status: This ICR is scheduled to expire on December 31, 2011. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Section 303(d) of the Clean Water Act requires States to identify and rank waters which cannot meet water quality standards (WQS) following the implementation of technology-based controls. Under Section 303(d), States are also required to establish total maximum daily loads (TMDLs) for listed waters not meeting standards as a result of pollutant discharges. In developing the Section 303(d) lists, States are required to consider various sources of water-quality related data and information, including the Section 305(b) State water quality reports. The State Section 305(b) reports contain information on the extent of water quality degradation, the pollutants and sources affecting water quality, and State progress in controlling water pollution.

EPA's Assessment and Watershed Protection Division (AWPD) works with its Regional counterparts to review and approve or disapprove State Section 303(d) lists and TMDLs from 56 respondents (the 50 States, the District of Columbia, and the five Territories). Section 303(d) specifically requires States to develop lists and TMDLs "from time to time" and EPA to review and approve or disapprove the lists and the TMDLs. EPA also collects State 305(b) reports from 59 respondents (the 50 States, the District of Columbia, five Territories, and 3 River Basin commissions).

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 66,590 hours per year per respondent for the 56 respondents with both 305(b) and 303(d) responsibilities and TMDL development activities. The average reporting burden for the 3 respondents with only 305(b) responsibilities is estimated at 3,659 hours per year. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: States, Territories, River Basin Commissions.
Estimated Number of Respondents: 59.

Frequency of Response: Biennially.
Estimated Total Annual Hour Burden: 3,740,017.

Estimated Total Annual Cost: \$193,658,080. includes no capital or O&M costs.

Changes in the Estimates: There is no change in hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens.

Dated: December 16, 2011.

Director, Collection Strategies Division.

Title: NSPS for Petroleum Refineries (Renewal).

ICR Numbers: EPA ICR Number 2263.03, OMB Control Number 2060-0602.

ICR Status: This ICR is scheduled to expire on December 31, 2011. Under OMB regulations, the Agency may continue to conduct or sponsor the

collection of information while this submission is pending at OMB. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Numbers for EPA regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15, and are identified on the form and/or instrument, if applicable.

Abstract: For the New Source Performance Standards (NSPS) for Petroleum Refineries, the affected entities are subject to the General Provisions of the NSPS at 40 CFR part 60, subpart A, and any changes or additions to the General Provisions specified at 40 CFR part 60, subpart Ja. The affected facilities include: fluid catalytic cracking units, fluid coking units, delayed coking units, process heaters and other fuel gas combustion devices, and sulfur recovery plants. Emissions limitations would be used to control emissions of particulate matter (PM), nitrogen oxides (NO_x), carbon monoxide (CO), sulfur dioxide (SO₂), hydrogen sulfide (H₂S) and/or reduced sulfur compounds (RSC). Work practice standards would apply to depressuring operations and flaring of fuel gases.

All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office. This information is being collected to assure compliance with 40 CFR part 60, subpart Ja, as authorized in sections 112 and 114(a) of the Clean Air Act. The required information consists of emissions data and other information that have been determined to be private.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 59 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.
