

The members will also receive a briefing on recent Cyber attacks and the potential threat of an electromagnetic pulse attack. Both will include lessons learned and potential vulnerabilities of infrastructure assets, as well as potential methods to improve the Federal response to a cyber or electromagnetic pulse attack. Disclosure of this information would be a road map to those who wish to attack our infrastructure, and hence, would certainly frustrate the successful implementation of preventive and counter measures to protect our cyber and physical infrastructure. Therefore, this portion of the meeting is required to be closed under U.S.C. 552b(c)(9)(B). Accordingly, this meeting will be closed to the public.

Dated: December 21, 2011.
