

the next three years; and (2) the growth rate according to the industry sources is very low, negative or non-existent, so there is no significant change in the overall burden. There are no new facilities expected to be constructed over the next three years of this ICR. Therefore, the labor hours and cost figures in the previous ICR reflect the current burden on the respondents and are reiterated in this ICR.

Title: NESHAP for Gasoline Distribution Bulk Terminals, Bulk Plants, Pipeline Facilities and Gasoline Dispensing Facilities (Renewal).

ICR Numbers: EPA ICR Number 2237.03, OMB Control Number 2060-0620.

ICR Status: This ICR is scheduled to expire on December 31, 2011. Under OMB regulations, the Agency may

continue to conduct or sponsor the collection of information while this submission is pending at OMB. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Numbers for the EPA regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Gasoline Distribution Bulk Terminals, Bulk Plants, Pipeline Facilities and Gasoline Dispensing Facilities was published on January 10, 2008 (73 FR 1916), and amended on January 24, 2011 (76 FR 4156). Potential respondents are owners or operators of any existing or new gasoline distribution facilities that are an area source of hazardous air pollutants (HAP) emissions.

In addition to the initial notification and notification of compliance status required by the General Provisions to 40 CFR part 63, subpart A, respondents are required to submit one-time reports of start of construction, anticipated and actual startup dates, and physical or operational changes to existing facilities. Reports of initial performance tests on control devices at gasoline distribution storage tanks, loading racks, and vapor balance systems are also required and are necessary to show that the installed control devices are meeting the emission limitations required by the NESHAP. Annual reports of storage tank inspections at all affected facilities are required. In addition, respondents must submit semiannual compliance and continuous monitoring system performance reports, and semiannual reports of equipment leaks not repaired within 15 days or loadings of cargo tanks for which vapor tightness documentation is not available.

All records are to be maintained for at least five years. All reports are to be submitted to the respondent's State or local agency, whichever has been delegated enforcement authority by the EPA. The information is to be used to determine whether all sources subject to the NESHAP are achieving the standards.

This information is being collected to assure compliance with 40 CFR part 63, subpart BBBB and CCCCC, as authorized in section 112 and 114(a) of the Clean Air Act. The required information consists of emissions data and other information that have been determined to be private.

Burden Statement: The annual public reporting and recordkeeping burden for

this collection of information is estimated to average 8 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Gasoline Distribution Bulk Terminals, Bulk Plants, and Pipeline Facilities; and Gasoline Dispensing Facilities.

Estimated Number of Respondents: 19,120.

Frequency of Response: Initially, and semiannually.

Estimated Total Annual Hour Burden: 60,517 hrs.

Estimated Total Annual Cost: \$6,178,409 which includes \$6,068,409 in labor costs, \$0 capital/startup costs, and \$110,000 in operation and maintenance (O&M) costs.

Changes in the Estimates: There is a decrease in the labor hours in this ICR compared to the previous ICR. A large percentage of affected facilities are already complying with this rule as a result of their compliance with applicable State and local rules. We have minimized or eliminated the reporting and recordkeeping requirements under this rule for most of those sources. There are no new or reconstructed facilities expected within the larger, bulk segment of the industry and new gasoline dispensing facilities are expected to be subject to NESHAP subparts BBBB and CCCC rules. Thus, we have developed this ICR with the expectation that only existing sources will be subject to the reporting and recordkeeping requirements of the rule.

Dated: December 21, 2011.

Product Cancellation Order for Certain Pesticide Registrations

AGENCY: Environmental Protection Agency (EPA).
ACTION: Notice.

SUMMARY: This notice announces EPA's order for the cancellations, voluntarily requested by the registrants and accepted by the Agency, of the products listed in Tables 1 and 2 of Unit II., pursuant to section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This cancellation order follows an April 27, 2011 **Federal Register** Notice of Receipt of Requests from the registrants listed in Table 3 of Unit II. to voluntarily cancel these product registrations. In the April 27, 2011 notice, EPA indicated that it would issue an order implementing the cancellations, unless the Agency received substantive comments within the 180-day comment period that would merit its further review of these requests, or unless the registrants withdrew their requests. The Agency did not receive any comments on the notice. Further, the Agency received notice from registrants to withdraw certain cancellation requests. Accordingly, EPA hereby issues in this notice a cancellation order granting the requested cancellations. Any distribution, sale, or use of the products subject to this cancellation order is permitted only in accordance with the terms of this order, including any existing stocks provisions.

DATES: The cancellations of the products listed in Tables 1 and 2 are effective October 25, 2011.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How can I get copies of this document and other related information?

EPA has established a docket for this action under docket identification (ID) number EPA-HQ-OPP-2010-0014. Publicly available docket materials are available either in the electronic docket at <http://www.regulations.gov>, or, if only available in hard copy, at the Office of Pesticide Programs (OPP) Regulatory Public Docket in Rm. S-4400, One Potomac Yard (South Bldg.), 2777 S. Crystal Dr., Arlington VA. The hours of operation of this Docket Facility are from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The Docket Facility telephone number is (703) 305-5805.

II. What action is the agency taking?

This notice announces the cancellation, as requested by registrants, of 128 products registered under FIFRA section 3 and 108 products registered under FIFRA section 24(c). These registrations are listed in sequence by registration number in Tables 1 and 2 of this unit.

Table 2 contains a list of registrations for which companies paying at one of the maintenance fee caps requested cancellation in the FY 2011 maintenance fee billing cycle. Because maintaining these registrations as active would require no additional fee, the Agency is treating these requests as voluntary cancellations under Section 6(f)(1).
