Federal Aviation Administration

Public Notice for Waiver of Aeronautical Land-Use Assurance; Ohio State University Airport, Columbus, OH

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of intent of waiver with respect to land.

SUMMARY: The Federal Aviation Administration (FAA) is considering a proposal to change a portion of the Ohio State University Airport from aeronautical use to non-aeronautical use and to authorize the swap of the airport property. The proposal consists of the swap of vacant, unimproved land owned by the State of Ohio (State) for land owned by the Board of Trustees of the Ohio State University (University).

The State has requested from FAA a "Release from Federal agreement obligated land covenants" to swap one (1) parcel of property acquired by the

State without Federal funding for three (3) parcels owned by the University.

The above mentioned land is not needed for aeronautical use, as shown on the Airport Layout Plan. There are no impacts to the airport by allowing the State to dispose of the vacant property. Approval does not constitute a commitment by the FAA to financially assist in the disposal of the airport property nor a determination of eligibility for grant-in-aid funding from the FAA. The disposition of proceeds from the disposal of the airport property will be in accordance with FAA's Policy and Procedures Concerning the Use of Airport Revenue, published in the **Federal Register** on February 16, 1999.

In accordance with section 47107(h) of title 49, United States Code, this notice is required to be published in the **Federal Register** 30 days before modifying the land-use assurance that requires the property to be used for an aeronautical purpose.

DATES: Comments must be received on or before January 30, 2012.
