

challenge must be filed with the Chief Administrative Judge within 5 days of the notification by the NRC staff of its grant of access.

If challenges to the NRC staff determinations are filed, these procedures give way to the normal process for litigating disputes concerning access to information. The availability of interlocutory review by the Commission of orders ruling on such NRC staff determinations (whether granting or denying access) is governed by 10 CFR 2.311.³

I. The Commission expects that the NRC staff and presiding officers (and any other reviewing officers) will consider and resolve requests for access to SUNSI, and motions for protective orders, in a timely fashion in order to minimize any unnecessary delays in identifying those petitioners who have standing and who have propounded contentions meeting the specificity and basis requirements in 10 CFR part 2. Attachment 1 to this Order summarizes the general target schedule for

processing and resolving requests under these procedures.

It is so ordered.

Dated at Rockville, Maryland, this 20th day of December 2011.

For the Nuclear Regulatory Commission.
Annette L. Vietti-Cook,
Secretary of the Commission.

ATTACHMENT 1—General Target Schedule for Processing and Resolving Requests for Access to Sensitive Unclassified Non-Safeguards Information in this Proceeding

Day	Event/Activity
0	Publication of Federal Register notice of hearing and opportunity to petition for leave to intervene, including order with instructions for access requests.
10	Deadline for submitting requests for access to Sensitive Unclassified Non-Safeguards Information (SUNSI) with information: supporting the standing of a potential party identified by name and address; describing the need for the information in order for the potential party to participate meaningfully in an adjudicatory proceeding.
60	Deadline for submitting petition for intervention containing: (i) Demonstration of standing; (ii) all contentions whose formulation does not require access to SUNSI (+25 Answers to petition for intervention; +7 requestor/petitioner reply).
20	Nuclear Regulatory Commission (NRC) staff informs the requestor of the staff's determination whether the request for access provides a reasonable basis to believe standing can be established and shows need for SUNSI. (NRC staff also informs any party to the proceeding whose interest independent of the proceeding would be harmed by the release of the information.) If NRC staff makes the finding of need for SUNSI and likelihood of standing, NRC staff begins document processing (preparation of redactions or review of redacted documents).
25	If NRC staff finds no "need" or no likelihood of standing, the deadline for requestor/petitioner to file a motion seeking a ruling to reverse the NRC staff's denial of access; NRC staff files copy of access determination with the presiding officer (or Chief Administrative Judge or other designated officer, as appropriate). If NRC staff finds "need" for SUNSI, the deadline for any party to the proceeding whose interest independent of the proceeding would be harmed by the release of the information to file a motion seeking a ruling to reverse the NRC staff's grant of access.
30	Deadline for NRC staff reply to motions to reverse NRC staff determination(s).
40	(Receipt +30) If NRC staff finds standing and need for SUNSI, deadline for NRC staff to complete information processing and file motion for Protective Order and draft Non-Disclosure Affidavit. Deadline for applicant/licensee to file Non-Disclosure Agreement for SUNSI.
A	If access granted: Issuance of presiding officer or other designated officer decision on motion for protective order for access to sensitive information (including schedule for providing access and submission of contentions) or decision reversing a final adverse determination by the NRC staff.
A + 3	Deadline for filing executed Non-Disclosure Affidavits. Access provided to SUNSI consistent with decision issuing the protective order.
A + 28	Deadline for submission of contentions whose development depends upon access to SUNSI. However, if more than 25 days remain between the petitioner's receipt of (or access to) the information and the deadline for filing all other contentions (as established in the notice of hearing or opportunity for hearing), the petitioner may file its SUNSI contentions by that later deadline.
A + 53	(Contention receipt +25) Answers to contentions whose development depends upon access to SUNSI.
A + 60	(Answer receipt +7) Petitioner/Intervenor reply to answers.
>A + 60	Decision on contention admission.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[NRC-2011-0276]

Union Electric Company; Notice of Receipt and Availability of Application for Renewal of Callaway Plant, Unit 1 Facility Operating License No. NPF-30 for an Additional 20-Year Period

The U.S. Nuclear Regulatory Commission (NRC or Commission) has

received an application, dated December 19, 2011, from Union Electric Company, filed pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, and in Title 10 of the Code of Federal Regulations Part 54 (10 CFR part 54), to renew the operating license for Callaway Plant, Unit 1 (Callaway). Callaway is a pressurized water reactor designed by Westinghouse. Renewal of the license would authorize the applicant to operate the facility for an additional 20-year period beyond the period specified in the current operating license. The current operating license

for Callaway (NPF-30) expires on October 18, 2024. The acceptability of the tendered application for docketing, and other matters including an opportunity to request a hearing, will be the subject of subsequent **Federal Register** notices.

Copies of the application are available to the public at the NRC's Public Document Room (PDR), located at One White Flint North, Room O1-F21, 11555 Rockville Pike, Rockville, Maryland 20852 or through the NRC's Agencywide Documents Access and Management System (ADAMS)

³Requestors should note that the filing requirements of the NRC's E-Filing Rule (72 FR 49139; August 28, 2007) apply to appeals of NRC

staff determinations (because they must be served on a presiding officer or the Commission, as

applicable), but not to the initial SUNSI request submitted to the NRC staff under these procedures.

Accession Number ML113530367. Publicly available documents created or received at the NRC are available online in the NRC Library at <http://www.nrc.gov/reading-rm/adams.html>. In addition, the application is available at <http://www.nrc.gov/reactors/operating/licensing/renewal/applications.html>. Persons who do not have access to the internet or who encounter problems in accessing the documents located in ADAMS should contact the NRC's PDR reference staff at 1 (800) 397-4209 or at (301) 415-4737, or by email to pdr@nrc.gov.

A copy of the license renewal application for Callaway is also available to local residents near the site at the Callaway Public Library, 710 Court St., Fulton, MO 65203.

Dated at Rockville, Maryland, this 23rd day of December 2011.

For the Nuclear Regulatory Commission.

Melanie A. Galloway,

Acting Director, Division of License Renewal, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[NRC-2011-0291]

Receipt of Request for Action

Notice is hereby given that by petition dated April 13, 2011, Paul Gunter and Kevin Kamps of Beyond Nuclear requested that the U.S. Nuclear Regulatory Commission (NRC) take action to immediately suspend the operating licenses of General Electric boiling water reactors with Mark I containments. More than 8,000 copetitioners submitted emails stating that they shared the concerns raised by Beyond Nuclear. Beyond Nuclear and the copetitioners will be referred to collectively as the "petitioners."

In their petition, the petitioners request: enforcement action to ensure that the public health and safety is not unduly being jeopardized by the unsafe operations at twenty one (21) General Electric [GE] Boiling Water Reactors [BWRs] Mark I units that rely upon a fundamentally flawed combination of free standing steel primary containments for their pressure suppression containment system, the installation of the "hardened vent system," or not, and an additional three (3) Mark I units for a total of twenty four (24) units which rely upon used radioactive fuel storage pools (also known as "spent fuel pools" elevated to the top [of] the reactor building outside and above the rated containment structure without safety-related back-up electric power (Class 1 E) systems to cool high-density storage of thermally hot

and highly radioactive nuclear waste in the event of loss of grid power.

This request is being reviewed pursuant to the NRC's regulation at Title 10 of the Code of Federal Regulations (10 CFR) 2.206. The request has been referred to the Director of the Office of Nuclear Reactor Regulation. As provided by 10 CFR 2.206, appropriate action will be taken on this petition within a reasonable time. An NRC Petition Review Board (PRB) held public meetings with the petitioners on June 8, 2011, and October 7, 2011, during which the petitioners supplemented and clarified the requested actions and bases for their petition. The results of those discussions were considered in the PRB's determination regarding the petitioners' request for immediate action and in establishing the schedule for the review of the petition.

By letter dated December 13, 2011, the Director of the NRC's Office of Nuclear Reactor Regulation denied the petitioners' request to immediately suspend the operating licenses of General Electric boiling water reactors with Mark I containments. Although the Director denied the petitioners' request for immediate action, the Director nonetheless accepted their petition for review in part. The Director's findings regarding each of the requested actions and bases for the petition can be found in the NRC's Agencywide Documents Access and Management System (ADAMS) at Accession No. ML11339A078, "Table Summarizing Each Issue for 2.206 Criteria," included in his December 13, 2011 letter. ADAMS may be accessed through the NRC Library at <http://www.nrc.gov/reading-rm/adams.html>.

Copies of the petition and the transcripts from the June 8, 2011 and October 7, 2011 public meetings can be found in ADAMS at Accession Nos. ML11104A058 (petition), ML11167A114 (June 8, 2011 meeting) and ML11292A162 (October 7, 2011 meeting). Copies of these documents are also available for inspection at the Commission's Public Document Room (PDR). The PDR is located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland.

Any additional publicly available documents created or received at the NRC will be accessible electronically through ADAMS. Persons who do not have access to ADAMS or who have difficulty accessing documents in ADAMS should contact the NRC's PDR Reference staff by telephone at 1-(800)

397-4209 or (301) 415-4737, or by email to PDR.Resource@nrc.gov.

Dated at Rockville, Maryland, this 27th day of December 2011.

For the Nuclear Regulatory Commission.

Bruce A. Boger,

Deputy Director, Office of Nuclear Reactor Regulation.

POSTAL REGULATORY COMMISSION

[Docket Nos. MC2012-2 and CP2012-6; Order No. 1071]

New Postal Product

AGENCY: Postal Regulatory Commission.
ACTION: Notice.

SUMMARY: The Commission is noticing a recently-filed Postal Service request to add Priority Mail Contract 36 to the competitive product list. This notice addresses procedural steps associated with this filing.

DATES: *Comments are due:* January 6, 2012.

ADDRESSES: Submit comments electronically via the Commission's Filing Online system at <http://www.prc.gov>. Commenters who cannot submit their views electronically should contact the person identified in **FOR FURTHER INFORMATION CONTACT** by telephone for advice on alternatives to electronic filing.

FOR FURTHER INFORMATION CONTACT: Stephen L. Sharfman, General Counsel, stephen.sharfman@prc.gov or (202) 789-6820.
