SUPPLEMENTARY INFORMATION:

Title: Compendium of State Performance Management Practices and Methodologies for Setting a National Safety Performance Target.

Type of request: New information collection requirement.

Background: This information collection effort is part of a larger project to document the methodologies currently used by the States to develop highway safety performance measures and targets. The research project includes a literature review of current guidance and practices, a technical report on performance management and target setting in comparable non-highway safety environments, a peer exchange to explore methodologies and establish promising practices and finally, alternative methodologies for setting a national highway safety performance target.

This information collection will specifically support a compendium and evaluation of how baseline information is used in individual States, the District of Columbia, Metropolitan Planning Organizations (MPOs), local and tribal agencies to select, set and evaluate performance based highway safety measures and how they affect the overall State's highway safety programs. FHWA proposes to conduct a Web-based survey to evaluate the methodologies used by State Departments of Transportation, State Governor's Highway Safety Offices, select Metropolitan Planning Organizations and local departments of transportation to identify methodologies for selecting highway safety performance measures and methodologies for setting performance targets based on those measures. Sample size will be approximately 150 to 160 persons, representing each of the State Departments of Transportation; each of the Governor's Highway Safety Offices, the District of Columbia, and select MPOs and local departments of transportation. Interview length will be approximately 30 minutes.

The surveys will be conducted by emailing a URL link to the appropriate representative within each organization. A standardized questionnaire will be

used to collect the information from the representatives. This information collection will not require complex statistical analysis and will not be published for general public consumption. The collection will be used to support further research in developing and evaluating a methodology to set and support National and State highway safety performance measures and targets. *Respondents:* State DOT's the District of Columbia, and select MPOs and local departments of transportation (160 total).

Frequency: Annually.

Estimated Average Burden per

Response: It will take approximately 30 minutes per participant.

Estimated Total Annual Burden

Hours: Approximately 30 hours annually.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection of information is necessary for the U.S. DOT's performance, including whether the information will have practical utility; (2) the accuracy of the U.S. DOT's estimate of the burden of the proposed information collection; (3) ways to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued on: December 28, 2011.

Michael Howell,

Acting Chief, Management Programs and Analysis Division.

SUPPLEMENTARY INFORMATION:

Electronic Access and Filing

You may submit or retrieve comments online through the Federal eRulemaking portal at <http://www.regulations.gov>. The Web site is available 24 hours each day, 365 days each year. Electronic submission and retrieval help and guidelines are available under the help section of the Web site.

An electronic copy of this document may also be downloaded from Office of

the Federal Register's home page at: http://www.archives.gov/federal_register and the Government Printing Office's Web page at: <http://www.fdsys.gov>. Late comments will be considered to the extent practicable.

Background

A copy of the proposed Section 4(f) Policy Paper is available for download and public inspection under the docket number noted above at the Federal eRulemaking portal at: <http://www.regulations.gov>. The FHWA invites comments on the proposed policy paper. The FHWA requests that commenters cite the page number of the policy paper for which each specific comment to the docket is concerned, to help make the FHWA's docket comment review process more efficient.

The Section 4(f) Policy Paper was written primarily to aid FHWA personnel with administering Section 4(f) in a consistent manner across the country and is intended to supplement the FHWA's regulations governing Section 4(f). Section 4(f) concerns the use of land from publicly owned parks, recreation areas, wildlife and waterfowl refuges, and public or private historic sites for Federal highway projects. Although these requirements are now codified at 23 U.S.C. 138 and 49 U.S.C. 303, the subject matter remains commonly referred to as "Section 4(f)" because the requirements originated in Section 4(f) of the Department of Transportation Act of 1966 (Pub. L. 89-670, 80 Stat. 931). The FHWA's Section 4(f) regulations, entitled "Parks, Recreation Areas, Wildlife and Waterfowl Refuges, and Historic Sites," were promulgated in 2008 and are codified at 23 CFR Part 774. When finalized, this draft Section 4(f) Policy Paper will replace the previous Section 4(f) Policy Paper that was issued by FHWA in 2005. Congress amended Section 4(f) in Section 6009 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) (Pub. L. 109-59, Aug. 10, 2005, 119 Stat. 1144). This draft Section 4(f) Policy Paper incorporates the changes required by Section 6009 of SAFETEA-LU and the 2008 regulations.

Comments on the draft Section 4(f) Policy Paper are welcome from any interested party, including highway project applicants; Federal, State, and local resource agencies; industry trade groups; environmental organizations; and the general public. The FHWA will consider all comments received during the comment period prior to finalizing the Section 4(f) Policy Paper.
