

keep them operationally current. It, therefore, (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This proposed rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This proposed regulation is within the scope of that authority as it would remove Class E airspace at Southport, NC and establish Class E airspace at Cape Fear Regional Jetport/Howie Franklin Field, Oak Island, NC.

The Proposal

The FAA is considering an amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 to establish Class E airspace at Marion, AL, providing the controlled airspace required to support the new RNAV GPS standard instrument approach procedures for Vaiden Field. Controlled airspace extending upward from 700 feet above the surface would be established for the safety and management of IFR operations at the airport.

Class E airspace designations are published in Paragraph 6005 of FAA order 7400.9V, dated August 9, 2011, and effective September 15, 2011, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This proposed rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that

section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This proposed regulation is within the scope of that authority as it would establish Class E airspace at Vaiden Field, Marion, AL.

International Services Surveys and Direct Investment Surveys Reporting

AGENCY: Bureau of Economic Analysis.

ACTION: Proposed rule; request for comments.

SUMMARY: The Bureau of Economic Analysis (BEA) proposes to revise its rules to establish general guidelines for reporting on international trade in services and direct investment surveys provided for by the International Investment and Trade in Services Survey Act (22 U.S.C. 3101 to 3108, (the Act)). In addition to the Act, the Omnibus Trade and Competitiveness Act of 1988 (15 U.S.C. 4908) provides authority for the international trade in services surveys. Currently, international trade in services and direct investment surveys are promulgated through separate rulemaking actions. This rule will modify the guidelines to allow such surveys to be issued through notices rather than as more formal rulemakings. The purpose of this rule is to provide a more general framework for collection of data on these surveys that are required, or provided for, by the statutes. The effect of this rule is to simplify and generalize existing regulations governing the procurement of information on international trade in services and direct investment.

DATES: Comments on this proposed rule will receive consideration if submitted in writing on or before 5 p.m. March 6, 2012.
